COMMISSION

To Administer Affairs of Macedonia.

TURKEY'S ACT

SAY SULTAN IS TRYING TO GAIN TIME.

Why He Possibly Thinks It Wise To Make a Direct Arrangement With Bulgaria—The Reforms Will Remain a Dead Letter.

London, Sept. 25.—The Finest Sofia special says the mixed commission, promised by Turkey to administer Macedonia affairs, is to consist of Turks, Bulgarians, Greeks and other nationalities, in proportions not specified, according to arrangements to be made in Constantinople. It is added that orders have been issued to the civil and military authorities in Macedonia with regard to the restoration of the villages and the repatriation of refugees. For the last named purpose the vali of Adrianople will be instructed to enter into direct relations with the prefect of Tourgas. As a matter of fact, neither the text nor the summary of the plan, as telegraphed, causes any misgivings. The general impression still is that the sultan is only trying to gain time, but that, perhaps, being warned by the western indignation and alarmed at the prospect of the outcome of the czar's visit to Vienna, he thinks the wiser plan will be to make a direct arrangement with Bulgaria, obviating foreign supervision, and with the probability that the reforms ultimately will remain a dead letter.

Will Not Pay Them Off. Sault Ste. Marie, Ont., Sept. 25.—The Lake Superior company will not pay off its employees on Monday. Assistant Manager Coyne so intimated yesterday, and as a result the spirit of unrest about the success of those who have been employees of the company is more pronounced than ever. The Minnie M., with 250 miners on board from the Helen and Grace mines, reached here last evening. Another load will come down to-morrow. Today the company will begin to bring down the men from the camps. The Algoma Central train will land about four hundred here in the afternoon.

AN ENGLISH CAT-HERO. Saves Lives Of Master And Lady In Burning Hotel. London, Sept. 25.—With two human lives at stake and possessing the alleged nine lives belonging to his own species, Jim, the house cat belonging to Landlord G. Bailey, of the Warren House Inn, near Woking, England, has come at a bound into the notice of the cat fanciers of Great Britain.

A month ago Jim simply was no pedigree to speak of and no record of anything but a common street cat. To his master clear of rats and mice. He was devoted to his master and to the sister-in-law, who was housekeeper for the inn. Each night Jim chose as his bed a seat in his master's study, a door, but that he had taken up this post as a sentinel was not dreamed of until suddenly one night Mr. Bailey was awakened by several sharp slaps of hissing and rattling. He looked at the stifling air in his ear, loved by as he never before had heard from Jim.

Bailey landed on his feet, standing and the first waking thought was for his sister-in-law, who was sleeping at the other end of the hall; into which a roaring fire was eating. Dashing through the blaze into the room he found the sister unconscious and carried her to the sitting room just as the floor sunk through. Jim kept sharply at his master's heels through the rescue and fight and once in the road showed the liveliest interest and affection for the two persons who owed their lives to his intelligence. The hotel was burned to the ground.

TO BE LASHED. Sentence Passed On Young Men Who Assaulted a Girl. Sinesco, Ont., Sept. 25.—The trial of three young men, Rose, Teller and Davis, on the charge of criminal assault on a girl was concluded yesterday. The jury brought in a verdict of guilty and recommended Teller to leniency. His lordship passed sentence as follows: Rose, one year in Central prison and thirty lashes; Davis, six months in Central prison and twenty lashes; Teller, two months in jail.

GIRL MISSING. Sweetheart Says She Is a Prisoner. Syracuse, N.Y., Sept. 25.—Edith Mayde Kirby, the pretty eighteen-year-old daughter of Mr. and Mrs. Alfred Kirby, 115 West Water street, has mysteriously disappeared on the eve of her wedding to a young man. Her parents have opposed the match. Her mother says the girl has gone to Chicago, but relatives of Emerson say that she is locked up in her room and will be kept there until she renounces her sweetheart.

The ceremony was to have been performed yesterday. Mrs. Kirby said that the girl's father had told her that she was to be married to Emerson, and that she thought it over and decided to leave town. The arrangements had all been made for the wedding.

BURIED IN A FINE BOX. Elaborate Funerals Considered Barbarous. Grand Rapids, Mich., Sept. 25.—In a plain, unpainted pine box that did not cost more than \$2.50, the body of Prof. M. L. Wright, instructor in modern languages in Leland Stanford university, and the son of a wealthy parents, was buried yesterday.

The simple burial was ordered by Prof. Wright. He believed that the present custom of lavish burials is barbarous and economically wrong and directed before death that the \$200 of his money that would ordinarily be spent for a funeral be used for a public fountain, as a monument to his memory.

PUT UP CAPITAL.

To Make The "Soo" Works Hum Again.

Toronto, Sept. 25.—A morning paper claims to have it on unimpeachable authority that Speyer & Co. have been asked to hold their claim for thirty days, and that at the expiration of that time capital will be forthcoming sufficient to meet it, and also to ensure the resumption of work at the "Soo" Arrangements, the paper adds, have already been arrived at whereby British and Canadian capitalists have agreed to furnish sufficient capital to operate the works pending a re-organization and all that is required of Speyer & Co. is a stay of proceedings for thirty days until the principals can be communicated with.

