PROPOSED ANNEXATION.

The petition for the annexation of Portsmouth to the city came before the council last evening and was referred to a special committee.

The position of the village is briefly recited in the petition. The population is 700; the assessment, \$116,055.

The rate for general purposes, is eleven mills, for public schools, seven and one-quarter mills, and for separate schools, twelve mills.

The city would gain in the increase of population and assessment, and consequent addition to the public revenues, but it would have liabilities, including the share of county debt which will absorb the larger part of the county rate for the next five years.

The village has in view, of course, some advantages by the change. It desires water, light, police and fire protection, and these cost money.

The expense of carrying the public utilities beyond the present boundaries and into the limits of the next municipality must be very heavy.

There is a great gap between the city and the village, and it is the bridging of this that makes the annexation of Portsmouth to the city a costly proceeding.

However, the matter has gone to a committee and it will look into all the facts and report upon them.

SOME MEMBERS OF THE COMMONS.

Some members of the Commons have drawn all their indemnity. They will probably now think about adjourning—to meet the electors.

CITY COUNCIL.

(Continued from page 2.) ed, and seconded by Ald. Bass, moved its adoption.—Carried.

Ald. McLeod and Walker moved that the communication of R. W. Smith, offering to supply broken stone at \$3.50 a ton, and to purchase the crushing plant, be referred to the board of works, with power to act.

Ald. Meek did not feel like delegating so much power to the committee. Before he sanctioned it, he wanted to know what work the crusher had been doing, and why was it desirable to sell it at this time.

The committee ought to report back to council. Ald. Walker took the same view, and the objectionable clause was, therefore, withdrawn. The committee will report back.

Ald. McFarlane presented the report of the fire and light committee, already reported, and moved, seconded by Ald. McLeod, that it be adopted.

Touching the item providing an increase in salary of the chief of the fire brigade, Ald. Walker thought the matter should have been allowed to stand until the next budget was prepared.

Ald. McLeod favored the increase, and when Ald. Walker learned that the raise was to be only \$25, he withdrew his opposition.

Ald. McFarlane also spoke a word in behalf of the increase, pointing out that the chief worked seventy-nine days a year more than any other member of the brigade. The chief is not the highest paid member of the brigade.

Ald. Craig spoke highly of the qualification of Chief Elmer, and said council would endorse the proposed increase in his salary.

The question of placing a light at the junction of Albert and Union streets, was discussed at some length, the clause giving the committee power to place a light at the place named being made to read to "re-arrange the lights" so as to provide one where asked for.

Ald. McCammon presented the report of the committee on property and markets, already published. Adopted without discussion on motion of Ald. McCammon and Mallen.
