A FURNISHED HOUSE, 91 CLERGY street west. For particulars apply at the above address.

STRIKE ALMOST CERTAIN.

Montreal Street Railway May Be Tied Up.

Montreal, May 22.—The street railway employees were in session in Empire hall until after two o'clock this morning. No vote was taken at the meeting, but the men said afterwards that it had been decided to give the Montreal Street Railway committee until to-night to further consider the demands of the men. If a favorable reply is not received, a meeting will be held at midnight to-night, when a vote will be taken as to whether or not the men will strike. If a strike is ordered, it will go into effect at once, and the proability is that in that event no union men will take their cars out on Saturday morning.

In discussing the situation after the meeting, several of the men said they believed that a strike would be called, as the company had refused to consider their demands, and they would accept nothing else.

Our assortment of fresh taffies, marrowbones, etc., is exceedingly ample, while lovers of good chocolates and bon-bons pronounce our's "par excellence." W. J. Crothers.

# ADMIRALTY

Issues An Important White Paper.

## BRITISH TRADE.

ERRONEOUS ABSTRACT MADE REGARDING IT.

Review of Britain's Sea Power From Earliest Times—Importance of Trade With Colonies Clearly Shown.

New York, May 22.—The Sun's London cable says: The admiralty has issued an important white paper, correcting an erroneous abstract of British trade which was presented at the conference of colonial premiers last June. The memorandum, which is on the sea power, contains a brief review of naval tactics from the earliest times, with a view of emphasizing the absolute necessity of maintaining command of these. It also places in a clear light the importance of the trade of the colonies. The annual value of British trade, including bullion and specie, which it is the ultimate object of the navy to protect, amounted in the year 1900 to: Trade of the United Kingdom with foreign countries £111,838,000; with British dominions beyond the seas to £237,098,000. Trade of British dominions beyond the seas as with foreign countries and among themselves £254,342,000. Total trade of empire, £1,203,278,000. The figure £254,342,000 is arrived at by deducting the sum of £72,624,000 from the sum of the total amounts of the trade of all the dominions, in order to allow for the duplication of reciprocal trade of these colonies among themselves. It will also be seen that about one-fifth of the total trade of the empire is not directly connected with the United Kingdom.

BE SEATED, GENTLEMEN.

Well-known Minstrel Retires From Fraternity.

New Rochelle, N.J., May 22.—At a recent entertainment here George H. Primrose, who for the last twenty-five years has been prominent in America's minstrelsy, made his last appearance in that line, and he received an ovation. Lew Dockstader and all the other performers were also loudly applauded.

The theatre was crowded to its utmost capacity by a fashionable audience, including many residents of outside places.

"Yes," said Mr. Primrose after the performance, "this ends my connection with minstrelsy. I've been in it since '68, and I've been a manager for twenty-five years. I've had enough of the one night stands, and I'm through with it. Luckily, I'm one of the fortunate fellows, and I've laid by enough so that I can go slow now. Don't let the public think I'm an old man or that I've quit the theatrical business. Nothing of the sort. I've quit minstrelsy, but I'm going to stay on the stage. What am I going to do? Oh, I'm not ready to tell my plans just yet. But I'm going to keep before the public."

SIMMERING DISCONTENT.

May Crop Out in Dangerous Form in Russia.

London, May 22.—The simmering discontent engendered by the miserable social conditions under which the poor live in Russia, threatens to crop out in a dangerous form in St. Petersburg next week, unless preparations to check it are made, as they probably will be in such a scale as to swamp the huge labor demonstration which is believed to be secretly organizing for Thursday, Friday, and Saturday of next week. These are the days fixed for a popular commemoration of the two hundredth anniversary of the founding of the capital by Peter the Great. According to letters received from St. Petersburg, revolutionaries are arranging that the labor demonstration that was originally designed to be held on May 1st, shall coincide with the popular fetes, and as it is feared that the demonstration will result in serious disorder, the administrative authorities are much concerned. The police have requested the owners of workshops and factories not to grant a holiday to their employees during the fetes.

Hay's Nephew To Be Married.