The World to be saved? "F. H. Clergue and other gentlemen who are interested in the re-organization of the Lake Superior company are being arrested about the success of those who have been employees of the company is more pronounced than ever. The Minnie M., with 250 miners on board from the Helen and Grace mines, reached here last evening. Another load will come down to-morrow. Today the company will begin to bring down the men from the camps. The Algoma Central train will land about four hundred here in the afternoon.

PROF. DEHRING

Thinks He Has Made Valuable Discovery.

HUMAN BEINGS

MAY BE KEPT IMMUNE FROM TUBERCULOSIS.

Inoculate Them With a Harmless Tuberculosis Serum—Tuberculosis Not Identical With Consumption—Has Prevented the Disease in Cattle.

Berlin, Sept. 25.—Prof. Von Behring, the famous inventor of the diphtheria serum, believes he has discovered a means of making human beings immune from consumption, by inoculating them with a harmless tuberculosis serum, which can be obtained from cattle. He contends that tuberculosis is in no wise identical with tuberculosis consumption. He agrees with the theory that tuberculosis is not inherited, but does not endorse Prof. Koch's idea that bovine tuberculosis cannot be transmitted to human beings. On the contrary, he believes that those who think that milk from tuberculous cows is the chief cause of the spread of consumption, especially in the case of infants. He is credited with having found immunization successful in preventing tuberculous infection in cattle, and bases on these experiments the hope of being similarly successful in protecting human life.

PUTTEE DEFEATED. One Vote Behind For The Presidency. Brockville, Ont., Sept. 25.—At yesterday afternoon's session of the Trades and Labor Congress the secretary-treasurer presented his report, which showed receipts of \$2,256, an increase of \$779 over last year's income. A substantial gain of 4,639 members were noted; twenty new unions were chartered during the year. Resolutions were passed protesting against misrepresentation on the part of the Dominion immigration agents in the British Isles of the condition of labor in Canada to the British workmen, demanding that steamship companies bringing rejected immigrants to Canadian ports be compelled to take them back at the expense of the companies involved and protesting against the government's refusal to adopt Mr. Patten's amendment to the Grand Trunk Pacific bill, calling for government control and operation of this railway.

From four o'clock until nearly seven the congress was engaged with the election of officers. There was a hot fight for president between Flett and A. W. Puttee, M.P. Mr. Flett was elected by one majority, the other standing fifty-two to fifty-one. The officers are as follows: President, J. A. Flett, Hamilton; vice-president, J. B. Mack, Montreal; secretary-treasurer, Dr. J. T. Mack, Ottawa; executive committee, British Columbia, J. D. McNeil, T. H. Wigg, George Barclay, J. Penner, Manitoba, A. W. Puttee, M.P., A. C. Cowley, Albert R. Thomas, Ontario; E. W. A. Odell, Hamilton; James Wilson, Toronto; Quebec, A. Verville, A. Mathieu, T. Fisher, B. Berthiaume, New Brunswick, C. H. Stevens, Prince Edward Island, G. W. Worley, Otto N. Baird, fraternal delegate to American Federation of Labor, James Simpson, Toronto.

Last evening the visiting delegates were banqueted by the Brockville Trades and Labour Council.

Will Be His Own Executioner. Chyenne, Wyo., Sept. 25.—According to a dispatch from Lander, this state, James Teller, who is being held there to-day, will act as his own executioner. The arrangement has been made at the request of the condemned man. The gallows has been so constructed that when Teller steps on the trap the action will draw a plug from a pail filled with water. When the water runs low a counter-balance will throw the catch which holds the trap, and the doomed man will have hanged himself. Teller's crime was the murder two years ago of William Warren, a stage tender.

Thinks Well Of It. London, Sept. 25.—J. M. Barrie's new play "Little Mary" was produced at Windham's theatre last night. The Times says it is a dramatic trifle, but to Barrie's genius it has been given to extract from a mere trifle, an impudent little trifle of a subject, a play of wit and humor, and half pathetic humor, which ought to be properly called farce, not comedy. John Hare and Gerald D. Maurer take the leading male parts, capably, while Miss Woodcock is quite fascinating as Little Mary.

Great Strike Of Trolley Men. Newark, N.J., Sept. 25.—The biggest strike Newark has had in almost twenty years began last night, when the trolley road employees left their cars, tying up the street railway system. It is said that the strike will extend to all thoroughfares. Hudson, Passaic, and the lighting circuits. The gas house employees are also said to be ready to quit. The Newark trolley men declare the strike will be general all through Essex, Hudson, Passaic, and Bergen counties. The men have demanded twenty-two cents an hour, the abolition of the "split runs" system and recognition of the union.

The Favorites Hats. Are great favorites with well-dressed men. George Mills & Co., hat specialists and manufacturing furriers, are sole agents for Kingston.
