# A MARINE MONSTER.

With its Prodigious Tail Lashes Waters of Rideau.

What has every appearance of ar amphibious monster of forbidding and ugly looks is reported to have been seen in the Rideau canal. St. Louis dam. Its appearance awesome, its structure unusual, its hide apparently impervious to leaden shot or bullets. It is described as being about eight feet long and three feet wide across the largest part of the back. Its head is horrible—that is all their hurried glances and its tail shaped like that of a fish and is about ighteen inches across. It is said to have a hide like that of an elephant. no hair or scales having been seen on t. It was last seen by Messrs, Beatty, Jeaudoin and P. Sharp, who ive in the vicinity and who had the temerity to fire upon it, but without

doing any execution. The question of what, who or why his strange visitor is had been puzling people in the vicinity since its first appearance a month ago. It will sometimes show itseli several days in succession and then hide again for an indefinite interval. The waters of the canal and the enlargement of the canal run eight feet to twenty feet in depth at that point but the question is-How did he, she or it get there? men, a couple of whom put out

STOMACH STRIKE?

FIREMAN BURNS HAD A NAR- There Is Nothing to Prevent You Employing a Substitute to Do Ite Work.

There is such a thing as forbearance easing to be a virtue even in the case of one's stomach. There is question but that some stomachs will stand a great deal more wear and tear and abuse than others, but they all have their limit and when that limit is reached, the stomach must be reckoned with as sure as fate. The best way and really the only effective way to treat your stomach when it rebels is to employ a substitute to do its work. This will give the weakened and worn-out organ an opportunity to rest and regain its strength and

Stuart's Dyspepsia Tablets relieve the stomach of its work by taking up the work and doing it just as one set or shift of workmen relieves another. They actually digest the food in just the same manner and just the same time as the digestive fluids of a sound stomach do. In fact when dissolved in the stomach, they are diges. tive fluids for they contain exactly the same constituents and elements as the gastric juice and other digestive fluids of the stomach. No matter what the condition of the stomach is. their work is just the same. They work in their own natural way without regard to surrounding conditions. rest of the human body does not suffer in the least by reason of its failure to perform its work.

A Wisconsin man says: "I suffered the pangs of dydpepsia for ten years. I tried every known remedy with indifferent results until I was told of the remarkable cures of Stuart's Dyspepsia Tablets. I bought a box, began taking them and forgot I had a stomach. Three boxes cured me completely. I had had no trouble whatever for a year and have an appetite like a harvest hand and can eat any thing that is set before me without fear of bad results.'

Stuart's Dyspepsia Tablets are for sale by all druggists at 50c. a box. The druggist never fails to have them in stock because the demand for them is so great and so pronounced that he cannot afford to be without them. People who could not get them of one druggist would go to another and would get in the habit of buying their other drugs there as well as their Stuart's Dyspepsia Tablets.