Decatur, Ill., May 22.—A wedding of note last evening was that of Lieut. Charles Edward Hay, Jr., U. S. A., and Miss Sarah Jane Roby, of this city. The bridegroom is a son of former Mayor Charles E. Hay, of Springfield, Ill., and a nephew of Secretary of State Hay. Lieut. Hay and his bride will reside at Fort Harrison, Mont.

Died In Dentist's Chair.

Hamilton, May 22.—Mrs. Green, colored, daughter of Mrs. Buckingham, north Jarvis street, died in a dentist's chair last night, while under the influence of an anaesthetic. The coroner decided that an inquest was not necessary. Mrs. Green was but twenty-six years of age and had a weak heart.

Rabbis Issue Divorces.

New York May 22.—Justice Leveritt took occasion in the supreme court yesterday to condemn the practice so prevalent on the east side by Rabbis of issuing Hebrew divorces or "Ghets" to mis-mated couples without instructing them that such divorces are utterly valueless and illegal.

Beef, Iron and Wine, large size 50c. Taylor's Palm Garden Drug Store.

HIGHER SALARIES.

Officers Will Probably Receive Better Pay.

Toronto, May 22.—The legislature sat for two hours and a half yesterday, and while at work the house assumed a very busy appearance. A number of government orders were attended to, including Mr. Harcourt's bill to amend the public schools act, under which discussion occurred relating to the salaries of inspectors. Both sides of the house agreed as to the insufficiency of the salaries, and Mr. Harcourt undertook to have a clause inserted in the bill dealing with the subject.

Mr. Ross stated that the lieutenant-governor would attend the house today to give assent to a number of bills that have received third readings.

Col. Gibson promised Mr. Downey that if he would give him the names of companies carrying on a class of fraudulent loan business to which he referred he would have them struck off the register or otherwise proceeded against. Mr. Downey referred to companies which accepted children's savings on a paid-up share principle, and confiscated the deposits if they ceased payment before the full amount was paid.

Under consideration in committee of Mr. Harcourt's bill to amend the public schools act, Mr. Whitney criticised the payment of public school inspectors. He thought their pay was far too low, and the men having so much work to do could not keep in touch with the learning and advanced methods of their work.

Mr. Harcourt agreed thoroughly with Mr. Whitney, and undertook to include a clause in the direction suggested in a redraft of the bill.

On motion of the premier the house resolved itself into committee of the whole and concurred in a resolution fixing the provincial licenses for circuses and shows as follows: For every circus, menagerie, wild west show (including one side show), travelling with twenty cars or over, $100; under twenty cars, $50; for every dog and pony show and trained animal show, $15; for each additional side show, $10; and for every other show such sum as may be determined by the provincial treasurer for every day upon which the show is licensed to be exhibited.

The house went into committee on a bill including this feature.

Mr. Whitney criticized the measure as being an attempt to take from the municipalities some of their proper taxes and give them to the province.

Mr. Ross explained that the measure would practically take nothing from the municipalities. The old uniform fees charged by the province were being graded.

Mr. Crawford thought the measure amounted to a tax upon the people, because the managers would raise their rates to meet the tax.

The bill was assented to without amendment.

Mr. Whitney said that before the house adjourned he wished to repeat what he had already once said, that he hoped, in view of the vast importance of the subject, that any railway legislation providing for bonuses or grants to railways would be brought down at the earliest moment possible. They were now approaching the end of the session, and members should not be asked to vote on matters which they admit they do not understand.

Mr. Ross made no reply, and the house then adjourned.

MATCHES START FIRES.

Suspicious Character Flees at Approach of Firemen.

Glen Falls, N.Y., May 22.—There is little doubt that many of the fires which in the past few weeks have devastated the great north woods have been of incendiary origin.

It has been difficult to detect the criminals, but fire fighters who had been sent from North Creek to fight a fierce fire on the western slope of Gore mountain, near Second pond, which lies in the counties of Warren and Hamilton, discovered four fires, which were of recent origin. A further search was made and a man was seen who was recognized by the firemen and who fled at their approach. Conservative estimates place the damage to timber, and to business during the past five weeks at $2,000,000.

Rain Badly Needed.

Toronto, May 22.—Despatches received from various parts of the province emphasize strongly the need of rain if the crops are to be saved. In only one section has there been any rain to speak of. Vine fruits in some sections, are said to be shrivelling up. C. C. James, deputy minister of agriculture, regards the situation as alarming and says nothing less than a copious downpour of rain can save the grain crops and grass from withering beyond any hope of saving. Everything in the fields is withering under the scorching sun and moisture is more badly needed now than at any time in the past several years.

