IS WARLIKE

The Uneasy Situation in the Far East.

BUYING COAL

PRESUMABLY FOR USE IN ACTIVE WARFARE.

Japanese Minister at London Ridicules the Idea of His Nation Going to War—Japan Has Landed Troops.

London, Oct. 17.—The Daily Mail, responsible for the greater part of the alarming news from the far east, persists in declaring that the situation continues critical. It says that Japan has formulated certain demands, from which it will not recede and everything now depends on whether Russia will grant these demands. The vague assurances in which the Russian government deals lavishly will not be accepted. There must be tangible results. The point has been reached at which Russia must give way or face the probability of Japanese action. The Mail's Hakodate correspondent reports unusual military activity there. He says that 100,000 men are concentrated in the immediate neighborhood of that port, which, in the event of hostilities, will be the point of embarkation for the Japanese forces. Torpedoes are being laid in the harbour of Hakodate, and in other western ports.

The Wei-Hai-wei correspondent of the Morning Post claims to have trustworthy information that Japan has landed troops at Ping-Yang Inlet, Corea. He adds that it is currently reported that the Russo-Japanese conference has been futile. Meanwhile, Baron Haski, the Japanese minister here, daily depreciates the alarmist reports. He professes his firm conviction that war will not occur. He declares that the press statements concerning Japan's warlike preparations are ridiculous. He admits that he has received no information from Tokio, but says he certainly would be informed if anything were afoot.

There is somewhat abnormal demand for coal at Cardiff, Wales, by Russia and Japan, the orders aggregating more than 50,000 tons for delivery at Vladivostok, Port Arthur, Yokohama and Nagasaki. Japan has chartered several vessels for immediate despatch.

ASKS FOR A PENSION.

Has Sued Brother Of The Shah Of Persia.

New York, Oct. 17.—Michael Wagschal has sued the brother of the Shah of Persia for a life pension granted him years ago and which the Prince Ziafi Sultan has forgotten to pay for the last eight years. Dr. Wagschal started to travel around the world. In his travels he visited Persia, staying for a while in Ispahan. At that time the prince was suffering from an ulcerated tooth. None of the royal surgeons could help the patient. The prince heard of the American dentist at Ispahan and ordered him to go to Teheran. Dr. Wagschal did so, and finally cured the prince, who, in his delight, conferred a life pension on the dentist of 200 tomans a year—a toman being slightly greater than a dollar. The only condition attached to the pension was that whenever summoned to attend to the royal molar he should come at once, even though he were at the outer edge of the seven seas. Word of a plot against his life was sent to the king in Teheran and he fled to the coast, missing those sent to kill him by only a few minutes.

VERY MUCH ALIVE.

After Being Buried Deep For Over An Hour.

New York, Oct. 17.—Buried alive for more than an hour, twenty feet below the surface of the street, Giuseppe Gollano, lives to tell his marvelous tale. It took the men of eight companies of the fire department and the police reserves of four precincts to dig him out in time to save his life. James Harr would have been buried with Gollano but he dodged into the mouth of an old sewer and fought his way through the sewer more than half filled with water and sewage to a manhole within less than a block from the cave-in. There by lusty shouts he attracted attention from above and was rescued. The cave-in was in Pine street. The two men were shoring up a sewer when a cave-in happened. Gollano was caught but a companion managed to clear away the dirt from the imprisoned man's head. Firemen and policemen were called and finally dug him out. In spite of his harrowing experience Gollano's injuries were slight.

Cuts Both Ways.

London, Oct. 17.—A prominent official of the Grand Trunk railway expresses astonishment at ex-Chancellor Ritchie's ignorance regarding Canada and in his imagining that Canada relied upon access to United States ports. As to the Americans threatening to penalize Canadian wheat, why Canada could retaliate in a way America would feel it, as nearly ten millions more bushels of American grain pass through Canada than Canadian does via the United States territory.

BONDS OF EMPIRE.

Addresses At Meeting Of The Congregational Union.

London, Oct. 17.—President Horton, of the Congregational Union, welcomed the delegates of the empire and said that the real bond between the home country and the colonies was not imperialism, but the spirit of brotherhood between the churches. If they wanted to find the Protestantism of the seventeenth century they must go to Canada. It was a most ludicrous thing to see the upper classes patting the colonists on the back.

