The Mainstay of Age The digestion of age is weakened. Nourishing, easily-digested foods are required. That is why Tillson's pan-dried Oats is the best breakfast dish for age. The cooking turns the starch into easily-digested dextrin. It is rich in proteids, carbohydrates and fat. Tillson's Oats is a food, not a fad.

STILL ACTIVE AS GONDOLIER

Venice, Jan. 23 .- The Venetian gondoller who was in the permanent employ of John Ruskin between the years 1878 and 1888, during which period the great English critic spent many months in the Italian Adrian city, is still alive at the age of seven-

His name is Peter Mazzino, and he is as strong and healthy as a young man, his ruddy countenance accentuated by a small white mustache and two little bright eyes, like a rabbit's. He still dresses in the picturesque costume of a Venetian gondolier, and continues to ply his trade on the Riva

Degli Schiavoni. He remembers his English patron autograph letters received from him, mostly at Christmas time.