Bakers Are Satisfied.

Toronto, May 22.—There will be no bakers' strike in Toronto. A meeting was held last night between the bosses and the men, at which an arrangement was arrived at forming the basis of settlement. The men receive an increase all round of one dollar per week and a fifty-four hour week. The meeting was a most amicable one.

A "Douk" Goes Crazy.

Winnipeg, Man., May 22.—Paropolkin, the chief leader of the fanatical Doukhobors, who endeavored to launch a crusade a few weeks ago, has been arrested on the charge of insanity, and taken to Prince Albert to await examination.

It's A Real Pleasure.

# REVOLTING.

Atrocities Perpetrated On Roumanian Jews.

## AN EYE-WITNESS

DESCRIBES HORRORS IN HOSPITAL WHERE VICTIMS ARE.

Surgeons Attending Wounded Beaten by Mob—Thousands Homeless—Many Lose Their Reason—Roumanian Nobility Patronize Anti-Jewish Press.

London, May 22.—The Jewish Chronicle published additional particulars from the committee appointed to report upon the Kisheneff atrocities. The St. Petersburg correspondent of the committee quotes from the Novosti, the account of an eye-witness, who describes the appearance of the Jewish hospital, where the whole building, the threshold, the staircases and the court yard were dyed with blood. He saw a cripple whose only eye had be gouged, begging the surgeons to kill him; he saw men who had lost their reason under the tortures inflicted upon them and young girls who had been brutally outraged. A police inspector visiting the hospital, pressed his hands to his head in horror and hastened away. The Viedomosti says that a surgeon who was attending the wounded was almost beaten to death by the mob. The Novosti says that in addition to the dead and wounded, there are thousands of temporarily homeless women, men and children. It also says that the newspaper, the Bessababyetz, founded by Kruschewen, a Moldavian, had little circulation till it began attacking the Jews, when he secured the patronage of the Roumanian nobility. He spoke of seven to ten millions of enemies dwelling in the midst of the Russians oppressing the people and undermining their welfare. He called for "Death to the Jews," and other of his phrases were "Jewish corpses must be bound to cart wheels;" "The Jew is an abomination and a parasite;" The correspondent adds that the local Jews are doing their utmost to relieve the suffering. Young Jewesses are attending the sick in the hospitals, and money is pouring in from the Jewish communities of Russia.

Some 12,000 persons are receiving two pounds of bread daily and 2,500 portions are distributed in the soup kitchens gratis, but all this is but a drop in the ocean.

The Daily Mail accuses the war office of reckless carelessness in the disposition of discarded blankets in South Africa. The blankets, this paper declares, were torn into quarters and then sold at auction without being washed. Unscrupulous dealers deftly rejoined the quarters and sold them profitably. The authorities have already traced parcels of presumably typhoid-infected blankets to 150 towns in the United Kingdom.

RARE BOOKS SOLD.

Several Valuable Paintings Under the Hammer.

London, May 22.—At a sale at Sotheby's, yesterday, first editions of the Waverly novels in original boards uncut, brought £500. Isaac Walton's "The Complete Angler," with fine binding, sold for £405. The Pickwick Papers, in original parts, brought £142 and a second folio of Shakespeare, with Hawkins' imprint, sold for £850.

A portrait of Sir John Sinclair, by Raeburn, was sold at Willis' auction rooms yesterday afternoon for 14,000 guineas. A Gainsborough picture of the Duchess of Devonshire brought 900 guineas.

Boys Murder A Smaller Lad.

Ellaville, Ga., May 22.—Details have just been learned here of the killing of the five-year-old son of Albert Wall, a well-known citizen of Schley county by two negro boys, aged ten and twelve years. The negroes enticed the boy into a shuck pen, where, with a heel pin, wrapped in shuck, they attacked him, breaking three ribs and inflicting other injuries. Spinal meningitis resulted from which the boy died after much agony. The boys were caught and are being held pending a full investigation of their crime by the grand jury.

Brilliant Win For Reliance.

