

Cause and Effect

When you feel unnaturally chilly;
When your back aches with a dull pain;
When your bowels are inactive, or when the
kidney secretions are not normal;
When you have puffiness under the eyes or, in
the ankles or wrists;
When flying pains bother you;

You Need
Bu-Ju

The standard kidney regulator and tonic. It is more than probable your kidneys are affected. You must have them restored to healthful action or your ills will increase. Bu-Ju will do this for you as no other agent can. A trial will convince.

W. J. FAIR, District Manager,
Kingston, Ont.

THE MENDELSSOHN PIANO

If you pay an exorbitant price for your Piano, part of your money is wasted; no matter how good the instrument is, and you pay a high price for a piano for a poor piano, all your money is wasted.

But if you buy a good piano and you will pay at least a fair price, and that is what we have done for the Mendelsohn Piano. This piano has a most beautiful tone; which it retains for a great number of years.

For nearly a quarter of a century these pianos have stood the test and our satisfied customers are our references.

Send for catalogues and up-to-date Music Stores, 281 Princess Street.

Style P, specially built for the exhibition. Style E, a new and beautiful design. Chamber grand, T. Coronation Concert Grand, T. Singleton.

Why Gin Pills?

Gin Pills are called Gin Pills because each pill possesses all the curative qualities of one and a half ounces of the best Holland Gin. As a cure for Kidney trouble however, they have all of the good qualities of Gin, with none of its bad.

All druggists, 50cts. per box.

NOT ON THE LIST

QUEEN'S UNIVERSITY HAS
NO EXAMINER.

A Circumstance That Really Requires Explanation—The Formation of Mica—Professors' Statements Challenged.

Kingston, Nov. 30.—(To the Editor): It is not clear that public attention was called to this and pointed to the nature of the appointments recently made for high school leaving examiners and to the fact that Queen's is without a single representative.

It may be, of course, that the Queen's authorities themselves purpose to take some action in the matter, but pending such step (and in this matter I voice the sentiment of a number of Queen's graduates who have discussed the subject with me) it certainly can do no harm to enlist the sympathy and the support of the representative eastern newspapers.

Will you please, therefore, take the matter up editorially? So that you may the better appreciate the situation I should like to reproduce here with the appointments, as follows:

"Junior and senior leaving pass and honor matriculation—English and history: W. S. W. McLay, B.A., McMaster; W. J. Alexander, Ph.D., Toronto; W. Pakeman, D.Pad., Technical School. Mathematics—M. O'Brien, Peterboro; M. A. Mackenzie, M.A., Trinity; A. T. Delury, B.A., Toronto. Biology, physics and chemistry—R. A. Bensley, Ph.D., Toronto; F. B. Allen, Ph.D., Toronto. Classics A. Carruthers, M.A., Toronto; Prof. J. C. Robertson, Victoria; Prof. J. Fletcher, Toronto. French and German—P. Toews, Ph.D., Toronto; Dr. Hornung, Victoria; R. S. Jenkins, Trinity.

It is scarcely necessary to point out that there is not a Queen's man in the list. Queen's and the entire eastern section of the province have been ignored. This ought not to be so. But it will certainly not be otherwise if Queen's and her people and the people of Eastern Ontario sit down and meekly submit.

At the present rate it might not be long before the Toronto university people took it upon themselves the right to pass upon the diplomas of Queen's—I mean as to the right and title of Queen's men to teach in the schools. Queen's will soon further qualify—this qualification necessarily to say, to be determined by the Toronto authorities. Is it not enough that Prof. Cappon has shown in the current number of the Queen's Quarterly, Toronto already is getting practically all the "pap," some \$439,000 last season, as compared with \$31,900 for Queen's? Or must we have examiners, teachers and everything else?

There is work here for some fighters. Toronto, by its hoggishness, must not forever menace the educational rights and peace and liberty of Ontario. It would be a pity were Queen's men compelled to take up their battle politically, trusting that you may take the matter up editorially on behalf of Queen's, Eastern Ontario and the cause of education generally. Yours, etc., W. R. GIVENS.

