SHOULD GO BACK. Two noted offenders were held up in Quebec last year. These were Gaylor and Greene, who held high office in one of the Southern States, and of leading sought refuge in Canada. They had an exciting experience, including an attempted removal by force. The technicalities of the law saved them from extradition, and they have for months been free and residents of Montreal. In May last Mr. McMaster, K.C., acting for the prosecution, appealed to the privy council, and has succeeded in opening the case, and as a matter of grace, and the lawyers for the defence expect that, as a result, the men may have to go back to the United States for trial. It is to be hoped that the expected will happen. Canada is not desirous of being the stamping ground of any offenders, and those who are not willing to face their trial should be made to do so. The feeling is that Gaylor and Greene have so far avoided the demands of the United States courts because they have engaged the ablest Canadian lawyers, and these have used their wits and knowledge to good account. This is a tribute to the legal skill of their defenders, which they may fully appreciate.

A MOST JUST JUDGE. The death of Judge Armour makes a vacancy in the judiciary which it will be difficult to fill. There are in Canada many able lawyers whose translation to the bench is in time to be expected, but it will be hard to find one who will take up the responsibilities which Judge Armour assumed and discharged his duties with the same fidelity. He was an ideal judge, in manner of life, in speech, in look, in mind, in action. His rise in the legal profession was steady and rapid. For about a quarter of a century—from 1850 to 1877—he practiced law at Cobourg, and with great success. For another quarter of a century he was an esteemed member of the Canadian judiciary, doing his work fearlessly and well, and meriting each promotion he received until last year when he was called to the supreme court. The pity is that his life was not spared until he had completed the commission which the imperial government gave him. His clear and judicial mind would have made a difference in the discussion of the Alaska boundary question. Death, however, comes to every man in its own time, and it has taken Judge Armour in the very zenith of his fame and usefulness. He will be remembered for his scholarship, his high sense of justice, for his righteous life and service. In all the years he was before the people he carried himself with a wisdom, a dignity and demeanor most rare.

SUCCESS OF A TRUST. There have been failures of trusts, great failures, and resulting from the high prices which have been paid for the acquirement of business and business plants. The excessive value which has been put upon things under certain circumstances, in the creation of the monopoly, has put profit shaving out of all question. There is one trust, however, which has succeeded and which represents an aggregation of effort rather than of wealth. It is the farmers' trust in Iowa, a trust which has been discussed in the World's Work. Last year it carried on a business of \$620,000, on a capital of \$25,000. It has had an existence of thirteen years, and in that time has carried transactions totalling \$5,000,000, and at no time has had an indebtedness of more than \$5,000.

THE ENGAGEMENTS of this trust are varied enough. It buys and sells all manner of farm and dairy products, poultry, dry-goods, boots and shoes, groceries, hardware, farm machinery, lumber, stone, brick, grain, real estate, etc. It operates on the commission basis. The shares are \$10 each, and they cannot be bought or owned by any one but practical farmers.

The trust has been threatened with competition of all kinds and has gone on in the even tenor of its way. It has invited companies and corporations to buy the farmers' goods for higher prices than it has offered, and to sell them what they want far less than the syndicate can do it. It has been left alone, and it has made money.

Mr. Wood, who summed up their condition for the World's Work, says the five hundred farmers who compose the trust are worth \$5,000,000. Their farms, of 160 acres each, have increased in value until they are worth from \$20 to \$80 per acre. They are succeeding beyond all measure because they strove co-operation and understand its secrets. Others have tried to have plans and failed, because they have not pursued a given course intelligently and consistently.

EDITORIAL NOTES

Charges, of the Soo, is satisfied with the steel and iron bounties. The average rate is not. Who is the best judge of the case?

The conservatives of the old land are now being deluged the party of dear bread! It's an anti-election cry, and a very effective one.

The St. Catharines United Empire Loyalists have forwarded Mr. Chamberlain their satisfaction with his magnificent independence. That ought to bring him peace of mind.

The society in Ottawa which was under suspicion, being regarded as a branch of the Highlanders, is believed to be a Chinese Masonic institution with a ritual as hoary as anything of celestial origin.

The St. James' debt is no longer a disturbing element in the Methodist church, a ghost that will not down, from \$620,000 it has been reduced to \$55,000, and even the smaller sum has been provided for. Thanks, thanks.

H. F. Jordiner, for many years editor of the Hamilton Times, has been appointed superintendent of the Blind asylum at Brantford. He is to be congratulated. So is the government. The choice does honor to the one and credit to the other.

The superintendent of the public schools of Oswego has made a stir by advocating the separation of religion politics and education. "Separate them," said he, "and you have peace. Combine them and you raise hell." The parish priest has undertaken to correct Mr. Bullis' philosophy.

Mr. Baillour is coming round to Chamberlain's way of thinking. Joe is gradually mesmerizing his colleagues. The premier does not see that the old age pension scheme should increase the cost of living! No! Many millions to the annual expenditures, in addition to the land-purchase and war taxes, must make the burdens of the people very heavy.

A SERIOUS ISSUE. Toronto News. The chief concern of the Ottawa government at present is how to keep cows, municipalities and other public nuisances from getting in the way of transportation companies.

HEARD TO FIND. Brantford Expositor. A millionaire sixty times over has just died at Pittsburg, who was not known to the people at large. One can entertain great respect for a man who is just a plain millionaire on the quiet.

