## THE CURLERS READY TO RUSH THE "STANES."

### Queen's Senior Hockey Team Still Strong — "Bike" Young and Reyner Have Retired From Hockey in Pittsburg, Pa.

It was thought that if the cold weather continued, the Kingston curlers would at the roarin' game next week. Yesterday, "Mike" Flanagan started to make ice. The interior of the building has been whitewashed in order that better light may be secured.

It was intended to double the number of rinks by cutting the roof in two and thus enlarging the building. However, the Skating Rink company being at great expense in putting five steel arches in the hockey rink, all other extensions and improvements had to be left over till next year.

### Assuming Too Much Authority.

What is to be gained by having a set of hard and fast rules for the governing of O.R.F.U. matters, if the executive committee of that body, or certain of its members undertake to twist the rules to suit their own ideas, or construct new rulings as they may see fit? A case in point is the manner in which Limestones are being used, not to mention the decision to give them a bye until the final game, and then ordering them to play a semi-final match, but just take up the latest stand of the executive committee. Limestones accepted the order to meet Toronto II. here, and being unable to make satisfactory arrangements with Queen's athletic committee for use of athletic grounds, decided that it would be advantageous to play in the cricket field and pass around the hat. The executive committee now tries to usurp the right of the local club to control its interior affairs, by ordering the match played in Athletic Grounds, and goes outside of the union rules by ordering Limestones to guarantee Toronto II. $75. An order to this effect was received last night from Secretary Woodworth, who followed it by a second one this morning. Heretofore home teams have retained the gate receipts in all but the final matches, and that is exactly what Limestones intend to do. The executive went further and ordered the match played in Athletic Grounds. The Limestones are best judges of the most advantageous place to play, and will stick to their determination to have the event pulled off in the cricket field.

### Football.

The Westmount Intermediate Club will apply for admission to the senior ranks of the Quebec Union.

This afternoon in Toronto the Westmounts and Toronto Victorias are playing for the Canadian intermediate championship.

The Toronto Senior School Association football team, champions of the Intercollegiate League, have challenged Galt, holders of the Ontario championship.

Seventeen players have been killed this season in United States football, and there may be several more victims whose deaths have not yet been recorded.

The Limestones felt the absence of Page in their match this afternoon. He is their crack inside wing, and unfortunately is incapacitated through a severe cold.

Toronto 'Varsity have not yet recovered from the knock-out blow given them by the Ottawa Rough Riders. They assumed the role of dictators. Now their pride has been humbled and they are gaping at each other in bewilderment. For the sake of $100, it seems ridiculous that a rich athletic association like 'Varsity's should balk. Had Queen's been interested, the question of what share of the gate receipts she should receive wouldn't have cut any figure. The chance of playing for the Canadian championship would have been enough, especially when the Intercollegiate champions had only a challenge right to contest.

### Hockey.

Hockey practice begins in Toronto this evening at the Mutual street rink.

"Gone Over to The Enemy" is what the Montreal Gazette says of "Dick" Wilson, of Queen's.

Toronto St. Georges have been asked to send a team to Port Hope on Christmas day, which will open the season there.

Toronto 'Varsity may build a rink next year. If they do, the ice will be made artificially so that there may be early hockey practising.

No less than three of Queen's senior hockey players received handsome offers to play this winter in Fittsburg, Pa., Houghton, Mich., and other places across the border, but they refused. "Bike" Young will not play hockey in Pittsburg, Pa., this winter. He has retired from the P.A.C. team on which he was cover-point last winter. Reyner is another of the Kingston hockeyists who have retired from the fray in Pittsburg.

The Newboro club elected these officers: Honorary president, Dr. R. H. Preston; president, Dr. R. King; vice-president, W. J. Hart; secretary-treasurer, H. S. Foster; committee of management, Dr. R. King, L. S. Foster, G. E. Foster. Newboro wants a county league.

During the past week, the Toronto Globe has proved that "it is time for a change" in the O.H.A. executive. Its abuse of a Kingston sporting man who took the trouble to visit various Eastern Ontario towns and create a better feeling towards the O.H.A. by having a strong eastern section of that organization, was decidedly unmerited, the more so when a high official of the O.H.A. was responsible for it. The Globe's remarks will not heal last winter's eastern feeling against the O.H.A.

Says the Brandon Times: "Brandon will probably have a stronger senior hockey team this season than last year, and two players of repute are on their way here from Eastern Canada, at the present time. Walter Borbridge, who is now in Montreal, is hunting up crack players and forwarning them here."

While the departure of "Tick" Wilson leaves quite a gap to be filled in Queen's senior hockey team, the vacancy has practically been arranged for. Should Wilson not reconsider his decision to go to Pittsburg, Richardson will take his place as cover, and "Jack" Carruthers may play in the latter's position on the wing. It is expected that Dr. McDowall will again play cover-point. As the latter will be in Kingston for the winter, he will be eligible to play, while he takes fifth year work at the medical college.

