

GRAND OPERA HOUSE. Wednesday, Nov. 11th. Superb Production of Clayton Mackenzie Legge's New Play. ROBERT BURNS

Miss Alice Bailey, of Atlanta, Ga., escaped the surgeon's knife, by using Lydia E. Pinkham's Vegetable Compound.

"DEAR MISS PINKHAM:—I wish to express my gratitude for the restored health and happiness Lydia E. Pinkham's Vegetable Compound has brought into my life. I had suffered for three years with terrible pains at the time of menstruation, and did not know what the trouble was until the doctor pronounced it inflammation of the ovaries, and proposed an operation."

"I felt so weak and sick that I felt sure that I could not survive the ordeal, and so I told him that I would not undergo it. The following week I read an advertisement in the paper of your Vegetable Compound in such an emergency, and so I decided to try it. Great was my joy to find that I actually improved after taking two bottles, so I kept taking it for ten weeks, and at the end of that time I was cured. I had gained eighteen pounds and was in excellent health, and am now."

"You surely deserve great success, and you have my very best wishes." MISS ALICE BAILEY, 50 North Boulevard, Atlanta, Ga.—\$5000 forfeit if original of above letter proving genuineness cannot be produced.

All sick women would be wise if they would take Lydia E. Pinkham's Vegetable Compound and be well.

A CASE FOR THE CROWN.

And Is Referred By a Judge At Watertown, N.Y.

Hattie Hunt against Leslie Hunt was the title of another Alexandria Bay divorce case, heard by Justice Rogers at Watertown, N.Y. They were married in Alexandria Bay, Nov. 24th, 1890, and separated three years ago. They have one child, aged ten years.

Mrs. Alice Cusack, Rockport, Ont., testified that a few months ago the defendant was married in Kingston to Jessie Covey. The witness said she was a niece of the defendant and was one of the witnesses to the marriage to the woman with whom he is now living.

The plaintiff is now living with a widow in Alexandria Bay and the court went into her relations with him.

There was other evidence by commission and Mr. Delaney moved for a decree on all the evidence. The court said he could not grant the decree, adding, "I am not satisfied that the plaintiff herself is entirely free from responsibility. The circumstances are not such as should be encouraged."

Mr. Stenographer, you may make a copy of this evidence and send it over to Kingston to the crown attorney there and he can look after Mr. Hunt there."

WOMEN MEET TO TALK OVER NATIONAL COUNCIL AFFAIRS.

Mrs. Willoughby Cummings Spoke To a Fine Company in the Council Chamber on Monday Afternoon.

The prospect of hearing Mrs. Willoughby Cummings speak, drew out a large number of women to the council chamber yesterday. Among the prominent women present were Mrs. Fraser, president; and Miss Brophy, recording secretary of the council; Mrs. Skinner, Mrs. Marshall, Mrs. Short, Mrs. Iva E. Martin, Mrs. W. Skinner, Mrs. Merritt, Mrs. Olenendorfer, Mrs. Cochran, Mrs. Fred. Folger, Sr., Miss M. Folger, Mrs. Phelan, Mrs. Higgins, Mrs. John Strang, Mrs. Montague, Mrs. Morgan, Mrs. Charles, Mrs. Miss Alice Chown, Miss Muckleston, Mrs. Midge, Miss Robinson, Miss Meadows. The minutes of the last meeting were read, Miss Chown spoke of N.W.C.A. matters, and also of the historical work mentioned elsewhere in this issue, and Miss Machar proposed that a training school for servants be established here.

Mrs. Cummings, the council's general secretary, who has just come up from forming local councils in Erie, Ontario, Don-Heater, Woodstock, all in New Brunswick, and in Summerside, P.E.I., spoke, as she always does, very much to the point. The principal part of her address was given up to explaining the aims and scope of the British Women's Emigration Association, a society, which, while it does not encourage emigration to the colonies, endeavours to look after the welfare of those who do emigrate. The association is endeavoring to turn the tide of emigration almost entirely to Canada, rather than to South Africa, where the need for domestic servants is far less than in our own dominion. All young women and girls sent out by the British society, are thoroughly instructed in every respect; some, not all, are trained servants. Their passage is paid by the society, and by them refunded, month by month. The association works entirely through the local councils, so that no woman or city, which has not a local council, can be supplied with the society's proteges. A committee of Montreal's council of women, met the girls on their arrival at that port, see that they have twenty-four hours of preparatory work, and then hand them over to the guardianship of the council at their place of destination, to which their mistress has paid their passage from Montreal; they will be degrees returned, and the quarter worked most harmoniously.

