A team of Canadian hockey players, beyond the pale of Canadian amateur circles, is being selected to go to Pittsburg the coming winter to play a series of games. Charles Liffiton, the Montrealer, who played in Pittsburg last winter, is arranging for the team, which will be picked from the different cities where players are numerous.

Three aldermen called on Mayor Cochrane, and asked for the suspension of Chief of Police Lescart, pending thorough investigation into the working of the police department. The mayor said he would seek legal advice on the request before taking action. There have been numerous charges against the chief, investigated recently, but none of them seemed serious enough for his dismissal, although some of the aldermen seek his retirement.

A WORLDLY TENDENCY. Which The Church is Experiencing.—Home For Deaconesses. Berlin, Oct. 21.—At yesterday's session of the Evangelical Conference, a forward movement was made in connection with the deaconesses' work. The committee recommended that this nature of church work be organized in America, in authority and supervision of general conference. A general deaconesses' board is to be elected each quadrennium, consisting of the bishops, seven men and five women, to meet annually. A central deaconesses' home and training school are to be established, and auxiliary boards organized at all annual conferences. The report of the committee on the state of the church announced with regard to a revival, churches, barren, pastors unsuccessful, and a lack of aggression, with an increasing tendency towards worldliness. SONS OF ENGLAND To Convene at Buffalo—New Steel Plant Opens. Buffalo, N.Y., Oct. 21.—The supreme officers of St. George and Sons of England of Canada will hold conference at the Iroquois hotel, this city, next Monday. Tuesday there will be a meeting of all the British societies of Buffalo for the purpose of reviving the old patriotism, said to have been dying out since the death of Queen Victoria. Prominent men of British birth from Philadelphia, Chicago and Toronto are expected to speak. To-day marks an important epoch in the history of the Lachawanna Steel company. After a period of construction extending over two years and more and the expending of many millions of money, the productive stage has been reached. This morning, for the first time, the steel rails were dismilled at the plant. The steel plant has been making pig iron for some time, but to-day is the first time that any of the steel products, for which the plant was built, has been turned out.

ATTEMPTED INCENDIARISM. Fire Caught in Time—Soldiers Enjoy Themselves. Ottawa, Oct. 21.—The non-commissioned officers of the Canadian school of Musketry gave a farewell concert at the Rockcliffe Hanges last night to the officers of the school and to the N.C.O.s, of the Ottawa brigade. The function was well attended and was a complete success. During the evening Sergt. Maj. J. Collins, senior instructor of the school, was presented with an address and an elegant wrist watch, by his fellow N.C.O.s. The school broke up this morning.

A deliberate attempt at incendiarism was frustrated by timely discovery at Kincaidville, a suburb of Ottawa, last night. Coal oil and shavings were scattered through five cottages belonging to Mrs. Bousfield, wife of an English clergyman. The fire was extinguished in time to save four of the cottages. The deed has caused considerable excitement and, likewise aroused considerable suspicion.

This section started to move down the yard, ran into the other part of the train, which was standing on the track a little distance further east, smashing the boarding car and killing the cook.

The Chinaman resisted and received a blow on the face. He clinched with his assailant, who struck him three or four blows and ran away. Police Sergeant Smith accompanied the complainant to the scene of the assault, but the assailant could not be found, nor did the Chinaman know his name.

WORLD TIDINGS OCCURRENCES RECORDED IN BRIEF FORM.

Despatches and Cullings Telling of Events Transpiring in All Parts of the Earth. Sam. Parks has been indicted in New York on a charge of perjury. The United States war department is investigating wholesale fraud in the quartermaster's department, on Governor Island, N.Y. Leopold Stern, the Baltimore contractor, arrested in Toronto for false pretences in supplying government postal patches, pleads innocence. Mr. and Mrs. Bullock Workman have broken the world's record in climbing the Himalayas. Together they reached 22,568 feet. Mr. Workman reached 23,394 feet. Dowie, who says he feels keenly the attitude of the press—towards him, told some newspaper men that the most of his money came to him through mills. The grain men at the C.N.R. elevator, at Port Arthur, have struck for higher wages. They have been getting twenty cents an hour, and demand twenty-five cents.

