

### Mrs. Daniel Morrow, A Prominent Lady of London, Whose Life Became a Veritable Living Death Through Backache and Kidney Disease, Finds New Life, Health and Vigor in **WARNER'S SAFE CURE.**

"Two years ago I began to gradually lose my health. I became nervous and hysterical; lost my appetite and it seemed impossible for me to obtain a good night's rest. I lost flesh, became emaciated and hollow-eyed and suffered with frequent heart palpitations. My complexion became sallow and muddy-looking, and I had a haggard expression. I felt as though life had lost its charm and I did not care to live, for life without health is simply a living death. **WARNER'S SAFE CURE CHANGED ALL THIS; IT CAME AS A BLESSING TO MY HOME.** I felt better as soon as I started to use it, and within a month I was like another woman. New life, health and vigor returned to me, and my husband fell in love with me all over again, and a new light and happiness came into my life. —Mrs. DANIEL MORROW, 529 Ontario St., London, Canada, Secretary Woman's Department, Numismatic Society.

**CURES WEAK WOMEN.**  
We have thousands of such letters from grateful men and women all over the world who have been rescued from a life of suffering and an untimely end by taking Safe Cure. More suffering and deaths result from affections of the kidneys than from

all other diseases, and principally because they are not discovered in time. If you have the slightest doubt about your condition without delay

#### TEST YOUR KIDNEYS AT HOME:

Let some morning urine stand 24 hours; if a reddish-brown sediment forms, or if particles float about in it, or if it is the least cloudy or smoky, your kidneys are seriously affected and utterly unable to carry the waste matter out of the body; and if allowed to run on without treatment the uric acid will clog the blood and poison the whole system, causing inflammation of the bladder and urinary organs, painful passing of urine, headache, backache, especially in the loins; indigestion, dyspepsia, constipation, rheumatic pains and swellings, colds, nervousness, all manner of blood and skin eruptions, and, finally, a complete breakdown of the general health, with Bright's disease or diabetes and death.

**DISEASES OF WOMEN.** Bearing-down sensation, fainting spells, painful periods, and other so-called female troubles are all unfailing symptoms of kidney disease.

#### CURES BACKACHE.

If you are already suffering from any of these diseases your life is in grave danger, as the kidneys rarely put forth such outward symptoms until the disease has secured a firm hold. There is no time to be lost. You should at once begin taking Warner's Safe Cure, which is absolutely the only complete, permanent and safe home cure for Bright's disease, diabetes, gall stones, gout, uric acid, rheumatism and all diseases of the liver and bladder. It soothes inflammation and irritation; repairs the delicate tissues; heals the organs; restores energy and vigor, and builds up a strong, healthy body.

Safe Cure is made entirely of herbs, contains no harmful drugs, is free from sediments, and pleasant to take. Prescribed by doctors and used successfully in leading hospitals for fifty years. Sold at all drug stores or direct, 21 BOTTLES.

**REFUSE SUBSTITUTES.** They are worthless and very often exceedingly dangerous. Ask for Warner's Safe Cure; it will cure you. **WARNER'S SAFE PILLS** move the bowels gently and aid a speedy cure.

Write to Warner's Safe Cure Co., 44 Lombard St., Toronto, Ont., or Rochester, N.Y., for free medical book.

### THE CRADLE OF THE STORM. As Described By An English Banker.

The pleasures of an ascent of the higher Alps are sometimes enhanced, sometimes marred, by an immersion in a dense fog, which, condensed in a snowy mountain-locked plateau, and impelled by the blasts of a sweeping gale, which, without any indication of its approach has suddenly arisen, now for a time blots out the outspread panorama far beneath, darkening the air, and enveloping the explorer in a cold and cheerless mantle of impenetrable mist.

