LOST FOR YEARS

THE REMARKABLE STORY OF A YOUNG MOREAU.

A Gattineau Point Boy Kidnapped By Peddlers at Six Years of Age Finally Adopted by a Relative in Illinois.

Ottawa, July 8.—A mysterious disappearance, similar to that of the famous Charlie Rose case, but which is likely to end more happily, as the long-lost one has to all appearance been found, is that of young Moreau, of Gattineau Point. Eight years ago the six-year-old son of Xavier Moreau, of that place, suddenly disappeared, and as his hat and mittens were found on the ice on the Ottawa river, it was believed he had been drowned. No trace of the missing had could be obtained. A few weeks ago a cousin of young Moreau had occasion to visit a relative in the city of Illinois, and while there he met with a young man who had taken from the road and adopted, as he had a strong resemblance to the Moreaus, formerly of the Point, and this was quickly discovered by the visitor, who remarked upon the fact that he could not distinctly remember him, but was inclined to think his name was Moreau.

He told an interesting story to the effect that he had been kidnapped by peddlers from his home at Gattineau Point. He related how his kidnappers had taken his hat and mittens from him and placed them on the ice, so that his people might think he was drowned. He had been brought with them in their wanderings until he found himself in Illinois. At last he succeeded in making his escape, and strange as the coincidence may appear, he has, as has already been seen, his boy's cousin. The visitor to Illinois returned last week to the Point with the good news to the overjoyed parents. The mother, after the boy's disappearance, now threatens to lose her senses through excess of joy. The lost one bore a high mark in the shape of a scar on his face, which he said he found his identity will be readily established.

A BARRIEFIELD NURSE

Headed Class in Watertown, N. Y., Hospital.

Barrfield, July 7.—The village has recovered from the effects of the battle of Friday, it was most exciting to each garden hold an ambulance. The sharp-shooting was very sharp indeed. The fortunes of war were very varied, first one side seemed victorious and then the other. We need news, feel glad with each successive bulletin. The camp was very quiet, those living on the main road, scarcely knew there was a camp. This speaks well for those in command.

There has been much improvement made in the roads under the direction of Milton Baillie, pathmaster. The doubling of the price of road work by the council is felt to be a great injustice to the village, and the residents, who are doing the work, do not feel this change. The members who voted for this change will not get many Barrfield votes at the next election.

Miss Isabel Hutton has returned from Watertown, N. Y., where she distinguished herself, graduating at the head of her class from the City hospital. She was elected to read the class paper at the graduating exercises. Her class pin from Tiffany's is the envy of all her friends.

There have been two homes made desolate by the great reaper, one a husband and three small children. The other was Richard Down, one of the oldest residents. Both were great sufferers, and death to them was release from pain. Both families have the sympathy of many friends.

The garden and looking their best and there is an abundance of small fruit almost ready to market. Visitors Miss Marks, Brockville, and Miss Newman, Kingston, and Mrs. Hutton's, Robert Edford, Buffalo, visiting his brother, Miss Donaldson, Ottawa, her sister, Mrs. Fugh's, Norman and Robert Millan, at Mrs. Byrn's.

CANNOT BE EXCLUDED

Vigors Win Right to Use Two Wharves.

Syracuse, N. Y., Post-Standard. By a decision of the appellate division of the fourth department, sitting at Rochester, N. Y., the wharves cannot be excluded from the use of the Crownman and Cornwall docks at Alexandria Bay on the St. Lawrence River. They are excluded from the Erie dock on Walley Island.

The decision is in the case of the Thousand Island Steamboat company against Walter L. Vigors and others, the suit being one of the incidents in the rival companies running steamboats between the different resorts on the river.

An injunction was granted restraining the Vigors from using the three docks. This was released on a bond being furnished to defray costs and meet damages, and the case was tried before a referee. The referee found for the plaintiff, holding that it had exclusive rights in the docks. The bond was renewed and appeal was taken by the Vigors, which was decided yesterday.

The decision of the court is unanimous. As to the Crownman and Cornwall docks, the judgment is reversed and a new trial granted upon questions of law and fact. The judgment is affirmed as to the Erie dock. The decision is without costs to either party. Former Attorney General T. E. Hancock, of this city, appeared for the Vigors.

To Decorate Court House.

