BOOTH'S COAL

For Kidney Disorders
Take
Bu-Ju
A vegetable compound in the form of pills which acts on the kidneys. It stimulates and invigorates these important organs of the body, and thus assists nature in keeping the blood pure and expelling poisonous matter from the system.

The latest results of scientific discoveries are embodied in this remedy, which is sold in boxes of 50 pills for 50 cents, at all drug stores. Do not waste money in worthless substitutes.

PRINCE ANDREW OF GREECE AND PRINCESS ALICE OF BATTEMBERG.

SOCIAL SATURDAY NIGHT.

(Continued from page 3.)
The very pleasant tea given by the Misses Macpherson, Clergy street, on Thursday, in honor of their niece, Mrs. Veno Henderson, made a very bright break in the darkness of Thursday afternoon, and as people came in from the chilliness to warmth and the glow of candle light on gleaming silver, many were the involuntary exclamations of pleasure. In the tea-room Mrs. Campbell Strange and Miss Fairlie poured tea and coffee, and Miss Amy McGill cut the ice. White and green was the color note, the trails of smilax over the table being particularly pretty.

ROYAL COUPLE MARRIED.

Prince Andrew and Princess Alice United.
Darmstadt, Oct. 10.—Princess Alice, of Greece, and Prince Andrew, of the court church, the bride and groom, all the royal and princely guests then proceeded to the Russian chapel some streets distant, where the Greek service, far more imposing than the first one, took place.
Died in Rochester.
Gananoque Reporter.
John Finucan, formerly a well-known resident of Gananoque, died suddenly at his residence in Rochester, N.Y., last Sunday. We are without particulars of his early life, except that he was born in Rochester, within a few blocks of where he died. His father was a steamboat engineer, and lost his life with many others, when the steamer Kingston was burned off Whitby about thirty years ago. John was also an engineer. Lately he was employed at the street railway power house, Rochester, and had full charge of all the company's power equipment in the city. Shortly after coming to Gananoque three years ago, he married Miss Banfield, who died rather suddenly.
Of Interest To Ladies and Gents.
The visit of Prof. Dorenwend to Kingston, Monday, October 12th, with his famous conceptions, in switches, bangs, pompadours, wavy fronts and wigs. Prof. Dorenwend has the distinction of being the largest manufacturer and the most noted specialist in these goods. Private apartments at the British-American hotel, Kingston. The question of baldness is a vital question with hundreds of men who are bald. How to overcome the disappearance is a simple matter when you consider the perfection of modern art in the making of wigs and toupees. Demonstration given to show the perfect naturalness of these goods.
Confusion of Numbers.
There is much complaint over the irregular manner in which Alfred street is numbered. No definite system has been followed, and the numbers are irregular and unreliable. For instance, No. 400 can be found near Princess street, while across the road is No. 401. The next block south produces a number of filices, while lower down, near Union street, the numbers go back to the "two hundreds." The present system is confusing and causes no end of annoyance. The street should be properly spaced off and proper numbers assigned.

Saturday's Market.

The Saturday morning market was decidedly small, the farmers preferring to remain comfortably housed rather than drive to town through the cold driving rain. Eggs took a regular thin afternoon session. A pair of chickens, hen fruit sold at 15c. to 18c. a dozen. Now they are 23c. and 25c. a dozen. Butter was 23c. to 25c. a lb.; turkeys, \$1 to \$1.50 each and mighty scarce. Live chickens, 25c. to 75c. a pair; ducks, 75c. to 80c. a pair; geese, 90c. to 80c. a pair; potatoes, 75c. to 90c. a lb.; lamb, 8c. to 9c. a lb. mutton, 6c. to 8c. a lb.; pork, 8c. to 9c. a lb.

Sunday Afternoon Meeting.

