Managing Director.

**THE DAILY WHIG.**  
"Opifer per Orbem Dicor."  
SALARIES OF TEACHERS.  
The Bradford Board of Education  
thinks it has solved the question of  
increasing the teachers' salaries. The  
proposition of a prominent member is  
that the pay of the teachers be ac-  
cording to merit and ability. The  
certified standing of the staff will  
be first considered, and then the ex-  
perience and success of each one. This  
involves very close discrimination on  
the part of the school management  
committee, which must be guarded by  
the expert evidence of the inspector.  
Worth and ability are undoubtedly  
the points which should influence an  
employer in making his rewards. But  
there is a difficulty in marking them  
correctly. The test is only reached  
through a series of relationships, any  
one of which misread or misunder-  
stood would imperil the whole and  
work injustice. Hence it is that  
school boards, like labor unions, have  
found it convenient to establish  
certain classes, and with them asso-  
ciate certain wages or salaries. The  
Bradford men have framed a scheme  
on the salary question which will be  
found defective. It will be abandoned  
when an attempt is made to apply it.

**A TARDY VINDICATION.**  
The statements in connection with  
the Dreyfus case—that of the official  
reporter, and to the effect that the  
record is not what it was represented  
to be, and that of the attorney-gen-  
eral, declaring that there is an utter  
absence of convicting evidence—does  
not surprise some people very much.  
There was a traitor in the French  
war office, probably in the Intelligence  
department, and he was giving out  
information to the Germans. He was,  
however, apparently in the inner cir-  
cle, and was quick to divert suspi-  
cion from himself. Dreyfus was inno-  
cent of the crime, but he was dislik-  
ed, on account of racial connections  
more than anything else, and he was  
made the victim of a vile conspiracy.  
The man who, while in the employ-  
ment of the government, betrays his  
country is worthy of the severest pun-  
ishment. But Dreyfus endured inex-  
pressible torture while free from actual  
taint or sin. His experiences on  
Devil's Island have been described, but  
they cannot be understood. Time  
and circumstances have brought about  
his strange revelations, and the man  
on whom the malice of bad men  
thrust so long since, directed the war in  
South Africa. One of them now de-  
clares that the Russians will not eva-  
cuate Port Arthur though that ap-  
pears to be what is contemplated.

**SOME DOLLARS AND CENTS.**  
The electors who will vote upon the  
by-law, confirming the purchase of the  
electric light and gas plants, and  
authorizing the loan of money for the  
payment of them, are generally  
satisfied that the enterprise will be a  
paying one. This accounts for the  
readiness with which they support ef-  
forts of the council to acquire posses-  
sion of the property and to mortgage  
and direct it as a municipal venture.  
It is over three years since the ar-  
bitration was had respecting the value  
of the plants and the business. At  
that time Mr. Cross, of Toronto, an  
expert accountant, went through the  
books of the company and prepared a  
statement from which are extracted  
some figures. The statement covered  
the period from 1897 to 1900, both  
years inclusive. The gas made in that  
time measured 58,431,900 cubic feet,  
and it was charged at 89c.723.90. But  
there were bad debts—they will occur  
or arise in connection with any busi-  
ness—and deducting these, amounting  
to \$994.37, the balance is 897-  
729.62. In the four years there was a  
gradual increase in the consumption  
of gas to the value of \$3,216.73. The  
expenses of the gas department in the  
four years totalled \$45,578.32; an  
average of \$11,469.58, and an increase  
in the period named of only \$600.11.  
The total gain in the four years—the  
surplus of revenue over working ex-  
penses—was \$32,851.10, an average of  
\$8,212.78.  
The experience in the electric de-  
partment is even more inspiring. The  
earnings from 1897 to 1900, both  
years inclusive, were \$110,252.28.  
These figures embraced a contribution  
from the Royal Military College, (now  
cut off), of \$7,934.94. Deducting this,  
and an item of \$1,526.86, for bad  
debts, and there is a balance of \$101-  
691.38. The expenses, for wages, coal,  
oil, carbons, and lamps, amounted to  
\$57,309.70. The earnings increased by  
\$7,177.46, and the working expenses  
by \$748.73. Deducting the working ex-  
penses from the earnings and there is  
a balance of \$44,331.68.  
But the difference between earnings  
and working expenses does not repre-  
sent profit. The business charges have  
to be taken into account, the charges  
in connection with the management of  
the electric plant, and the gas plant,  
the office salaries, the insurance and