Suggests Change In Routine.

Kingston, Nov. 30.—(To the Editor): May I trespass for a moment and draw attention to a crying need in city churches, namely, the dispensing of the solos and the collection before the sermon.

I attended one of our Methodist churches last evening. The reverend gentleman gave a most earnest, as well as intellectual, exposition on the Last Judgment. The impressiveness of which must have had a very great effect for good on his hearers. This sermon, I may add, was not like many of the fire and brimstone variety, that seem to some preachers the one thing necessary to a sermon on the Last Judgment. It was a sermon to make one think and ponder—one conducive to high thinking and right living.

I must say, however, that I believe the good effects of it were rendered more or less abortive by the church routine immediately following it.

I would suggest that solos, if they have to be tolerated in our churches, should be dispensed with before the sermon. It seems a pity that the good results of such excellent preaching had disappointed physicians everywhere.

I do not mean that Dr. Shoop's Rheumatic Cure can turn bony joints into flesh again. That is impossible, but it will drive from the body the poison that causes pain and swelling, and then that is the end of the cure.

I am sure that did not disappoint me as other rheumatic prescriptions had disappeared.

It is a pity that the good results of such excellent preaching had disappointed physicians everywhere.

My offer is made to convince you of my faith. My faith is but the outcome of experience of actual knowledge. I know what it is to do. And I know so well that I will furnish my remedy on trial. Simly write me a postal for my book on rheumatism. I will then arrange with a druggist in your vicinity so that you can secure six bottles of Dr. Shoop's Rheumatic Cure to make the test. You may take it a full month.

It will succeed the cost to you \$3.50. If it fails the loss is entirely to you. I mean that exactly.

If you say the trial is not satisfactory to you, I do not expect a penny from me.

I have no samples. Any mere sample that can affect chronic rheumatism must be dragged to the verge of danger. I use no such drugs; it is dangerous to take them. You must get the disease out of the blood. My remedy does that even in the most difficult obstinate cases.

It has cured the oldest cases that I ever met, and in all of my experience, in all of my 2,000 tests, I never found another re-

cord that would cure one chronic case in ten.

Write me and I will send you the book. Try my remedy for a month, for it can't hurt you anyway. If it fails the loss is mine.

Address, Dr. Shoop, Box 40, Racine, Wis.

Mild cases not chronic are often cured by one or two bottles. At all druggists.

"BEAUVOIR," V. VETERANS' HOME.

FASHION'S FORM.

A Pretty Blouse Frock And How
It Is Built

"Beauvoir" Becomes a Home for
Veterans.

Jackson, Miss., Dec. 1.—The project for converting the old Jefferson Davis homestead at Beauvoir into a home for indigent Confederates, which has been a dream of the United Daughters of the Confederacy for a number of years, to-day became an accomplished fact. Simple ceremonies marked the formal opening to-day when nearly two score of indigent veterans were admitted as inmates, and Capt. James Stone, of Greenville, assumed charge as superintendent. The home is to be presented to the state of Mississippi at the session of the legislature next month, and until that time the expenses of the home will be borne by private contributions.

BOY KING'S PALACE.

Where Alfonso Lives And How
They Guard Him In His Sleep.

Chicago Record-Herald.

The infant Isabella, aunt of the king, a widow of sixty years of age, or so, and the most popular person in Spain, formerly had a large suite of apartments on the main floor of the palace, but with her usual delicacy and thoughtfulness she vacated them after the recent coronation in order that they might be ready for the queen mother in case the king should royal Isabella now lives in a private palace within a few blocks of the royal residence and is daily visitor to the king.

The young king and his mother have large suites on the frontage of the palace facing the city, and the location of their bedrooms is indicated by the invariable palm leaves attached to the balcony, according to the Spanish custom. You will see similar palm leaves hanging to the balconies of nearly all the residences in town, those of the poor as well as the rich. A sheet of white paper tied to the iron railing means that the room is for rent, a palm leaf means that it is the sleeping chamber of a pious Catholic, who brought it home from church on the last Palm Sunday, and placed it there to keep away evil spirits, disease and misfortunes. It remains there the entire year until the next anniversary, when a new palm, fresh from the blessing of the priest, is substituted.