Rev. Mr. Silcox, of Ontario, praised the work of the Nonconformists in connection with the education of the Canadian people. He would not be passive resistors, but active resistors supposing anyone dared introduce such a measure there. (Cheers.)

Monks Succored Refugees.

London, Oct. 17.—The correspondent of the London Daily Telegraph, on the Macedonian frontier, has sent his party a long description of the refugees arriving at Rila monastery, after fasting for days and sleeping in the open air with one thermometer at thirty-four degrees, and their gratitude to the monks, who shared with them their black bread and salt, and exhausted all their resources to support the hungry fugitives.

Five Men May Hang.

Leavenworth, Kas., Oct. 17.—The case of the five mutineers, Gilbert Mullins, Turner Barnes, Frank Thompson, Fred Robinson and Robert Clark, charged with the murder of Guard Waldrup in the sensational fall break at the Fort Leavenworth military prison on November 17th, 1901, was given to the jury this afternoon.

INTOLERABLE

Are Conditions of Life in Manchuria.

ARE PREPARING TO UNDERTAKE MOST EXTREME MEASURES.

Bulgaria Massing Troops and Calling Out Reserves—To Aid Their Macedonian Cousins—Refugees Arriving by Thousands.

London, Oct. 17.—Times' Sofia special: "According to the most moderate estimate, there are 23,000 refugees in Bulgaria from Macedonia and the Vilayet of Adrianople, of whom 19,000 have arrived during the past few weeks. The fugitives are mostly old men, women, and children. This exodus is more eloquent than the long lists of atrocities and narratives of cruelties, and refutes unanswerably the assertions of those who are endeavoring to minimize and conceal the happenings in European Turkey. It shows that life has been rendered intolerable in the sultan's dominions. Almost all the refugees are in a condition of total destitution.

"American missionaries who have been in daily contact with the fugitives state that the Bulgarians are prepared to undertake extreme measures in the interests of their Macedonian cousins, a journey to the frontier provinces convincing evidence that the military authorities regard provocation on the frontier by the Turks as the ultimate outcome of the present situation. At Kostendil the muster reserves and reinforcements has transformed the permanent garrison into a division of all arms, who are ready to take the field with over 10,000 troops, who are now busy throwing up defenses and repairing military roads and bridges.

"Times' special from Kostendil: "Though there is little at Sofia indicating that the Bulgarians are prepared to undertake extreme measures in the interests of their Macedonian cousins, a journey to the frontier provinces convincing evidence that the military authorities regard provocation on the frontier by the Turks as the ultimate outcome of the present situation. At Kostendil the muster reserves and reinforcements has transformed the permanent garrison into a division of all arms, who are ready to take the field with over 10,000 troops, who are now busy throwing up defenses and repairing military roads and bridges.

JURORS FLIPPED COINS.

Reached Verdict With the Aid of Few Nickels.

Chicago, Oct. 17.—In the Lawrence circuit court a jury trying the case of the state against George Ryan, charged with assault to commit murder, could not reach a verdict after being out thirty-six hours. One of them suggested flipping nickels—heads to convict, tails to acquit. The idea was adopted, and the second flip showed four heads and eight tails, resulting in acquittal. The court accepted the verdict, but did not know how it was reached until to-day. The state will get a new trial and the jurors may be indicted.

Versey General Sheppard's Title.

Jersey City, N.J., Oct. 17.—A number of prominent priests and prelates of the Roman Catholic church are here to attend the elevation of the Very Rev. John A. Sheppard to the monsignorship, which honor was recently conferred upon him by the Pope. The ceremony of his elevation will take place in St. Michael's church to-morrow. Bishop O'Connor officiating. Father Sheppard was born in Ireland in 1851, but has resided in this section since early childhood.

Would Use Force.

Dublin, Oct. 17.—Speaking at a meeting at Ballyborough, in honor of the Robert Emmet centenary, William Redmond said that if the people of Ireland had power to-day to follow Emmet's steps to free their country, as the Americans won freedom, they would do so. If they worked for their country in the British parliament instead of on Ireland's fields it was their duty they were using the only weapon to hand.

To Have A Navy.

Wellington, N.Z., Oct. 17.—A naval defence bill was introduced into the New Zealand parliament, which provides an appropriation of £40,000 towards the maintenance of an Australian squadron. This appropriation is under the understanding arrived at in London at the conference of colonial premiers.

