In his account Livingston rather un derestimates the dimensions of the falls, the actual height being 420 feet and the width 1,936 vards, while the height to which the spray rises from the bottom of the chasm has been calculated at 1,200 feet. F. C. Selous. who wrote of the falls as "the most transcendently beautiful natural phenomenon on this side of Paradise," says that the spray clous can The native name for the falls is Mosioatunya, meaning "the smoke that sounds," in reference to the vapor and the noise. One of the most remarkable features of the place is the gorge, which is entirely cut out of zig-zags for miles. The mighty river enters the gorge through a precipitous cleft only 100 yards in width, at a point called the "Boiling Pot," and runs swiftly round the sharp bends, turnube round on its way continually and flowing in contrary directions.

You Take No Chances. All druggists guarantee every bott'e of Chamterlein's Cough Remedy and will ref nd the money to anvone who s rot satisfied after using two-thirds of the contents. This is the best remede in the world for la grippe.