The king has very comfortable quarters, much more homelike than are usually found in royal palaces. He has a series of drawing-rooms, a dining-room larger than that at the White House at Washington, a library with about 6,000 volumes upon the shelves, mostly modern publications and current literature, in all the European languages; a music room, a smoking room, a billiard room, gymnasium and study, which is also used as an office.

His sleeping chamber is large and airy and contains two beds, one of which is occupied by his private secretary or one of his tutors, or aides, as they are termed, since the coronation—Major Lorina, Major Casteljon or Count Andino. He is never allowed to sleep alone, and in an adjoining room sleeps Prudencio, his venerable valet, while two of his body guards are always in the anteroom which must be passed before his chamber is reached.

Some of these rooms are occupied in common with the queen mother, but she has her own suite of five or six rooms adjoining, with access to the roof of a long wing which is occupied by the guards and the attendants, superintendent of the palace. This is arranged so that awnings may be dropped in hot weather and decorated with palms and other plants and flowers. It also gives the king and the queen an opportunity for exercise, the roof being about 400 feet long and forty feet wide.

Children's Aid Society.

The society at Nanape recently elected the officers: President, Stephen Gibson; first vice-president, Mrs. C. M. Gurn; second vice-president, Dr. C. H. Wartman; secretary, F. L. Hooper; treasurer, Miss M. Shirley; agent, Chief Rankin; committee of management, Mrs. A. W. Grange, Mrs. J. R. Dafoe, Henry Wilson, Thomas Jameson, Mrs. F. A. Buttall, J. Lockwood, C. E. R. Checkley, Mrs. Jameson Gault, F. Burrows, Dr. M. A. Symington, Rev. Alex. McDonald, Mrs. W. J. Paul, E. W. Scott, Mrs. A. McNeill, V. Kourer.

I have no samples. Any mere sample that can affect chronic rheumatism must be dragged to the verge of danger.

I use no such drugs; it is dangerous to take them. You must get the disease out of the blood. My remedy does that even in the most difficult obstinate cases.

Stop That Cough.

The "Diamond" Cough Remedy gives relief at once, composed of wild cherry, sassafras, horseradish and other valuable ingredients. Pleasant to take.

Dose small, 25c. and 50c. at Wade's.

Deadly Catarrh It Can Be Cured.

CATARRH is the beginning of more disease than all other causes combined, the foretelling scourge of America. It has come to every city and pestles treacherously in every hamlet. Its vampire wings cast a dark and lingering stay over the land. Its stealthy approach changes the morry laugh of childhood to the whezy breath of cronk, and the innocent mirth of the young to the hollow cough of consumption. In its withering grasp the rounded arm of man turns to the hollow, haggard visage of the invalid. Coupled with the harsh conversation, speech gives way to spitting, the repulsive odors of carbolic acid, ammonia, chlorine, iodine, and other nostrils impair hearing and destroy taste. Because of catarrh a cry of distress has gone out from many a household and the mildew of woes clings to numerous heartsease.

CATARRH IN SOME FORM

Catarrh at some stage lurks as an invader in slighted eyes, nostrils, ears, nose, mouth, lungs, etc., and in the slighted organs of the body, ravages muscles, nerves and sinews, destroys, seizes and contaminates from its deepest depths.

NOT HALF THE BLIGHTING INFILUENCE

of this destructive disease has been told. So stubborn and difficult of cure is catarrh that to cure it is an excellent remedy for it has been the ambition of many aspiring physicians. Few have succeeded in curing it.

IT HAS CURED THOUSANDS

If you have health, a sweet breath and a clear head, you should try Stuart's Catarrh Tablets at once. For sale by all druggists, 50 cents per box.