### General Sport.

The Hamilton Thistle Curling Club has just celebrated its semi-centennial.

The Toronto Y.M.C.A. basketball team will have a week's trip in January to Peterboro, Ottawa, Montreal, Ogdensburg, etc.

Arthur Duffy, of Georgetown University, and holder of the world's 100-yard record, of 9 3-5 seconds, has announced his intention of again running. He will compete next season in intercollegiate events.

Baseball men smile at the story from Montreal of a new baseball league to take in Montreal, Rochester, Syracuse, Providence, Worcester, Newark and Springfield. Not more than one or two of these cities would care to go into such a league.

An English golf critic, in speaking of the good effects upon international golf occasioned by the visit of Miss Adair to this country, says that there is some possibility of an American team making a tour of the important English and Scotch links next season, and he adds, should this be the case, "they are likely to prove an awkward proposition, for American women evidently have not much to learn about golf."

It has been decided to hold the international lawn tennis match next year between England and America on the ground of the All-England Club, at Wimbledon. The date of the contest, which, it is hoped, either the King or the Prince of Wales will be induced to grace with his presence, has not yet been definitely fixed, but July is the likely month. Should France also compete for the Davis cup her team will have a preliminary tussle with the American representatives, the winners being called upon to challenge the brothers Doherty, the British holders.

# MAYORALTY.

## ALDERMAN CRAIG THE PEOPLE'S CANDIDATE.

### The Strongest Man the Ratepayers Could Name For The Important Office, in View of Approaching Municipal Elections.

Alderman Craig has decided, on the invitation of his friends, to be a candidate for the mayoralty. That his action will be approved by a very large number of the electors goes without the saying.

Mr. Craig is a business man of long experience, and he possesses in an eminent degree the qualifications for public office. Moreover he is the kind of man the city wants at present as its chief magistrate. He is courteous, careful, clear-headed, and intensely

ALD. W. G. CRAIG.

loyal to every local interest.

He has been in the council for some years and is familiar with its affairs. That he is honest, earnest, and conscientious in all that he does has been made apparent by his whole public career. He is firm in his decisions, and so possesses one qualification which the mayor of the city next year will certainly require.

It may be said that the mayor cannot do what the council does not endorse. But a mayor with large ideas and aggressive policy, with a judgment that is sound, can do a great deal in moulding public opinion and in influencing the council upon the issues that are laid before it. The best about Alderman Craig's candidature is the fact that he did not thrust himself upon or before the people. He has been invited to contest the mayoralty, and behind him, in the community, are those who represent the substantial interests of the city.

There may be opposition factions or otherwise, but Alderman Craig has the assurance that in any case he will be successful.

### Social Function At Queen's.

Last night the '06 classes in arts science held an "At Home" in the new arts building. Mrs. Gordon, Mrs. Gwillim, Mrs. Dyde, Mrs. Bogart and Mrs. Goodwin were the patronesses. As the Kingston orchestras were all engaged, the Gananoque orchestra had to be secured to furnish music for dancing. T. H. Ferguson, the popular caterer, provided the refreshments.

## FEED HER RIGHT.

### The Sure Way to Rear a Healthy Girl.

The relation of food to comfort and health impressed an Iowa teacher who says:

"After teaching school for several years I became a victim of insomnia and night after night it was three or four o'clock in the morning before I would fall asleep completely worn out. Of course I lost strength and brain power and became terribly nervous until I was on the verge of nervous prostration.

"About that time I read an article about Grape-Nuts that convinced me that my trouble was due to indigestion, something I had never thought of before. I got two boxes of Grape-Nuts and began to use them for breakfast and supper with good rich cream. Well, the change was something wonderful and my health came back in bounds.

"Grape-Nuts took the place of nonnourishing food and I am now better in health, brain power, and spirits; sleep well and work longer and harder and never feel nervous or worried. When I have finished my school session I still feel I have lots of reserve force and energy left and when I go to bed at night I get sound and refreshing sleep and get up early, happy as a lark.

"I have had numbers of my scholars try the food and I must tell you about one case. She was a puny nervous little girl and her mother told me she did not eat enough to keep a bird alive. All she wanted was candy and other trash. When I told her mother about Grape-Nuts food she followed my advice and its effect upon this child, shown in the weakened energy of the body and mind was simply wonderful. Her school work became entirely satisfactory and she gained in bodily strength, lost all her nervousness, and soon became a rosy chubby young miss." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

The Deseronto Tribune says that the late E. W. Rathbun was conscious on Tuesday morning that he was passing away and called together all the members of his family, who were in town, to say farewell to them. He retained consciousness and the brightness of his intellect until the end. Unfortunately his younger sons, Marvin and Adrian, who are pursuing their studies at Toronto, were not present.