DEATH OF A CHILD. Brockville Recorder. Much sympathy is expressed by all for Rev. C. H. and Mrs. Daly, of Lynn, in the loss they have sustained by the death of their little daughter, Marion, six years of age. Five weeks ago she was stricken with scarlet fever, which was followed by an attack of diphtheria, both of a severe type. By skillful medical attendance and tender, careful nursing, these were overcome, but her constitution, which was a weakened condition that she was unable to rally from their effects, and she died Sunday. That afternoon the remains of the little sufferer were laid away to rest in the cemetery at Lynn.

WON BY PONIES. WATERTOWN COULD PLAY ONLY SEVEN INNINGS.

Crowd Surged on the Open Field—Score Resulted 11 to 8—Yacht Club Doings—Sport in General.

The baseball match between Watertown, N.Y., and the Kingston Ponies on the cricket field yesterday afternoon in connection with the Orange demonstration was very unsatisfactory as the crowd naturally surged on to the open ground and greatly hampered the players. Only seven innings were played, as the Watertown team had to catch the seven o'clock boat, and the score then stood eleven to eight in Ponies' favor.

In the first innings "Chauncey" Elliott, while at the bat, was hit on the head by a pit ball, and fell heavily to the ground. After being revived he continued to play, but in the second innings had to retire. Hunt caught one innings, and then Moore was secured for the balance of the match.

The score was sharp batting by both teams but some of the fine work had been caught had the fielders been enabled to get possession of the outfield. Several persons received bad cracks by the line drives.

"Curly" Randolph played left field for the Ponies, and "Bill" Cheney, who was a Pony for two seasons, appeared as short-stop for the Watertown team. "Jim" Sutherland was umpire.

THE SPORTING EVENTS. After the baseball match, which concluded at half past five o'clock, the sports committee attempted to run off the balance of the programme of athletic events, but owing to the lateness of the hour this was found impracticable. Only three events were concluded: 200 yards dash, M. Magillivray; 100 yards dash with a turn, W. Spence; B. Hunt. The other event was a jug-of-war, the teams being Messrs. Coventry, Duffy, Irwin, Jenkins, Southworth, Francis, Berryman, Patterson, Arthur, Paton, N. Wilson, against Messrs. Fee, Roberts, Loney, Beecher, Kearns, Page, Mostyn, McConville, Murray, Bostridge. The first named team won. By the time this event had concluded, cricket field was almost deserted, so the remainder of the programme was cancelled.

MATCH AT WOLFE ISLAND. The Emerald and Wolfe Island baseball teams again met on the island diamond Monday afternoon, and the Islanders won by a score of 13 to 9 in a rather strange match. The winners got nearly all their runs in the first three innings. In the second with three on bases five runs were forced in, no less than four of them getting their bases on balls. The Emeralds protested vigorously against the umpire's decisions, and then put Turcott into the box. The islanders could not win down, but the Emeralds could not win up, but the Emeralds could not win up, but the Emeralds could not win up.

SPORT IN GENERAL. Hull baseball team defeated the Ottawa Shamrocks by 6 to 2. Brantford lacrosse team has played five matches in the last two weeks. "Pat" Quigley, formerly of the Ponies, is in Manitoba playing baseball. Lou Dillon broke the world's trotting record for mares, Saturday, covering a mile in 2:03.

The Toronto Rugby Club are to place a team in the senior series of the O.R.F.U. this fall. Cornwall lacrosse club thinks that if Dale and Hendry are allowed to play with any of the Montreal teams Cornwall ought to be allowed to bring back their colony in the west.

The Pittsburgh team of the National baseball league may be given a tour through Australia, stopping at Honolulu, Manila and Hong Kong. Transatlantic Canada cup challenger, begins her trial races to-day at Chatham. Skipper Barr is said to be willing to accept all the money Canadians wish to be on Strathcona at once.

The University of Toronto played fourteen baseball matches on its recent tour, winning nine and losing four, with one tie. Owing to the rain, it was not as successful financially.

McGuire, the Toronto short-stop with Gannanogue last summer, has been released by Fargo, and Catcher Archer, also of Toronto, has jumped the northern league team and has been blacklisted.

"Bill" Cheney is playing with the Duffiniet baseball team. This is a new town in Northern New York, and "Bill" has his eye on the mayor's bench. He will bring his team to Kingston shortly.

The Rochester eastern league baseball franchise is on the market. It will be sold on terms most advantageous to the present owners, who are desirous of getting rid of it without further ado. They have dropped \$4,000 already. The franchise can be had for \$5,000.

How lacrosse is played in Ottawa is thus described by the Free Press: "The absence of police protection at theVarsity Oval last night gave the twenty-four lacrosse players composing the Nationals and Star teams a chance to do all kinds of things, and they certainly did not miss any opportunity. It was rough-house lacrosse, and while the players in all cases started the game, they were ably assisted and incited by a crowd of rather noisy spectators. On several occasions during the match rough fights were in order, and matters looked serious at times, when the spectators would run in on the players, and in many cases helped their favorites."

Cholera Infantum

There is no danger whatever from this disease when taken in time and properly treated. All that is necessary is to give Chamberlain's Colic, Cholera and Diarrhoea Remedy after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure. When reduced with water and sweetened it is pleasant to take.