Secretary Shaw, of the Old Boys' home-coming, interviewed the county property committee this morning regarding the decoration of the court house during the days of the big celebration. Warden Cox and Councilor Spoor promised to do everything possible towards making the front of the building look gay. A great number of electric lights may be put around the upper part of the dome.

William Chapman, ill the past few days with heart trouble, is getting better.

Adelbert Smith, who resides about a mile and a half from this town, was attacked by a bull a few days ago in S. Gardner's barnyard, and got badly bruised before he succeeded in getting clear of the animal, but fortunately no bones were broken. He is recovering slowly.

LETTERS TO THE EDITOR.

"Farmer" Replies to "County Resident."

Harrowsmith, July 6.—(To the Editor): I am not going to take up much space in your valuable paper this time, but I would like to say a few words in reply to "County Resident's" last letter. I would take from the drift of his letters that he is an experienced hand in dairying, and I think he gets his little bit of knowledge from other people and is merely writing to fill up space in a paper.

With regard to making good cheese, we have had very little experience in the matter around Harrowsmith; for our cheesemaker always turns out a No. 1 cheese, which commands the highest market price. There are so many like "County Resident," who are ready to cry down the farmers, that I am glad to see that the Reporter correspondent has taken the matter up in their defence. In consequence I would just say that "County Resident's" last letter was just a repetition of the ones he had written before, and therefore I think it is useless to try to enlighten him, unless he gets his information from a more experienced quarter. Thanking you, Mr. Editor, for the space I have taken up in your paper from time to time, I remain—Yours truly, FARMER.

Visitors: Miss Chown at Dr. Lockhart's; Mrs. McBride, Mrs. Kirk and Miss Smith at Miss Stewart's; Miss R. Lyon at St. Sproule's.

The steamyacht Idler, from Alexandria Bay, with the Friend brothers and party aboard, was in port to-day.

Mr. and Mrs. W. J. Fair are stopping at the Russell house, Ottawa.

WHAT THEY DO SAY.

American Divise Predicts Amazement.

New York, July 8.—The True Greatness of America and Our Country's Perils was the subject of a sermon preached by the Rev. Dr. Dean Richmond Babitt Sunday night in the Protestant Episcopal church of the Epiphany, Brooklyn. In the course of his sermon he said:

"May I venture to prophesy briefly in the extreme to our British neighbors. Within fifty years or less Canada will be a part of the United States. That prophesy is no rainbow chaser. Mr. Chamberlain knows well the trend of things. But no preferential treatment for Canada that this keen English statesman can devise will ever prevent the keeping apart of these two parts of one proper whole for what God hath joined together let no one put asunder."

"Not only this, the union is being now cemented. In 1902 40,000 American farmers settled in Canada; this year there will be 100,000 more. The American immigration into the vast North-West of Canada in 1902, ending June 30th, was thirty-five per cent of its entire immigration. While with great effort in England, Ireland and Scotland, but twenty-five per cent could be brought there of those loyal could be brought there of those loyal to King Edward. Canada is sure to belong to America by peaceful assimilation and annexation, and the greatness of America, the outcome of her character, is to reach in physical expansion from the Arctic snows of Canada to the gulf. But all this greatness is conditioned on the keeping, by the advancing of America's basal greatness in righteousness, justice, intelligence and strength of character."

HON. MR. DUFFY'S WILL.

Bulk of His Estate He Left to Relatives.

Richmond, Que., July 8.—After the funeral of the late Hon. Mr. Duffy his will was read at Ulverton. The bulk of his estate, valued at between \$75,000 and \$100,000, goes to his relatives, but there are also small bequests to local churches and also to the Anglican church at Swetsburg, of which he was an officer.

One bequest was characteristic of the man. Some years ago a friend, whose name is not divulged, handed him \$1,200 to invest in a particular stock. The investment proved a failure and the friend lost his money, which the late provincial treasurer now returns out of his personal estate.

The Australian crisis is over and the premier consents to retain office.

The Mothers were responsible.

Physicians say that hundreds of people have had their constitutions permanently injured by the use of cheap food forced upon them which was unwholesome. Where is the mother nowadays who does not give her children Oat, Barley or Corn meal for its breakfast?

Malta-Vita

has been studied with delight by the children of Canada. They like it because it tastes so good—it is so thoroughly cooked and so easy to digest that the little people thrive and grow fat upon it.