**THE PORT MINED**  
AND PLACED THERE BY JAPANESE.  
Concentration of Chinese Forces  
West of Mukden Arouses Sus-  
picion Among Russians.  
Paris, March 5.—Telegraphing from  
Hankin, a correspondent of the Matin  
says a special staff of officers has  
started for Lake Baikal to meet Gen-  
eral Kourpatkin. The central tele-  
graph office here, the correspondent  
continues, will henceforth be closed to  
the public.  
The concentration of Chinese forces  
west of Mukden arouses suspicion; in  
spite of the repeated declaration of  
China's neutrality. Cossacks are ad-  
vancing from Korea, and the atti-  
tude of the natives toward them is  
very variable.  
Col. Tatsujiro and five other Japa-  
nese officers who were arrested in Ko-  
rea have been taken to Liaoyang.  
The people here believe that Port  
Arthur was mined a long time ago  
by the Japanese, who are now trying  
to send there a few men who know  
the place well to blow it up.  
The Russian cruisers Bayan and Di-  
rina received only slight injuries dur-  
ing the recent engagement with the  
Japanese.  
Quoting from a correspondent, who  
wrote him from Port Arthur, under  
the date of February 17th, the Han-  
kin correspondent of the Matin goes  
on to say that General Stossel, the  
commander at Port Arthur has issued  
a general order blaming officers who  
wasted their precious time in useless  
criticizing of their superiors, and  
threatening those who did so with  
severe punishment.  
A letter from Port Dalny, dated  
February 18th, brings the statement  
that the population there had been  
reduced from 1,500 to 1,000. Seven  
hundred men were sick in hospitals,  
and would shortly be removed to the  
north. All the hays in the vicinity of  
Dalny were still ice-bound.

**Camp Breaking Up.**  
O'Neil's Corners, March 4.—The last  
severe snow storm destroyed the good  
roads. The tracks all along the line  
are blocked and people missed their  
wayward paths. The Whig-James Irvin  
passed through here Saturday, taking  
orders for Daly Bros' teas, Napanea.  
We are sorry to hear of W. Tomp-  
kins' illness. Miss M. Clair has re-  
turned after an extended visit with  
friends in Enterprise. James Kenny  
narrowly escaped serious injury while  
driving logs to Enterprise. The load  
upset and he only saved himself by  
jumping. The attendance at school,  
though good considering the weather,  
is rapidly growing. Miss M. Camp-  
bell is visiting her sister, at Enter-  
prise. Camp has broken up at Flow-  
er Station, and we are busy welcom-  
ing our local sports. M. Kenny is  
training his pacer, "Young Wexford,"  
for the coming races here. Miss E.  
McGrath, Hungerford, is visiting Mrs.  
A. Kidd, of this place. C. O'Neil paid  
a flying visit to Tamworth one day  
last week.

**Greatest Bargain In The City.**  
Prevost of the New York Clothing  
Store, Brock street, has decided for  
the next thirty days to sell all goods  
at half price, consisting of ready-made  
clothing, gents' furnishings and cloth-  
ing made to order, to make room for  
his spring importations. His \$15 suits  
and \$3.50 pants made to order have  
no equal.

Fresh Huyler's candies at Gibson's  
Red Cross Drug Store.  
London beer makers send among  
the people of the city the following  
vassals who sell on the instalment  
plan.