The question of lady helps was dealt with by Mrs. Cummings, who expects the plan to work as well here as in England. She mentioned one of those where the four women servants of a noble family are doing the quartette worked most harmoniously.

A further subject taken up by the speaker was that of the custodial care of feeble-minded women. A home is being built at Orlia for this purpose, and it is certain that much suffering will be done away with by the home. Hereafter, the government and private philanthropists have spent all their thought and effort on assisting the miseries of crippled and feeble-minded children, and wonderful results have been accomplished by manual training, and by the various devices thought out by earnest people who have studied the question. But the work of caring for women of feeble mind is a more herculean one still, and it is hoped that the work will receive all needed support and encouragement.

Mrs. Cummings was given a hearty vote of thanks for her address, a local committee, to work with her in the Emigration Association, consisting of Mrs. Marshall, Mrs. Iva Martin and Mrs. Short, was struck and the meeting adjourned after singing "God Save the King."

A SUDDEN SUMMONS.

Came To Wolfe Island Farmer—New Ferry Steamer.

Wolfe Island, Nov. 7.—At the last meeting of the Wolfe Island council the contract was given for the new ferry to the Bertram Co. of Toronto, the dimensions to be the same as the steamer Pierpont, but 10 feet shorter, and rated at twelve miles an hour. Messrs. Melnyre and Melnyre, solicitors, Kingston, served on each councilman a written document before the contract was signed, notifying them to not take any action in the matter, that owing to a legal technicality in the recent by-law whereby the council were given power to expend \$20,000 in ferry purposes or otherwise they would proceed against each one separately for the amount. Mr. Macdonnell, Kingston, solicitor for the Bertram Co., was present, and the council were present. The solicitor for council advised them to disregard notice; therefore the contract was given, signed and sealed for \$20,000, boat to be ready for service June 1st, 1904, and it is stated she will be called the Wolfe Islander. The present lease term of the ferry expires on June 1st, 1904.

The death of James Brown occurred last week, after a short illness. He was a quiet, inoffensive man and was highly respected by all who knew him. In religion he was a Presbyterian, in politics a staunch liberal and always took an active part in elections. He was a member of A. O. U. W. and carried \$2,000 insurance on his life. He was buried under the auspices of the Wolfe Islander. His daughter, Mrs. William Hall, preceded him to the silent chamber about three months ago. The surviving members of his family have the sympathy of the community. Little hope is entertained for the recovery of Mrs. Geo. Morgan, Daniel Grant and Michael O'Connell underwent operations in the Hotel Dieu hospital last week. The former for a tumor on the shoulder. The tumor when removed weighed eight pounds. The latter's operation was a very critical one, but very successfully performed, the source of trouble being in close connection with the leading artery of the heart. At last account both patients were doing remarkably well.

Dr. J. M. Dawson will shortly lecture in Deser Col. This talented young doctor's friends wish him success in his new sphere of life. Many young people were also present. A pleasant social meeting in New Ontario, has returned home. He brought back with him some samples of rich ore.

There is a prospect of Kingston having a visit in the near future from the Bishop of Corea. If he comes, he will address the various city W.A.'s at the quarterly meeting, which takes place this month in St. James' parish.

Pottsville, Pa., Nov. 10.—Mrs. Mary Rich, a young widow married woman of McDade, Schuylkill county, is accused of killing her infant to keep it from starvation. The body of the child was discovered under peculiar circumstances. Dr. A. L. Gillars, of this place, coroner, held an inquest.

\$100 Per Year For Children—Marion Von Bruning, Former Wife, Gets Annuity of \$11,500.

Poston, Nov. 10.—Victor and Robert McKay, the two sons of Gordon McKay, the late millionaire inventor of shoe machinery, are practically cut off by their father's will, while Harvard University will eventually receive the entire estate of several millions, the interest to be used to promote applied science. The only private bequests are in the form of annuities, which will amount to nearly \$20,000 a year. The largest annuity, \$11,500, is bequeathed to Mrs. Marion Von Bruning, Mr. McKay's former wife, who secured a divorce, while the two sons of the testator by the marriage, Robert and Victor, are each given \$100 per year until they become of age. The will provides, however, for the payment of annuities of \$2,500 to each of his two sons after the death of Mrs. Von Bruning, provided she so directs.

The amount of property available for the new school of applied science at Harvard will at the start, amount to about \$4,000,000, and eventually to much more.
