

FOR WOMEN THE 5 P. M. EDITION. SECOND EDITION NEWS ALSO ON PAGE FIVE.

Much That Every Woman Desires to Know

About Sanative Antiseptic Cleansing

And about the Care of the Skin, Scalp, Hair and Hands

Too much stress cannot be placed on the great value of Cuticura Soap, Ointment and Resolvent in the antiseptic cleansing of the mucous surfaces, and of the blood and circulating fluids, thus affording pure, sweet and economical local and constitutional treatment for weakening ulcerations, inflammations, itching, irritations, relaxations, displacements, ulcers and irregularities peculiar to females. Hence the Cuticura remedies have a wonderful influence in restoring health, strength and beauty to weary women, who have been prematurely aged and invigorated by these depressing ailments, as well as such sympathetic afflictions as anemia, chlorosis, hysteria and nervousness.

Millions of women use Cuticura Soap, assisted by Cuticura Ointment, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for annoying irritations and ulcerative weaknesses, and for many sanitary, antiseptic purposes which readily suggest themselves, as well as for all the purposes of the toilet, bath and nursery.

Cuticura Soap, Ointment and Resolvent are sold everywhere. Prepared by Dr. J. C. Clark, Lowell, Mass. U.S.A. Sole Importers for Canada, The Canadian Dispensary, Ltd., Toronto, Ont.

COMMERCIAL MATTERS. What is Going on in The Business World—The Markets.

Both the Grand Trunk railway and the Canadian Pacific railway report that prospects for heavy trade to the World's Fair are bright. The Montreal Oil company today at Cleveland announced another reduction 14 cent per gallon on all grades of refined petroleum. The Sovereign oil mine have struck a rich vein of oil at the 50 ft. level. It is a 4 foot vein and judging from the samples of ore shown us, is exceedingly rich. The mill being overhauled and will soon be ready to commence crushing. The following message was received from a reliable party in Winnipeg: "Conditions never so unfavorable for farm work. Freezing hard every night, and snow and ice everywhere. Will throw seeding back to May 1st, which is latest I have seen it in twenty years' farming."

The recent government report, issued April 17th, says a representative member of the New York Produce Exchange, which gives the condition of winter wheat at 72.5 per cent, is one of the most bullish reports issued in the past 20 years, and it is our belief that wheat will sell very much higher before the crop is harvested. "The report," says a representative member of the New York Produce Exchange, "which gives the condition of winter wheat at 72.5 per cent, is one of the most bullish reports issued in the past 20 years, and it is our belief that wheat will sell very much higher before the crop is harvested."

WORDS OF PRAISE

For Sisters of Hotel Dieu And a Doctor. The many friends of Miss M. McLean, Point Road, will be pleased to hear that she has entirely recovered from her recent illness, and much credit is due the Sisters of the Hotel Dieu for excellent care and attention. She claims that nowhere is there an institution to be found, in which one receives such careful attention. Too much praise cannot be given them, also the doctor who rendered such efficient service. Although he enters heart and soul into civic affairs, the attraction is not strong enough to keep him from his professional duties. Miss M. Richardson, an inmate, also, is loud in her praises of the sisters. The question has been asked why the Hotel Dieu kept no house surgeon, but from all reports, the pharmacy sisters are competent and the former is not required.

A BIG PLANT.

Is To Be Installed In The Locomotive Works. The Canadian Locomotive company has just signed a contract with the Chambersburg, Pa., engineering company for the installation in the works here of an hydraulic riveting and flanging plant. It comprises a riveting machine of 150 tons pressure, an hydraulic frame, accumulator, flanging press and all the necessary pumps, etc. It will be one of the largest plants of its kind in the world and will add greatly to the equipment of the works and will permit of from 12 to 15 engines additional per month being turned out. The plant will be installed within the next seven weeks.

Oriental Baseball Team.

A meeting of the Oddfellows, interested in baseball, was held last evening, and the following officers elected for the coming season: Honorary president—Dan Reeves. President—C. C. Polver. Honorary vice—John Pollock. First vice-president—Alex. Cathcart. Second vice-president—W. H. Godwin. Secretary-treasurer—Geo. A. Wright. Manager—Dr. A. Ross. Captain—E. Harrick. There was much enthusiasm manifested at the meeting, and apparently there is lots of material for a strong team. The team will wear the same name as last year, the Orientals, and will commence practicing at once in the cricket field. A game will probably be arranged here for the 24th of May, and one has already been booked for July 1st at Kennew.