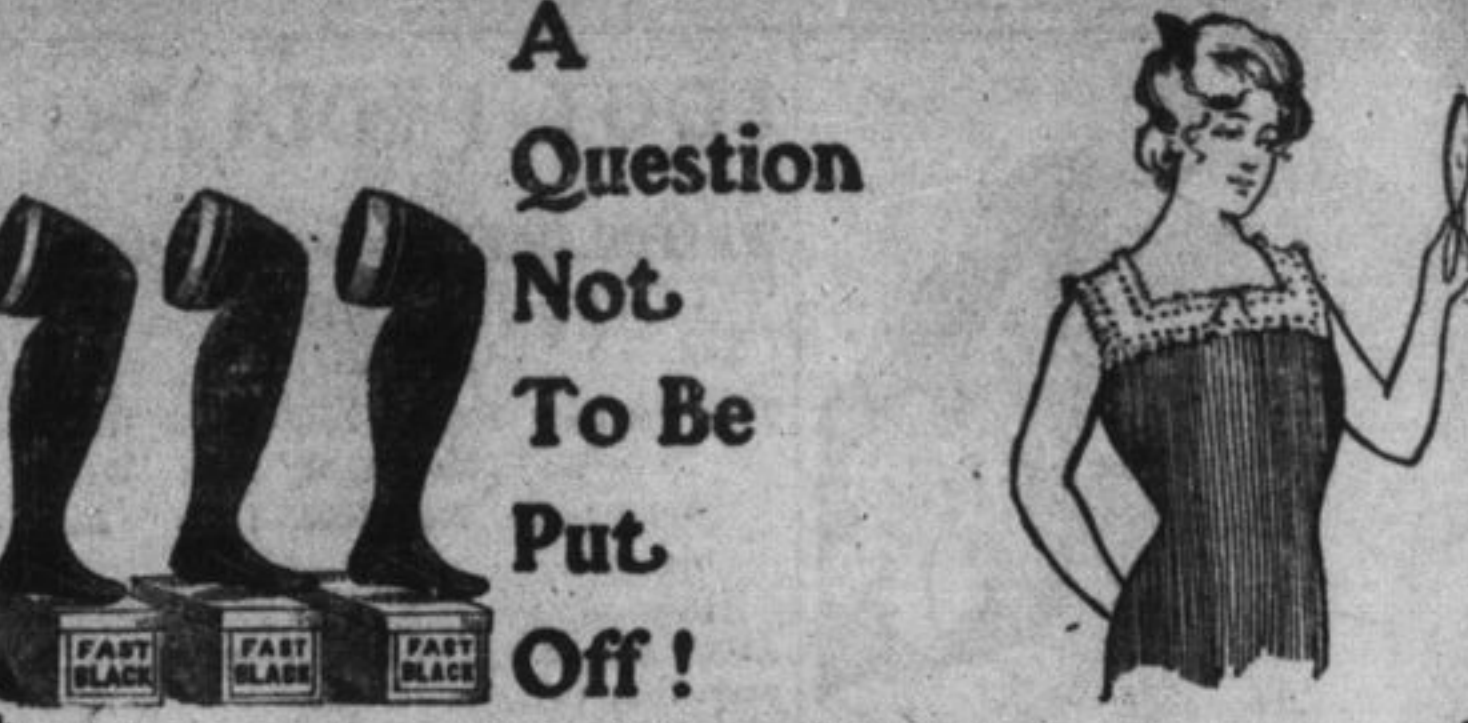

Thieves made a good haul at John Armstrong's general store, Bridge, last night, securing \$300 worth of merchandise, and a horse and rig, with which they made their escape. The crew of a coasting schooner were found by the British steamer Haverford, one hundred miles off Cape Henlopen, weak from loss of food. Sails had been carried away in gales. Henri Basot, accused of the murder at Aix-les-Bains, last month of Eugene Fougere, has established an alibi, but notwithstanding this he is suspected of being an accomplice in the crime. He is known as the "Philadelphia Gentleman Burnisher," and is in the Eastern Penitentiary, Philadelphia, serving a fifteen year sentence. ENGLISHMEN TURNED BACK. Must Have Passports To Enter United States. It is not generally known that only Canadians, Mexicans and Cubans are allowed to enter the United States without passports. Yet that is the law of the southern "land of liberty." On Tuesday two Englishmen, recently from the old land, boarded the steamer "New Island Wanderer" at Kingston, and went across to Cape Vincent, en route to Buffalo, N.Y. At the Cape they could produce no passports and accordingly were turned back to Canada. Thus the people of the United States treat as foreigners people of their own blood. Steamboat and railway companies taking prohibited people into the United States without passports are made responsible. Last week, an Italian went to the Cape on the "New Island Wanderer" and managed to get ashore. The immigration officer ordered him off Yankee soil and Purser Gallagher forced him back on the boat. The day, however, made another dash for the "land of the free" and eluded those on the wharf. Purser Gallagher and others gave chase, but did not get the man from Sunny Italy, until two miles had been covered, and a swamp reached. The Italian was taken to Watertown and placed in jail.