**Well Balanced Nerves**  
Your Success In Life De-  
pends Upon Them.  
If Lacking in Nerve Force, Build  
Up Your System With Ferro-  
zine—It Has Helped Others—  
Let It Help You Too.  
Happy is the man who can work un-  
ceasingly without fear of an "attack  
of the nerves." He gets along, pros-  
pers, rises to position of power and  
importance. The strong man is push-  
ing out the heads of his weaker bro-  
thers by virtue of being capable to do  
and act when necessity calls.  
The weak, nervous man is distanced  
before the race starts. But he should-  
n't give up without trying what Fer-  
rozine can do for him. This strength-  
ening tonic has great power for build-  
ing up people who are run down, tired  
and exhausted.  
Ferrozine starts right at the root  
of the trouble and drives all impuri-  
ties out of the blood. Then it gives  
the blood an additional supply of iron  
and other strengthening elements  
which enables it to nourish the  
nerves back to normal condition. Once  
the nerves are toned up, indigestion  
and stomach trouble disappear. Then  
your system is in good order, and  
capable of being rebuilt in the pro-  
per way. Nerve tissue is formed, flash-  
by muscles begin to harden, weak or-  
gans regain strength, and before long  
the half wrecker man glories in his  
new-found vigor that Ferrozine has  
brought him.  
You may have tried a hundred re-  
medies; they may all have failed. But  
this mustn't influence you against Fer-  
rozine, which is so different from  
other preparations. Ferrozine actually  
makes blood, and makes the kind of  
blood that is valuable in maintaining  
health. Then Ferrozine has a wonder-  
ful action on food, converting it into  
nutrition, so that everything you eat  
is going to be useful to your body.  
Ferrozine is unexcelled as a rebuild-  
ing tonic for children, women and men,  
the young and old, in fact everybody  
can derive benefit from Ferrozine,  
which is specially recommended for  
chlorosis, anaemia, lassitude, weakness  
and all disorders arising from im-  
paired nerves or blood. Try Ferrozine  
yourself. Price 50c. per box or six  
boxes for \$2.50. Sold by druggists and  
by mail from N. C. Polson & Co.,  
Kingston, Ont., and Hartford, Conn.,  
U.S.A.

**THE POLICE CO.**  
End Of The Lewis vs.  
Case.  
The Lewis-Burth dog  
was again before the  
tribunal this morning. One  
fied that in a conv-  
Burth cover his trouble  
bor's dog he had advised  
take the law in his own  
he had threatened what  
Burth entered the box  
behalf and swore that he  
ing about the poisoning  
dog, nor did he know  
poisoned. He didn't p-  
didn't threaten to do it.  
The magistrate said the  
evidence was not suffi-  
vet strong suspicion r-  
Burth.  
"I believe, you were  
box," the magistrate said

The weak, nervous man is distanced  
before the race starts. But he should-  
n't give up without trying what Fer-  
rozine can do for him. This strength-  
ening tonic has great power for build-  
ing up people who are run down, tired  
and exhausted.  
Ferrozine starts right at the root  
of the trouble and drives all impuri-  
ties out of the blood. Then it gives  
the blood an additional supply of iron  
and other strengthening elements  
which enables it to nourish the  
nerves back to normal condition. Once  
the nerves are toned up, indigestion  
and stomach trouble disappear. Then  
your system is in good order, and  
capable of being rebuilt in the pro-  
per way. Nerve tissue is formed, flash-  
by muscles begin to harden, weak or-  
gans regain strength, and before long  
the half wrecker man glories in his  
new-found vigor that Ferrozine has  
brought him.  
You may have tried a hundred re-  
medies; they may all have failed. But  
this mustn't influence you against Fer-  
rozine, which is so different from  
other preparations. Ferrozine actually  
makes blood, and makes the kind of  
blood that is valuable in maintaining  
health. Then Ferrozine has a wonder-  
ful action on food, converting it into  
nutrition, so that everything you eat  
is going to be useful to your body.  
Ferrozine is unexcelled as a rebuild-  
ing tonic for children, women and men,  
the young and old, in fact everybody  
can derive benefit from Ferrozine,  
which is specially recommended for  
chlorosis, anaemia, lassitude, weakness  
and all disorders arising from im-  
paired nerves or blood. Try Ferrozine  
yourself. Price 50c. per box or six  
boxes for \$2.50. Sold by druggists and  
by mail from N. C. Polson & Co.,  
Kingston, Ont., and Hartford, Conn.,  
U.S.A.

