TWO VIEWS CONTRASTED.

The resignation of Mr. Blair from the federal government came as a political surprise, and its significance is the more apparent now when the province of New Brunswick, which he represented, is shown to be divided. The Montreal Transcript approves of the government's proposal and thinks it will contribute to the welfare of the province and the country. Granted, it says, that the Intercolonial may have some traffic taken from it by the Grand Trunk line, "there will be an enormous increase of traffic from the west to the east and such an increase of earnings in the section from Montreal to St. John and Halifax as to more than counter balance a possible but not probable loss for the northern division." The Transcript disapproves of Mr. Blair's attitude while fully appreciating his sincerity.

The St. John Telegraph, on the contrary, doubts whether the government is stronger than the ex-minister on the railway question. Not since Confederation, says the Telegraph, has any man wielded the influence in liberal circles in New Brunswick which Mr. Blair had wielded since 1896. Without any disparagement of others no one can hope "for the complete surrender of will which the New Brunswick Liberals have offered to Mr. Blair." The loss to the party, therefore, is very great. Thus two leading papers in New Brunswick have spoken, and in different ways of a great issue. The drift of public opinion will become, perhaps, more apparent later when the government stages down its proposition, and it is debated with all power and lucidity of able men. Mr. Blair has reserved to himself the right to oppose the project, in a friendly manner, yet in a way which is calculated to bring out all the facts.

OUR RAILWAY SYSTEM.

The best tribute to the transportation facilities of the country is contained in the amendment that last year's great wheat crop, amounting to some fifty millions of bushels, has been moved, the whole of it, that the grain carrying vessels are forced to look up other freights, and that C.P.R. cars which go to the west loaded are returning to the east light.

A year ago this was not anticipated. Six months ago the complaint was loud and bitter that the North-West was losing millions of money by the inaccessibility of its products, and the failure to remove them quickly to the markets. The revelations of members of parliament suggested the need of extraordinary proceedings in order to meet the new conditions of trade. The general consensus of opinion was that the existing railways could not, despite their activity and enterprise, meet the requirements of the country.

It is a congratulatory fact that expectations have been disappointed, and that the greater things this year in the way of crops can be contemplated with hopeful spirit. The fact that freights are dull for the time being may indicate to some that the Grand Trunk Pacific is not a necessity. Not for the present. But it will take three years to build, and its projectors are looking to the demands of an expanding population. The period of development has only commenced. A crop of say eighty millions of bushels this year will give the North-West another advertisement of incalculable value, and it will be followed by a tremendous onrush of people. The present railways are equal only to present emergencies, and sooner—much sooner than some persons dream of—another artery of traffic must be provided.

EDITORIAL NOTES.

The Home Comers should be marched up Brock street so that they may see the splendid crop of weeds which has been raised upon it.

A new temperance wave has been started in the west. It owes its origin to the demand of employers for men who do not drink. A man's habits settle the question of his engagement and pay.

Attorney-General Pugsley, the strong man of the New Brunswick cabinet, abandons the Hon. Mr. Blair and supports the government's railway policy. This is a significant sign of public opinion.

The Toronto Telegram has not much to say for Mr. Burden. It says the opposition in the commons has been badly led, or not led at all, on the railway question. Mr. Burden has been weakened personified.

Dr. Young, of St. Thomas, has accepted a call to St. James' church, Montreal, in 1905 if the conference committee approves. And yet the

Montreal people object to ministerial calls so far ahead!

Mr. Borden, who leads the opposition in the commons, west, and clear across the continent last year, in order to learn of its growth and requirements. What did he learn? It is not at all apparent.

Mr. Tarte has evidently become suspicious of Sir Wilfrid Laurier. The premier has been accused of inspiring a newspaper attack upon the ex-minister of public works! It is humiliating to him to deny such a report.

The special commissioner whom the Montreal Herald sent to the old land, to write up the trade question, has begun his work. He has described Liverpool and talked with the people, and he is not impressed with Chamberlain's proposals.

General Botha, the degenerate, desires a seat in the imperial parliament so that he can effectively discuss South African subjects. He repudiates Chamberlain's policy in South Africa, and declares that the colonial secretary's promises are not being fulfilled.

The Washington correspondents of the Chicago press have announced that the American commissioners on the Alaskan boundary question have been instructed not to consent to anything which is against the United States claim. What is the use of the arbitration then?

OBSERVATIONS.

He Has, Indeed. The Epitaph of brains, Hon. G. W. Ross has been worth a heap more than \$50,000 to the liberals of Ontario.

A Painful Cause.

The painful part of the Blair debate in parliament was the inability of the Hon. Sam Hughes to think of something to say.

Can You, Really?

Trusts of all kinds may be a curse, but if the worst be said, no establishments are large enough to cause sometimes put up with the profanity.

Not In His Line.

The Epitaph League is averse to amalgamating with the Christian Endeavorists. This seems to be a case where J. Pierpont Morgan might be called in.

Chance For Gamy.

The Mail and Empire announces that the conservatives are preparing for "a monster" open-air demonstration in Toronto on August 12th. That will lead people to suspect that they are going to exhibit Gamy.

Remarkable Prayer.

"Grant, O Lord," prayed a Western American minister recently, "that Canada may come of her own accord to the great sixtieth of States; that no harsh measures be needed in working out the destiny of this republic."

To Join In Festival.

Mr. and Mrs. Wallace Corbett, of Boston, accompanied by Mr. Corbett's sister and her husband, Charles Fox, of London, Eng., are here with Mrs. Corbett's parents, Mr. and Mrs. William Mink, 128 Union street, to celebrate with the Home Comers.

Mrs. (Dr.) C. B. Harris (nee Kate Adams) and daughter, Gladys, of Pembina, N.D., are here for the Home Comers' reunion and to visit T. M. Asseltine, Division street.

Must Make Answers.

Victoria, B.C., July 21.—Judgment was given, yesterday, by the full court on the appeal in Hopper vs. Dunsford, a side issue in the suit of Edna Wallace Hopper and James Dunsford, seeking to break the will of their millionaire brother. The appeal was allowed with costs, the defendant to make full answers to all the questions objected to.

Dressed Hogs.

Montreal, July 20.—The receipts of dressed hogs to-day were 2,359, which were billed on through account. The tone of the market was steady, but the demand was somewhat limited and trade quiet at \$8.25 for light weights, and at \$7.75 to \$8 per 100 lbs.

Delightful Trip.

Among the islands, Wednesday, 2.30 p.m., on steamer America, 35c.

Why don't you try Carter's Little Liver Pills? They are a positive cure for sick headache, and all the ills produced by disordered liver. Only one pill a dose.

A veteran named Robert Simpson, at one time in the King's Royal rifles, from which he earned an honorable discharge, died at the Brockville hospital from peritonitis.

A beautiful club house has been erected at the top of the hill, near the first tee. It contains a large room suitable for dancing or other amusements, for which a piano has been rented, and ladies' and gentlemen's dressing rooms with large lockers. There is also a kitchen for the use of the ladies giving tea. The veranda, which is very large, commands a full view of the lake.