A new law firm, Givens & Givens, has been established in the city. D. A. Givens has associated with him in his law practice, his brother, W. R. Givens. The senior member has been practising in the city for some years. W. R. Givens, a native of Kingston, has been a resident of New York city for a number of years, where he was quite successful in financial operations. He is an honor and scholarship graduate of the law school at Osgoode hall, Toronto.

To-morrow will be Advent Sunday, or the commencement of the ecclesiastical year. It is supposed to be a season of austere privation as a preparation for the great festival of the Nativity. In the Roman Catholic church the officiating priest is vested in purple, the altars are all draped in the same sombre hue, and all ornaments are removed. The "Gloria" is omitted at mass and all joyous music abandoned. During this season the marriage rite is not performed, except by dispensation.

# EMERALD LOST.

## THIS IS NOW REGARDED AS CERTAIN.

### The Missing Vessel Was Not At McDonald's Cove—View of Capt. Oliver; Thinks She Was Buried in The Seas.

A report went to Toronto that the missing schooner Emerald was at McDonald's Cove, above the upper gap. This proves to be untrue. The captains of the steambarge Nile and schooner Highland Beauty, who are here, state that when they passed the above mentioned place on Thursday, and Friday there wasn't a vessel to be seen. Neither were there any in South Bay. It was suggested that the vessel might be at Stoney Island, but the tug Thomson came from there a couple of days ago and had no report of the Emerald. The fact that twelve days have elapsed makes it evident that the Emerald is at the bottom of the lake.

Captain Oliver, of the schooner Clara Youell, gives this view: That when the north-west wind struck the Emerald on Monday night, the 16th, too much canvas was put on her, and that she was simply enveloped and buried in a head sea. His opinion is that wherever the Emerald was on Monday after that wind came up, she is not far from that point.

The schooner Emerald was worth about 87,000. It is the vessel that had to run into Kingston late last December, being unable to reach Deseronto with a load of coal, on account of the bay being frozen over. She wintered at Craig's wharf.

The Kingston cook among the missing crew is Annie Wright. John Selix, of South Bay, is one of the sailors.

### Vessel Movements.

The steamer Nile is here to take a cargo down the river.

The schooner Oliver Mowat cleared last night for Port Hope.

Richardsons' elevator: Schooner Highland Beauty from bay ports with grain.

The government dredge Nipissing, which has been working at the Beach canal has come to Kingston for the winter.

The missing schooner Emerald was to have brought a cargo of barley from Frenchman's Bay to the Kingston malt house this week. The schooner Oliver Mowat will possibly carry it down.

### A Noted Horseman's Experience.

Antoine Wendling, owner of Deveras 2:11¼, and proprietor of the Clifton House, Brockville, says no liniment compares with Nerviline for general use around the stable. For strains, sprains, swellings, internal pains and especially for affections of the whirl bone Nerviline is unequalled. Mr. Wendling believes Nerviline is indispensable as a horse liniment; it has strength, penetrating power and works thoroughly. Every horse and stock owner should use Nerviline. Sold in large 25c. bottles.

### To Look Up Her History.

The female horse thief captured at Bowmanville for a crime at Napanee, is now in Napanee jail, awaiting enquiry into her history. She says her name is Mrs. Mary O'Connor, Montreal. She is about forty-five years of age and has a mania for brandy. She tried to beat the railways until she was put off at every station; then she hired livery horses, selling the one last driven and securing another, meantime securing brandy at every hotel possible and under the pretext of illness.

### Detroit Specialist Discovers Something Entirely New for the Cure of Men's Diseases in Their Own Homes.

## You Pay Only if Cured

### Expects No Money Unless He Cures You—Method and Full Particulars Sent Free—Write For It This Very Day

A Detroit specialist who has 14 certificates and diplomas from medical colleges and boards, has perfected a startling method of curing the diseases of men in their own homes; so that there may be no doubt in the mind of any man that he has

DR. S. GOLDBERG,

The Possessor of 14 Diplomas and Certificates Who Wants No Money That He Does Not Earn.

both the method and the ability to do as he says, Dr. Goldberg, the discoverer, will send the method entirely free to all men who send him their name and address. He wants to hear from men who have stricture that they have been unable to get cured, prostatic trouble, sexual weakness, varicocele, lost manhood, blood poison, hydrocele, emaciation of parts, impotency, etc. His wonderful method not only cures the condition itself, but likewise all the complications, such as rheumatism, bladder or kidney trouble, heart disease, nervous debility, etc.

The doctor realizes that it is one thing to make claims and another thing to back them up, so he has made it a rule not to ask for money unless he cures you, and when you are cured he feels sure that you will willingly pay him a small fee. It would seem, therefore, that it is to the best interests of every man who suffers in this way to write the doctor confidentially and lay your case before him. He sends the method, as well as many booklets on the subject, including the one that contains the 14 diplomas and certificates, entirely free. Address him simply

Dr. S. Goldberg, 208 Woodward Ave., Room W, Detroit, Mich., and it will all immediately be sent you free.

This is something entirely new and well worth knowing more about. Write at once.
