Skin Torture

Many Infants are Born THE with Eczema

It's the Only Thing Some Folks Have Left When They Die

THE ONLY " INFALLIBLE CURE IS CUTICUBA

It is in the treatment of this most distressing of torturing and disfiguring skin and scalp humours, with loss of hair, that the Cuticura remedies have shleved their greatest success. Original in composition, scientifically comcounded, absolutely pure, unchangeable in any climate, always ready, and agreeable to the most delicate, they present to those suffering from Eczema the most successful curative of modern times. We know that this will be considered strong language by those acquainted with the character and obstinacy of the disease inder consideration, but it is justified by innumerable successes where all the medies and methods in vogue have falled to cure, and, in many cases, to elieve, even.

The first step in the treatment of the chronic forms is to remove the scales and crusts and soften the skin, by warm baths with Cuticura Soap. The scalp, ears, elbows, hands, ankles and feet will require frequently a thorough soaking in order to penetrate the thickened skin and crusts with which these parts are often covered. Dry carefully, and apply Cuticura Ointment, lightly at first, and where advisable spread it on pieces of soft cloth and bind in place. Take the Resolvent, pills or liquid, in medium loses. Do not use cold water in bathing, and avoid cold, raw winds.

In addition to this there was quite a number from the United States army; no matter of whom you enquired for the reason of this display, none could give you any information; there was an uneasy look in the faces of the multitude, but, what was the character of the danger no one could tell. Never, since the adoption of the federal constitution, has a president of the United States been attended by such an escort. We thought, when that constitution was adopted, that we had reached the water mark in human wisdom and government, yet, within the period of millions yet alive, three presidents have been assassinated. We look abroad to Europe and Asiatic governments, and we find no political holocaust recorded that will bear a comparison with our national sacrifice and in addition to this record, we now find the ruling president attended by a semi-military escort, which tells in trumpet tones, of a lurking danger. We can say, from the bottom of our hearts "May the good God protect us in this hour of trial and confirm the that a government of the people is ernment ever guaranteed to man."