But, continuing the ascent, though with wary and cautious steps, after a time the mountaineer suddenly emerges out of the gloom and darkness into the glorious sunlight, and the black cloud is in a moment metamorphosed into a brilliant and dazzling sea, a rolling billow as white even as the newly fallen snow which enshrouds the upreared mountain spurs and rounded domes of these towering heights. And now the spectacle is one of profound sublimity and majesty. Surrounding the glistening sea of ever advancing, ever-changing cloud-waves, beneath, as a rugged escarpment of peaks and pyramids, some rising steeply from a stark heaving cliff, some towering upwards to the skies, their jagged points capped with a delicate, motionless canopy of white, diaphanous cirrus, the minutely spiculed of which it is formed gradually becoming dissipated, until the whole has disappeared merged into the thin air.

Here is a wild gloomy ravine cleft into the very heart of the mountain, hence from time to time issue infuriate blasts, which cleave a yawning gulf in the apparently solid alabaster of those rolling billows, or pile up contenting masses, fashioning them into grotesque and fantastic shapes, and hurling them in a disordered confusion amongst the more placidly advancing rollers, into which, now beyond the influence of the gusts issuing from this cradle of the storm, they soon merge, and once more majestically roll on.

At length the surging breakers gradually pass away into the far offing, and the beauties of the great snowy valley are unfolded in all their glittering radiance; the lower of the pyramidal peaks come into view; and far beneath in the distance may be glimpsed woods and forests, cultivated fields and verdant meadows, and scattered chalets and villages, which stretched out to the distant horizon is the chain snow-crowned monarchs of the Alps.

And, raising the enraptured eye upwards to the glorious azure of the sky, and hurrying to the heart of the most unimpassioned must throbb with gratitude to the Creator of all this beauty, and must then and there prefer the most ardent love and adoration of the very soul to Him for His compassion to us mortals in suffering all that contumely, and all that dread agony and torture, in order that we, if we will, when our span here below is ended, might bound upwards through that azure to the bright realms of glory and of bliss.

**Fur-Bearing Animals.**  
The fur-bearing animals are more persistently hunted than any other, since many people depend for a living on their capture. When it is shown that in one year there are brought to the market the fur of 180,000 pine-martens, 400,000 stone-martens, 500,000 polecats, 4,000,000 ermines, 160,000 mink, 55,000 otters, and from America alone 150,000 beavers and 100,000 chinchillas, it will be seen that their extermination is a question of a short time. The sea-otter is now to be found only in the Northern Pacific, on the northern coast of California, and thence along the coast of America and of Asia. To-day fewer than 2,000 sea-otter furs are sent to the market annually.

**The Perils Of Kidney Disease.**  
Experience proves that kidney trouble creeps on unperceived, little symptoms neglected, little pains overlooked. Headaches assigned to other causes in time bring on acute inflammation, lumbago, diabetes, Bright's disease. Peck's Kidney Pills cure all these troubles, but they prevent them much more easily. Be wise. Two weeks treatment, 25c., at Wade's. Money back if not satisfactory.

of to-day. There's a difference in wearing qualities, too. In fifty years we have improved our secret chemical process—our methods of treating the raw material—our way of making up the rubbers—their styles, their weight, and their fit. To-day we have rubbers that we are proud of—they are light weight and the standard of excellence, and they

**FIT LIKE GLOVES**

**FASHION'S FORM.**  
A Pretty Theatre Blouse—Looks Dainty.

A very elaborate theatre blouse is made like the above model. If made from good laces it is really a very handsome blouse, but it is also pretty and dainty made in inexpensive effective lace.

It is a combination of Irish point and Valenciennes inserting. The design shows the manner in which the two laces are put on. The foundation is of white or cream Liberty satin, and as the material is cut away from under the lace, it is necessary to have both a taffeta and chiffon lining. This blouse fastens down the back with small pearl or lace buttons.

**Catarrh Is Certainly Curable.**  
In fact it is one of the most curable diseases if fragrant healing Catarrhose is used. No matter how long you have suffered with catarrh you can be perfectly cured by inhaling the antiseptic vapor of Catarrhose, which strikes at the foundation of the trouble and establishes such a healthy condition in the system that catarrhal germs simply can't exist. "I suffered from catarrh of the nose and throat for years," writes S. H. Downie, of Plattsville. "My nostrils were always stuffed up and I had a most disagreeable hacking cough. Catarrhose cured me completely." Catarrhose never fails. Two months' treatment, \$1; trial size, 25c.