**THE POLICE CO.**  
End Of The Lewis vs.  
Case.  
The Lewis-Burth dog  
was again before the  
tribunal this morning. One  
fied that in a conv-  
Burth cover his trouble  
bor's dog he had advised  
take the law in his own  
he had threatened what  
Burth entered the box  
behalf and swore that he  
ing about the poisoning  
dog, nor did he know  
poisoned. He didn't p-  
didn't threaten to do it.  
The magistrate said the  
evidence was not suffi-  
vet strong suspicion r-  
Burth.  
"I believe, you were  
box," the magistrate said

**THE PORT MINED**  
AND PLACED THERE BY JAPANESE.  
Concentration of Chinese Forces  
West of Mukden Arouses Sus-  
picion Among Russians.  
Paris, March 5.—Telegraphing from  
Hankin, a correspondent of the Matin  
says a special staff of officers has  
started for Lake Baikal to meet Gen-  
eral Kourpatkin. The central tele-  
graph office here, the correspondent  
continues, will henceforth be closed to  
the public.  
The concentration of Chinese forces  
west of Mukden arouses suspicion; in  
spite of the repeated declaration of  
China's neutrality. Cossacks are ad-  
vancing from Korea, and the atti-  
tude of the natives toward them is  
very variable.  
Col. Tatsujiro and five other Japa-  
nese officers who were arrested in Ko-  
rea have been taken to Liaoyang.  
The people here believe that Port  
Arthur was mined a long time ago  
by the Japanese, who are now trying  
to send there a few men who know  
the place well to blow it up.  
The Russian cruisers Bayan and Di-  
rina received only slight injuries dur-  
ing the recent engagement with the  
Japanese.  
Quoting from a correspondent, who  
wrote him from Port Arthur, under  
the date of February 17th, the Han-  
kin correspondent of the Matin goes  
on to say that General Stossel, the  
commander at Port Arthur has issued  
a general order blaming officers who  
wasted their precious time in useless  
criticizing of their superiors, and  
threatening those who did so with  
severe punishment.  
A letter from Port Dalny, dated  
February 18th, brings the statement  
that the population there had been  
reduced from 1,500 to 1,000. Seven  
hundred men were sick in hospitals,  
and would shortly be removed to the  
north. All the hays in the vicinity of  
Dalny were still ice-bound.

**Camp Breaking Up.**  
O'Neil's Corners, March 4.—The last  
severe snow storm destroyed the good  
roads. The tracks all along the line  
are blocked and people missed their  
wayward paths. The Whig-James Irvin  
passed through here Saturday, taking  
orders for Daly Bros' teas, Napanea.  
We are sorry to hear of W. Tomp-  
kins' illness. Miss M. Clair has re-  
turned after an extended visit with  
friends in Enterprise. James Kenny  
narrowly escaped serious injury while  
driving logs to Enterprise. The load  
upset and he only saved himself by  
jumping. The attendance at school,  
though good considering the weather,  
is rapidly growing. Miss M. Camp-  
bell is visiting her sister, at Enter-  
prise. Camp has broken up at Flow-  
er Station, and we are busy welcom-  
ing our local sports. M. Kenny is  
training his pacer, "Young Wexford,"  
for the coming races here. Miss E.  
McGrath, Hungerford, is visiting Mrs.  
A. Kidd, of this place. C. O'Neil paid  
a flying visit to Tamworth one day  
last week.

**Greatest Bargain In The City.**  
Prevost of the New York Clothing  
Store, Brock street, has decided for  
the next thirty days to sell all goods  
at half price, consisting of ready-made  
clothing, gents' furnishings and cloth-  
ing made to order, to make room for  
his spring importations. His \$15 suits  
and \$3.50 pants made to order have  
no equal.

Fresh Huyler's candies at Gibson's  
Red Cross Drug Store.  
London beer makers send among  
the people of the city the following  
vassals who sell on the instalment  
plan.

**Well Balanced Nerves**  
Your Success In Life De-  
pends Upon Them.  
If Lacking in Nerve Force, Build  
Up Your System With Ferro-  
zine—It Has Helped Others—  
Let It Help You Too.  
Happy is the man who can work un-  
ceasingly without fear of an "attack  
of the nerves." He gets along, pros-  
pers, rises to position of power and  
importance. The strong man is push-  
ing out the heads of his weaker bro-  
thers by virtue of being capable to do  
and act when necessity calls.  
The weak, nervous man is distanced  
before the race starts. But he should-  
n't give up without trying what Fer-  
rozine can do for him. This strength-  
ening tonic has great power for build-  
ing up people who are run down, tired  
and exhausted.  
Ferrozine starts right at the root