New York, May 22.—By a combination of good luck and splendid sailing qualities the new cup yacht Reliance yesterday inflicted such a defeat upon the former cup defender Columbia as she had never before suffered, leading her over the finish line of a twenty-five mile course off Glen Cove by fourteen minutes and forty-three seconds, official time.

Result Of Sunstroke.

Elmira, May 22.—Eli Austin, aged forty-nine years, a deaf mute, employed as a farm hand by William Ward, died here as the result of sunstroke which he received while working in a cornfield. Austin was a genius and was the inventor of many ingenious mechanical devices. He was well educated.

Destroyed By Fire.

Brigden, Ont., May 22.—A saw mill owned by John Hayne was completely destroyed by fire last night. Loss about one thousand dollars. No insurance. The fire is supposed to have started from the furnace.

Bring In The Children.

Boys and girls' straw sailors, tams, and caps in great variety, from 10c. up at Campbell Bros.' swell hat store.

WHAT MANUFACTURERS SAY.

They Would Like to Have Better Instruction.

Toronto, May 22.—The executive council of the Manufacturers' Association met yesterday and decided to arrange for a meeting between the minister of education, the university authorities and the association, with the objection of bringing the university curriculum into close touch with the requirement of Canadian industries. The hope was expressed that the new railway act would become law this session. In the event of the new assessment act not becoming law the association will urge the exemption from taxation of machinery. The western trip will be taken if 120 members will attend. The executive will leave for Vancouver on September 19th. The association will oppose the passage of the Latchford conciliation bill on the ground that it is calculated to strengthen the hands of labor organizations.

AN AWFUL CRIME.

Mother Cut Babies' Throats and Then Her Own.

Allentown, Pa., May 22.—Slatington, a town sixteen miles from here, is aroused over a triple tragedy. Mrs. Alvin Bachman, wife of a mechanic, cut the throats of her two youngest babies with a razor. She then cut both her jugular veins and crawled into a bath tub to die.

The tragedy occurred about nine o'clock Thursday morning. At noon her six-year-old son, a schoolboy, came to the house and finding it locked, crawled through a window, letting in his older brother and a woman boarder, the only ones who came home for dinner. They thought nothing of the woman's absence as she often left mysteriously with her babies.

The boarder prepared the dinner and the three ate it. When the husband returned from work in the evening he discovered the tragedy.

SUCCESSFUL CANADIAN.

Slated For Chief of Remount Department.

London, May 21.—Col. Benson, born in St. Catharines, and who has been assistant adjutant-general for some years, will probably succeed Gen. Truman as chief of the remount department. Col. Benson received his first military education at the Royal Military College, Kingston, and afterwards put in a term at Sandhurst. He served as a volunteer during the Fenian raid of 1866, joined the 21st Hussars in 1869, and was exchanged to the 12th Royal Lancers in 1876. He was appointed adjutant to the lieutenant-governor of the north-west provinces, in India, in 1877. He served through the Egyptian war and also in the South African war. He was appointed adjutant-general in 1898. He is known as the best skater and handsomest man in the army.

TO DEPORT BULGARIANS.

Scheme to Colonize Anatolia and the Isles of Greece.

Constantinople, May 22.—Hilmi Pasha, the inspector-general under the reform movement in European Turkey, is credited with having formulated a plan for the colonization of Anatolia, Asia Minor (or the peninsula forming the western extremity of Asia), and the islands of the Archipelago by Bulgarians whom he proposes to deport wholesale from Macedonia. It is doubtful, however, if the powers will permit this. In the meanwhile Hilmi Pasha has planned to summarily exile to Anatolia the Macedonian prisoners who are suspected of complicity in the recent events in European Turkey, but who have not been convicted.

ANTI-DYNASTIC OUTBREAK.

Situation in China Serious—Telegraphic Communications Cut.

Pekin, May 22.—The Chinese government at the disquieting news of the anti-dynastic outbreak at Yunnan, palace has received a message saying that Linanfu is invested by rebels. The French consul-general at Yunnan reports that the position is serious, and that telegraphic communications with the French frontier have been interrupted.

Make A Wise Choice.

Buy your hats here, where you have the largest stock of up-to-date hats in Kingston to choose from. New styles in light fedoras just in this week, for $1.50, $2, $2.50, at Campbell Bros., Kingston's best hat store.
