MEDICAL EXAMINER

Other Prominent Physicians Use and Endorse Pe-ru-na.

TR. LIEWELLYN Jordan, Medical Examiner of the U.S. Treasury Department, graduate of Columbia Colloge; and who served three years at West Point, has the following to say f Poruna:

"Allow me to express my gratitude to you for the benefit derived from your wonderful remedy. One short month has brought forth a vast change and I now consider myself a well man after months of suffering. Fellow sufferers, Peruna will cure you."

A constantly increasing number of physicians prescribe Peruna in their practice. It has proven its merits so thoroughly that even the doctors have overcome their prejudice against so-called patent medicines and recommend it to their patients.

Peruna occupies a unique position in medical science. It is the only internal systemic catarrh remedy known to the medical profession to-day. Catarrh, as everyone will admit, is the cause of onehalf the disease which afflicts mankind. Catarrh and catarrhal diseases afflict one-half of the people of United States. Robert R. Roberts, M. D., Washington, D. C., writes:

"Through my own expe as well as that of many of my l friends and acquaintances who have been cured or relieved of catarth by the use of Hartman's Peruna, I can confidently recommend it to those suffering from such disorders, and have no hesitation in prescribing it to my patients." --Robert R. Roberts.

The action of the O.H.A. in throwing out the Belleville Club for playing an ineligible has raised a greater storm in Senator Bowell's town than the one on which the month of March rode in. Belleville has never been so agitated, and if an O.H.A. executive representative were to dare set foot on Intelligencerville soil this week while the kettle of rage is boiling, the whole of the 15th Regiment couldn't save him from mutilation. At present the Japanese war or Ontario politics aren't in it with bockey in Bellwille, both of whose papers are fell of nothing else but comment on the O.H.A's knock-out blow. The Ontatio, discussing the matter editorially, says that if Pelleville's team is not elight to play, then there has not been, nor is there at present a team in the association that, is eligible. Such a statement, however, is hightfully wide of the mark. The truth is that Eclleville for two years has been carrying a decidedly doubtful team. The main point arising out of the O.H.A's action is this: Was it fair to twize declare McMilan elitible to Medical Examiner United States have been better to have suspended French turf and hopes to be equally suc-McMillan, and allowed Belleville to proceed instead of caling on Peter-
