A Very Good Scheme Aldermen Meek has drawn attention of the directors of the House of Industry to the fact that municipalities must provide houses of protection for the poor and indigent. He thinks in would be a good scheme to confer with the municipalities of Frontenac, Lennox, and Addington, with a view to interesting them in the local home, so that it may be enlarged and made sufficient for the needs of all four municipalities, the same sharing in the cost of the institution.

A Reform Accepted.

Alderman Meek is responsible for very sensible reform in the matter of calling civic committee meetings. He presented a resolution at the council meeting last night providing for the holding of all committee meetings on or before the Wednesday preceding council meetings, so that reports may be obtained in time to be printed and distributed. The resolution also provided for the calling of all meetings by postal notice, instead of by hand immemorial. Council gladly accepted both suggestions.
