HAIR GROWTH

Promoted by Shampoos of Cuticura Soap.

And Dressings of Cuticura the Great Skin Cure

Purest, Sweetest, Most Effective Remedies for Skin, Scalp and Hair.

This treatment at once stops falling hair, removes crusts, scales and dandruff, destroys hair parasites, soothes irritated, itching surfaces, stimulates the hair follicles, loosens the scalp skin, supplies the roots with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp when all else fails.

Millions of women now rely on Cuticura Soap assisted by Cuticura Ointment, the great skin cure, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for baby rashes, itchings and chafings, for annoying irritations, or too free or offensive perspiration, for ulcerative weaknesses, and many sanative, antiseptic purposes which readily suggest themselves, as well as for all the purposes of the toilet and nursery.

Cuticura remedies are the standard skin cures and humour remedies of the world. Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation and inflammation, and soothe and heal, and, lastly, in the severer forms, take Cuticura Resolvent, to cool and cleanse the blood. A single set is often sufficient to cure the most torturing, disfiguring skin, scalp and blood humours, from pimples to scrofula, from infancy to age, when all else fails.

Cuticura Resolvent, Royal Red in the form of Chocolate Coated Pills, Cuticura Ointment and Cuticura Soap are sold throughout the world. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Australia, 5 Currie St., Sydney; India, 10 Columbo Ave. Potter Drug & Chemical Corp., Sole Proprietors, Boston, U.S.A.

Our Coal Is As Clean As Though It Were Washed and Brushed.

Each lump stands by itself. Good solid coal—no small solid fire. After coal reaches the surface of the earth from the mines, impurities are picked out by hand. Thereafter it is screened several times before it reaches you, and dirt, slate, etc, really have no chance if the dealers are careful.

We are very careful.

SOCIAL SATURDAY NIGHT.

Perhaps one is a bit pernickity, but it does seem that the present fashion of wearing beads of all varieties of character, on all varieties of occasion, is neither pretty nor proper. A thirty-five cent string of pearls, so-called, disposed over a heavy linen gown, is out of place, and two or three yards of glass beads, strung together with steel wire of doubtful purity, swaying about when one goes shopping or marketing, look just a little bit vulgar, don't you think?

For many years good Britons and good Canadians, rejoiced in pointing the finger of scorn at the daughters of Uncle Sam, who appeared in the morning with diamond rings—most of us have jeered at them at one time or another you know—and we said with cold superiority—that it was "really awful form." And what better are we? A diamond is a diamond all the world over, but fish scales blown into little spheres, are simply that and nothing more, and although no one wants Canada to accept the barbarism of diamonds, for morning wear, still less is it desirable that she should follow the fashion of draping herself with tawdry imitations. Our mothers, and our aunts used to loop up their tarletan party dresses, with strings of pearls, much the same as are worn nowadays, only a little larger, and of course, a little better, at least we think so, but the idea of putting such gewgaws on in broad daylight would have sent shivers through them.

Mrs. A. F. Chown writes entertainingly to friends about the late trip of the SS. Tunisian to Liverpool, and on which Mr. and Mrs. Chown and Miss Ada Chown were passengers. There were about 700 on board, among them specially conducted parties by Rev. Dr. Withrow, Toronto, and Rev. Mr. White, Chicago. There was a fine demonstration on Dominion day, the Canadians royally and joyously entering into the sports. There were so many novel features that the events could not be pulled off in one day. Both Mr. and Miss Chown won prizes in races and tugs-of-war. In the tugs the Canadians invariably defeated the English pullers. The collections for the Sailors' Orphanage were very large. There were lectures, chalk talks, sermons and concerts to while away the evenings. Mr. J. W. Bengough, the cartoonist, was on board, and issued the Tunisian Gazette. Twenty-five copies were sold by tender, and the balance, twelve, were given as prizes in sports. A copy has been preserved for the Whig. Miss Chown was invited to give recitations both on Dominion day and on July 4th, the Americans having arranged a programme for their holiday. At Liverpool the Chowns were to meet Miss Daisy Chown and go with her to Berlin, where they were to spend some weeks.

The English and continental papers have been saying very nice things about the president of our art school, Mr. Wrenshall. A Liverpool paper in speaking of some of Mr. Wrenshall's sketches of Canadian scenery, got the geography remarkably correct, and the writer seems much impressed by the grandeur of the "land of boundless distances." The writer also remarks that Mr. Wrenshall considers the winter in Canada to be a time of enjoyment "when after the enervating heats of summer (!) the dry and bracing cold is welcomed by all." Another paper says that the artist's intention was to give the people of the Mother Country a correct idea of the atmospheric affects and climate of Canada, and that "those whose impressions run on the lines of Kipling's "Lady of the Snows," would find in Mr. Wrenshall's beautiful collection material to entirely modify their ideas." From all of which we can gather that Mr. Wrenshall is doing effectively the good work which he set out to do.

The many real friends of Mr. and Mrs. George Parker were inexpressibly shocked and grieved to hear of Mr. Parker's tragic death this week and a feeling of kindly sympathy for and with Mrs. Parker is widespread. People will also regret to hear that Mrs. Parker's sister, Miss Margaret Cameron, the creator, in a measure, of the primary department in our schools, has been overworking herself in her chosen field, and is not at all well.

Miss Mowat will be glad if people who happen to know of any transient femininity in town, looking for a comfortable boarding place, will recommend the Woman's Residence. The money made from summer visitors will be a great help towards putting the institution into even better shape than it is at present, and as the residence is going to mean a great deal for Queen's woman students, Kingston women should do everything they can to help it along.

Collecting Funds.

Rev. Jasper Hullin, Windsor, Ont., is canvassing the city in the interests of an Industrial Home for colored boys and girls, to be established at Windsor and to be called the Victoria Memorial. While in Ottawa he waited on Lord Minto and presented his claims. His excellency asked many questions about the work done by the society and seemed very much interested. He endorsed the objects of the society and showed his approval by a substantial donation to the fund. All funds are promptly sent to Ernest S. Wigle, Windsor, Ont.

MUNYON

CURED NEIL O'NEIL.

"I have suffered from Rheumatism for 5 years, principally in the arms and legs. My feet and ankles were badly swollen and I was laid up for 5 or 6 weeks in the Doctor's care. I obtained very little relief and suffered greatly until I procured a trial vial of Munyon's Rheumatism Cure: this did me an extraordinary amount of good. I am now greatly benefited and can work as I did formerly." Neil O'Neil, 183 Simcoe street, London.

If you are sick, if you have indigestion, if you are nervous, if your liver or blood is out of order, if you have any kidney disease, if you have piles, or any ailment, ask your druggist for "Munyon's Guide to Health"; it is free and will tell you how to cure yourself for 25c.
