fir. William F. Montgomery, the Largest Coal Merchant of Albany, N. V. Was Refused Life Insurance on Account of Bright's Disease, but After Taking Warner's Safe Cure Was Accepted and Now Has His Policy.

Mr. WILLIAM F. MONTGOMERY, of Albany. Mr. Montgomery is a living testimonial of what this great medicine will do for any man or woman who has kidney or bladder trouble

"Instead of writing this letter I wish it were possible for me to see and talk with all those who are suffering from kidney troubles. I could tell them in one brief interview what your medicine has done for me, what I know it will do for them. I enjoyed vigorous, good health up to a year ago, when overwork seemed to undermine my constitution. I paid rest; boxes such as we had found the buted to his physicians, who made ox being roasted whole for the matter until it was brought home to me forcibly at an insurance examination. I failed to secure my policy, and after consulting the doctor who made the examination I became aware of my disease.

"Of course, I was alarmed and had repeated tests made of the urine for albumen, and the horror of the thing grew upon me when the doctors all pronounced the case Bright's Disease. Complications of the stomach set in, and although I doctored with well-known specialists I grew rapidly worse. This condition of affairs continued until last November. At that time my strength had diminished, and it seemed to me that I could not get well unless some relief was soon found. It was at this stage that interested friends brought to my attention Warner's Safe Cure. Cases were cited where it had accomplished good results. There being no objections, and all hope having been despaired of, I procured the first bottle.

After a few days there were some encouraging indications. The slight improvement noted continued and grew and in a month albumen was entirely eliminated from the urine. I gained rapidly in strength and health and am now in perfect condition. My life insurance has been granted me and I feel that I owe my health and life to Warner's Safe Core." Yours truly, WM. F. MONTGOMERY,
