VULGARITY IN NEW YORK.

The press of New York and out of it is still commenting upon the woman who acted in a disorderly manner at the Roxburghe-Gosset wedding.

Fancy women, well-dressed and likely in appearance, crawling through the coal hole beneath the chancel of the church in their anxiety to get a peep at the bride from within the building.

The reader of the English papers is surprised at nothing so much as at the placidity of the public mind in its contemplation of tariff reforms.

The passage of the Corn Laws in 1815 were accompanied by bread riots in London and elsewhere.

When in 1902 the chancellor of the exchequer recommended a small tax on foreign wheat and flour, in the interest of revenue only, there was again a determined opposition.

The dropping of election petitions in North Grey and North Ontario is held by the Ottawa Journal to be an understanding between Sir Wilfrid Laurier and Mr. Borden.
