and dearer.

COMMERCIAL MATTERS.

**What Is Going On In The Business
World—The Market News.**

Mexico raised 20,000 bales of the 100-
000 bales of cotton seed each year in
that country.

Texas now produces more cotton than
Georgia and Alabama, the next two
largest cotton states, combined.

In Toronto the hop market is dull
and weak. The crop outlook is reported
to be favorable. Canada 1902
crop are valued at 12c to 20c.

Canadian railway cross securities for
June, as compiled by Don's agency,
were \$1,100,000, a gain of \$100,000, or
31.6 per cent. In the United States
they were \$1,107,000, or 13.1 per cent.

Four great coal strikes are about to
be explained in South Africa. The most
southerly field lies between Ladysmith
and the northern boundary of Natal.
These fields are the world's dis-
tinctly a large part of the world's de-
mand for coal. Natal exported 204,000
tons in 1901.

To Run Sunday Cars.

The street railway company has de-
cided to run Sunday cars. This de-
cision was reached before the meeting
of the city council, re the constitu-
tionality of the Lord's Day act, was
announced. The cars will run from
eight o'clock in the morning until ten
o'clock at night each Sunday, each
car going to Lake Ontario Park.

ODD FELLOWS.

**THEY ARE IN CITY AT RELIEF
MEETING.**

Racy Sketches of the Leaders of
Fraternity Throughout the
Country—Have Faith in As-
sociation.

One of the jolliest crowds that has
struck the city in a long time was
that which assembled here to-day to
attend the annual meeting of the Odd-
fellows' Relief Association. All Odd-
fellows are jolly, and those who are
chosen to represent the different lodges
at this important annual gather-
ing are king-like in the art of
spreading good cheer and sunshine,
not that they are possessed of a su-
perabundance of honeyed words, but
because their conduct is so simple and
leaves a coating of hope and cheerfulness
in its far-reaching effect.

The Oddfellows' Relief Association is
growing each year in importance, and
the influence of its benevolent work is
far-reaching, like the gentle dew from
heaven. The men who are chosen to
represent the association must, by vir-
tue of the good work they are engaged
in, be exemplary citizens, whose
daily life is worthy of emulation by
all Oddfellows and sons of Oddfellows.
He would be an odd fellow, indeed,
who having travelled the rough and
rugged pathway, beset by thieves and
robbers, and by the holy-one in orders
could forget the poor and needy
from his teaching of the lodges room.

Some of Canada's leading citizens
gather here each year to take part in
the proceedings of the annual business
meeting of the Relief Association, and
they return home much benefited by
the outing and the fresh encourage-
ment and incentive they receive from
these gatherings. Among the promi-
nent Oddfellows noticed around the
business board when the roll was
called in the White Hall this afternoon
were the following: Henry White,
Mayor of Port Hope, past grand mas-
ter, who takes his seriously and is an
unquestioned authority on three sub-
jects: Municipal politics, the constitution
of the I.O.O.F., and the rules and laws
governing the Relief Association.

Joseph Oliver, Toronto, one of the
ablest men who have made the Queen
City famous for his hospitality. As
a member of the board of directors,
he is the safety valve which regulates the
flow of the wherewith from the strong
box. He is just an ardent Orange-
man as he is an Oddfellow, but is a
stronger politician than a society
man, and is spoken of as the reform
candidate for one of the nume-
rous Toronto constituencies.

R. K. Cowan, London, Ont., regis-
trary of the high court of justice and
grand master of the I.O.O.F. of On-
tario, lends his presence to the gar-
gling. He takes a deep interest in the
association and is a stickler upon
many points of order. Not only is he
an authority upon legal matters, but
he is looked upon as a veritable ho-
rean of information on subjects per-
taining to forestry. His description of
the nature of the timber growing up
on the site of the proposed Oddfel-
lows' home near Queen's will likely
be adopted and embodied in a text
book for use of students on forestry.

It is said he has refused the chair
of forestry offered him by Queen's Uni-
versity authorities.

Orich Leader Lewis is a fine big
chap, despite the heavy handicap he
suffers with so much name. He is the
immediate past master of the I.O.O.F.
of Ontario, is a member of the
Executive of that body to the Sovereign
Grand Lodge. Fish is his strong
forte, and he has the finest collection
of rods and tackle possessed by any in-
dividual in Canada. On a single cast,
he will undertake, at a single cast,
to catch anything from a minnow to a
whale.

