Of course this is an off hand opinion, and given without much consideration of the question, but I think my point is secure. In my opinion the city will have

Ridicules The Suggestion. John Melntyre, city solicitor, sim-

ply laughed at the suggestion or contention that the city was "stuck" for an additional sum or costs greater than imposed by the arbitrators. However, he was very guarded in his replies to questions upon the noint,

will be borne by the consumers of proper place and at the proper time, "Is there any clause in the arree

an interpretation could possibly be given. However, in my position as acting solicitor. I prefer to communicate my opinions upon such questions

Had Nothing To Say. Alderman Toye, chairman of the fire and light committee, when asked for an expression of opinion upon the problem, looked wise, and with I'm-not-to-be-pumped expression his eyes, replied briefly, "I've nothing This is the cup presented to the union

The city engineer upon reading over the agreement, unhesitatingly said that the company must hand over the plant to city free of encumberances. He would not admit that any interpretation could be placed on clause 0 other than that the company had assume all its liabilities. would have to provide for the interest on its bonds until such time as

An Alderman's View. cussing the question, expressed himself in this strain: "Assuming that the city is obliged to become responfor the interest on these bonds until maturity-and it looks to me as though they had-what will be the result? Well, in the first place, we will retain from the amount of the award of the arbitrators a sum equal to the total of the bonds in force, which will mean that we will have so much less to borrow. We have to pay four and a half per cent for our money, and we will have to pay the bond holders five per cent. on their holdings. That will mean a discrepancy of one-half of one per cent. which we will have to make up each year until the bonds mature, a matter of \$500 a year for

thirteen years. This \$500 a year, of course, would have to come out of the earnings of the plant, and would not affect the city's taxes. It would be better for us if the bond-holders would agree to surrender their bonds W. F. Nickle, a heavy stock and at once; no doubt we could borrow bondholder of the company was ask- such a large sum as will be required ed his opinion regarding the point to take over this plant, at four per raised by "Bondholder," and while he cent., and it would be a big saving was convinced that the city would to us to clean up the deal at once, have to care for the interest on the providing we can borrow the money bonds from the time the plant is tak- at a low rate, and I have no doubt en over until the bonds expire, he but what we can."
