The Proper Treatment For a Sprained Ankle. As a rule a man will feel well satisfied if he can hobble around in crutches for a few days.

See our special all steel filled corset—a 36-gauge silk hip corset \$5.00. New York Dress Reform.

GOOD MEASURE IS DEMANDED IN BINDER TWINE.

Inspector Haycock Compels Effective Protection For Farmers—Result of a Recent Tour. Winnipeg Free Press, Sept. 15th.

Among the visitors to the city yesterday was J. L. Haycock, who has just completed a lengthy tour of practically the whole of the grain growing region of the Canadian West.

Last year the Dominion government enacted that all binder twine should be under a penalty of \$25, a ball, bearing a stamp of the number of feet per pound in each half-bund that if the length of twine did not agree with that stated on the tag—within a five per cent limit—the dealer should be liable to a fine of from \$1 to \$25 per ball.

This act was the logical result of the action of the Dominion government in admitting binder twine free of duty. Those members of the board who opposed it, urged that the abolition of the duty would make Canada the dumping ground for American twine of inferior quality and short measurement.

It was pointed out that the twine of the country more than 200,000 lbs. of inferior twine. Some twine supposed to be 600 feet to the lb. measured only 428—that is to say, the farmer had to pay more than one-third more for the length of twine he used.

The farmers of Canada spent this year \$3,500,000 on twine. Even a five per cent saving on this amount would total the very respectable sum of \$175,000, and it is certain that the benefits consequent on inspection of this farmers' staple will amount to much more than that.

Ald. Meek pointed out that all the details of a contract could not be considered by council; it was the duty of the committee to do that.

Water Works Report. Ald. Craig presented the report of the water works committee.