Good J. R. Farrellwell is con-
sidered the leading legal light of the
gathering. He has been widely ac-
knowledged in the crown attorney of his
country. He is also an educationist of
provincial renown. He is possessed of
considerable military ardour, and proudly
wears the green ribbon of a veteran,
as well as the red and white ribbon of
the Fenian raid of 1866. He holds the
rank of colonel and is a gallant and
valorous soldier, who usually makes
a pilgrimage to Buckle Creek.

C. B. Allen, St. John, N.B., a lead-
ing merchant of that place and an
authority on provincial politics, a
personal friend of Hon. A. G. Blair
and other leading politicians.

J. E. McDonald, Toronto, N.S., is a
pure product of the Gaelic race, who
looks after the administration of the
Scott act in Guyborough. He is the most
entirely representative to the annual
meeting of the Relief Association, and
takes a pleasure in coming so far for
so good an object.

W. F. Ross, Winnipeg, manager of
the Pacific Great West, is counted
one of the leading additions of the
Prairie City, and a jolly one at that,
whose presence always lends joy and
alacrity to these gatherings.

C. J. Brown, St. John, Que., is a
recognized authority on poetry, who
can tell at a glance the difference be-
tween the sonorous brevis of her-
ods, and can dilate upon the
beauties of Wyandottet and Hoodoo.
He is manager of the Cornwall Silk
works and comes to Kingston as the
exponent of the legal code of Quebec.

SHE'S ASHORE

**LOSS WILL BE HEAVY IF A
TOTAL WRECK.**

The Cargo She Carried From Mon-
treal—They Were the Cause of
the Strike—Services Dispensed
With.

Montreal, Que., July 15.—Two non-
union ship operatives named Desrosiers
who were the cause of the strike in
J. & T. Bell's factory recently have
been dismissed after fourteen years' ser-
vice with the firm. The men refused
to pay a fine of \$25 levied by the union
and under the terms of the agreement
reached with the strikers the firm
had no option but to dispense with
their services.

During the hot weather of last week
110 children died in Montreal. The
majority lived in the crowded dis-
tricts, and this, together with the
poor milk used, is the cause of the
high mortality.

The Canadian steamship Monterey,
reported ashore from St. Pierre, Mi-
quelon, at Pointe Plate, left this port
on July 11th, with a cargo of 2,046
boxes of tinned goods, 1,338 boxes butter,
7,025 sacks flour, 730 boxes meat, 3,150
pails, and 250 boxes lard, 3,502 pieces
deal 122,246 pieces boards, 88,115
bushels wheat and 1,043 head of cat-
tle. If the steamer and cargo prove a
total wreck the loss will be half a
million dollars.

Percy E. Nobbs, London, Eng., has
been appointed Macdonald professor
of architecture at McGill University,
to succeed Prof. Chaffin, resigned. He
is a Scotchman by birth.

The Montreal Daily Herald has sent
to England one of its editorial staff,
J. C. Walsh, to interview public men
in regard to Chamberlain's preferential
trade proposals, and to estimate the
weight of the forces working for and
against the proposition. As Mr. Walsh
will represent the Canadian point of
view, his interviews should elicit re-
sponses peculiarly interesting to Cana-
dians. His letters will begin in the
Herald in the course of a few days.

Batters' Summer Guests.

Batters, July 14.—The local
Orangemen, reinforced by a few re-
presentatives from Sunbury and In-
verary lodges, paraded to church on
Sunday evening, and listened to the
address, and most comprehensive Orange
speech, by Rev. Mr. Macdonald, who
held the Rev. Mr. Bell took as his
text the words of Joseph's brothers,
"We Are True Men," and the preacher
very forcibly told them all that pro-
fession of faith, John Mackie and
family, of the city, are now occupying
their beautiful cottage at "The Ram-
parts." Another party from the city
are camping on McLean's point. Mr.
Webb and wife, Toronto, accompanied
by a brother-in-law and his wife, have

252 minutes.

Mrs. Mary Rodrick died at Clap-
ton, N.Y., on Monday, aged sixty-
five years. She is survived by three
sons and three daughters.

THE POPE'S CONDITION.

**HE MAY LINGER FOR DAYS AS AT
PRESENT.**

Rome, July 15.—The pope's condi-
tion shows practically no change since
yesterday. After a comparatively
quiet night he became restless during
the forenoon hours and complained
of his inability to sleep. He turned un-
dressed from side to side and seemed
unable to sit in a comfortable
position, but there was no re-
currence of those dangerous periods
of delirium which aroused such apprehen-
sion yesterday. The doctors continue
to feel that the patient's condition is
extremely dangerous, but they say
he may still linger for days.

4:30 p.m.—Perfect calm prevails
about the Vatican. No change is re-
ported in the condition of the pope.