The Y.M.C.A. meetings for men at Whig hall on Sunday will be held at 4:15 p.m. The programme is as follows:—Brief address to young men by Rev. Dr. Antliff, subject "Counsel to Young Men," special solos, "Nearer to Thee," by the Y.M.C.A. male quartet, mass singing led by F. G. Loc. Let's sing solo, "Crossing the Bar," E. Kelso. Many of the 300 men present last Sunday mentioned the home-like appearance of the Whig hall and hoped the meetings would be continued there throughout the winter.

Do You Belch Gas?

If you have uneasy sensations in the stomach, a bitter taste in the mouth, headache—remember that ten drops of Polson's Nervine in sweetened water is a quick and certain cure. Nervine aids digestion, dispels the gas, makes you comfortable and free from indigestion at once. Nervine is just splendid for cramps, colic, dysentery, stomach and bowel troubles, and costs only 25c. Better try it.

To Be Examined.

Meiland Clark, Wilmer, the young man who assaulted his parents, has been ordered to be examined as to his sanity. Dr. Anolin and Sands and Judge Price will make the examination.

IS RUNNING LOW.

The Hickory Supply is Nearly Exhausted.
St. Louis, Mo., Oct. 10.—The rapidly diminishing supply of hickory, which has recently caused alarm among manufacturers of hickory products, was the subject under discussion at a meeting of the Hickory Handle Manufacturers' Association held, to-day, at the Southern hotel. Those present represented hickory handle manufacturers who produce ninety per cent. of the product that supplies not only the United States, but England, Germany, China, Australia, South Africa and the South American countries. Reports previously presented to the association showed that practically the entire hickory supply north of the Ohio river has been exhausted. In this territory, it is said, the supply is confined to a few states in the south and south-east.
The association believes that if the situation is improving upon the present the slaughter and waste of hickory may be stopped. There is nothing yet known that will take the place satisfactorily of hickory. The manufacture of buggies, which is ever increasing in this country, has made great inroads on the supply. During the past eight months the price of hickory products has advanced 100 per cent., and there are intimations that the price will go still higher in the near future.

Restored To Mother By Means of Photograph.

Utica, N.Y., Oct. 10.—Levi Tremblay, Copenague, Lewis county, returned yesterday from Willmer, Minn., where he went last week with his adopted daughter, Helen Ninn, who had been claimed by Mrs. Ella Gladys Robbins, a woman of wealth residing at Willmer, as her eldest child, for whom detectives have searched for seven years.
The woman placed the girl in an institution when her husband died, but subsequently, when she married her second husband, a millionaire, she set out to recover the girl.
Detectives searched seven years and finally located the girl through a photograph which one of the detectives succeeded in snapping in a classroom at the Copenhagen village school.
The foster parents were loath to part with the child, now ten years old, but consented on condition that Mrs. Robbins prove her relationship to the girl and her ability to properly care for her. Mrs. Robbins deposited \$1,000 in a Lowville bank as a guarantee, paid the travelling expenses of the child's foster parents, their lawyers, etc., to Willmer, Minn., where she furnished ample evidence of her wealth and proof of her relationship to the girl.

LETTERS TO THE EDITOR.

News From The North West.
Alameda, Assn., Oct. 5.—(To the Editor): There was a slight rain on Friday which, however, was heavy enough to effectively stop threshing operations for the rest of the week. Consequently the town was very busy, as all the threshers came in. As they were mostly Ontario boys they tried to paint the town red. To-day threshing is progressing as rapidly as steam and muscle can drive it and loaded waggons are to be seen in lines before the elevator approaches.
One of our lively men, William Hogan had a narrow escape last week. He was returning from Ox Bow when, in going down a slight hill, the tongue of his wagon dropped. It ran into the ground over four feet and completely upset the conveyance. William was thrown out and dragged about thirty rods, when the lines broke and released the team.
The station here is in charge of Mr. Gibson and his wife. They went on duty October 1st, as agent and operator. One case of diphtheria has struck the town, Mrs. Scott being quite ill with it. We are glad to report, however, that she is rapidly recovering.—G.