WOMEN OF MEANS.

Bluebeard Blydenburgh Always Made Love to Them.

New York, Oct. 17.—Ebenzer S. Blydenburgh, a former Brooklyn contractor, arrested in Eldora, Ia., on suspicion of poisoning there his third wife, and whose first wife died in Brookhaven, I.L., and second in Brooklyn, under alleged suspicious circumstances, was engaged to a number of girls in Brooklyn immediately after the death of his second wife. It was declared by Miss Annie Goldfield, a sister of the second wife.

"Four months after Laura's death he was engaged to Miss Jeanette McIntosh, of Quebec, who had been visiting her," said Miss Goldfield. "As soon as Blydenburgh heard that Miss McIntosh was wealthy he made desperate love to her and proposed and was accepted. He afterward visited her home in Quebec, but her family objected to him, and some arrangements were made to protect her fortune. The engagement was broken off. He was then living at our house. He engaged himself to several other girls, whom I know, but whose names I do not care to make public."

WILL SUE FOR A CENT.

Principal Ready to Spend \$1,000 To Get a Cent.

Cleveland, Oct. 17.—Principal E. L. Harris, of the Central High School, will sue the board of education for one cent. He says he will collect it if he is obliged to spend \$1,000 to do it. Members of board of education say they will resist the payment of the penny if it costs the city all the money there is in the school fund.

The school year is divided into nine months of four weeks each, and is additional. For the year's work, under the division, Harris received \$3,499.99. His contract calls for a salary of \$3,500 a year. The school board admits it owes the penny, but says it will not pay it because the members are all making \$15 and \$20 a week. Harris for making a fuss over such a small matter.

THOUSANDS OF MEN.

Work Is Delayed by the Lack of Labor.

Montreal, Oct. 17.—Notwithstanding the unremitting efforts which the Canadian Pacific railway has made to secure laborers for the West, they are in need of thousands of men at the present time for the new and leased line. This statement was made by D. McNeill, general manager of the company. "The company needs at least 3,500 men till the winter sets in, and will need a larger number in the spring. Everywhere work is being delayed on account of the inability to secure labor, and this notwithstanding the fact that the men are all making \$15 and \$20 a week and a few more a day. It just shows how prosperous the country must be."

SIR CHARLES SAYS

Canadians United on Chamberlain's Plan.

London, Oct. 16.—Sir Charles Tupper, the Canadian ex-premier, who sailed from Liverpool for Canada to-day, in the course of an interview, declared that Canada was perfectly united in supporting Mr. Chamberlain. He thought that a grant of two million shillings per quarter was small, but said it would encourage emigration and help the Canadian farmers to some extent. He thought it an excellent thing that Americans were flocking into the North-West in large numbers. This, he declared, would not Americanize the Dominion, because the Americans preferred Canadian institutions to their own.

DUE TO ACCIDENT.

New Theory in the Glory Whalen Case.

Collingwood, Ont., Oct. 17.—Information has recently developed in connection with the death of little Glory Whalen, which, it is believed, points to the conclusion that the child's death was due, not to murder, as supposed, but to accident. This would account for the fact that when the child was found a bandage was wound around her head, indicating that the person who fired the shot had bound up the wound with a view of staunching the flow of blood. In large numbers decline to give out any definite information, but believe that they are on the track of the man who fired the fatal shot.

The Bulgarian Elections.

Vienna, Oct. 17.—The elections for a new Bulgarian assembly place to-day in a narrow and in the present disturbed state of affairs that country it is natural that all political Europe should await the result with considerable interest, not to say anxiety. Even taking into account the fact that the Bulgarian franchise system admits of the government over-awing the electors, there appears to be no likelihood that the complexion of the new assembly will be materially changed, and little doubt that the government will find it just as impossible to work with the new deputies as it did with their predecessors.

Tried to Destroy Rossland.

Vancouver, B.C., Oct. 17.—A Rossland despatch says that determined attempts were made by unknown incendiaries to destroy that city, no fewer than four empty buildings being fired within five hours. The fire department was on hand promptly. In all cases the fires were confined to the buildings in which they originally started. Great excitement was caused and the incendiaries will receive short consideration if caught.