Property Sold.

D. A. Cays has concluded these sales within the past few weeks: Brick dwelling, owned by Mrs. McRae, Colborne street, to Henry Myers, this city; brick dwelling, owned by Miss Main, Union street, to Capt. John Dix; two stone dwellings, Carl and Bagot streets, owned by the McRae estate, to Mrs. Kaffner; three dwellings, owned by Mrs. Adelaide Hyde, Montreal, to Henry McEwen, and three frame dwellings, Nos. 7, 9 and 11 Frontenac street, to Stewart Joyner, Sydenham.

Miss Mary Isabella Foster, North Elmsley, and George Acheson, a prosperous farmer of Drummond, were married Tuesday last.

PROPERTY SOLD.

D. A. Cays has concluded these sales within the past few weeks: Brick dwelling, owned by Mrs. McRae, Colborne street, to Henry Myers, this city; brick dwelling, owned by Miss Main, Union street, to Capt. BODY FOUND IN CANAL, NEAR STE. CUNIGONDE ROLLING MILLS.

Ice In St. Lawrence Solid Yet, And Temperature Low—Water Receding Slowly—Takes Stand In His Own Defence. Montreal, April 16.—William Blackley, the defendant in the charge of criminal libel preferred by Crown Prosecutor Cooke, took the stand in the court of King's Bench, this morning, on his own behalf. The early part of his evidence related entirely to his dealings with Backtrack and Margolis, and contained nothing of a sensational character.

The ice in the St. Lawrence remains solid, to-day. The weather is showing no signs of moderating. The water has been receding very slowly. The body of an unknown man was found in the canal, yesterday morning, in rear of the Montreal Rolling Mills, Ste. Cunigonde. When the body was removed to the morgue, a post office message, No. 4368, dated November 9th, was found in one of the pockets of the clothing. It was payable to Mrs. Milloy, Greenock, Ont., for \$4.87. The body was badly decomposed, and looked as if it had been in the water for several months.

The witness, to-day, gave currency to a report that Sir Richard Cartwright and Hon. Messrs. Fisher and Sifton are to accept positions under the government and will be succeeded by Hon. C. S. Hyman and Messrs. W. P. McCrossin and Robert Bickerton. It is said Sir Richard will go to the senate, Mr. Fisher will become Canadian Exhibition Commissioner while Mr. Sifton will go to England as the Canada representative on the Pley Council. Mr. Bickerton admitted having heard something about a re-arrangement of portfolios.

RUSSIA IS DISTURBED.

Bomb Outrage At Capital And Feeling Alarming. New York, April 16.—A cable to the Times from Vienna says: "Sinister reports are afloat regarding the situation in Russia, but no confirmation has been received. It is said a Petersburg agent has secured a position as a demonstrator against the war by workmen at Kharhoff. All accounts agree that the Russian state of mind is depressed both by military and financial reverses. The czar is said to be inclined to despondency. Fancy doubts plays a large part in these reports, but as Vienna has been in comparatively close touch with St. Petersburg since the commencement of the war it would not be surprising if the present forebodings possess some foundation in fact."

HE WAS PLUCKY.

A Gunner's Heroism Saved the Missouri. Pensacola, Fla., April 16.—The most heroic act in the tragedy which cost so many lives on the Missouri, the devotion displayed by Chief Gunner Mate Monson. Directly after charges in handling room had exploded, Monson dashed through suffocating gas and smoke and springing into the magazine changed the great door behind him. In doing so he came perilously near ending his own life, for by the time the door had snapped shut he was covered with shrapnel. The officers say his conduct saved the ship from destruction.

OUR LADY OF THE SNOWS.

How Kipling's Poem Came To Be Written. London, April 16.—Dr. Gowers, writing to Notes and Queries tells how Kipling wrote "Our Lady of the Snows." Kipling said the phrase had been floating in his mind for some time before an occasion inspired these verses, the occasion being the news of the Canadian diminution of duty on English imports. The news came to Toronto on Saturday. Kipling was composed on Sunday while cycling. Kipling said he did not intend to publish them for a week or two, but friends urged the immediate publication and he sent them over to the Times. Dr. Gowers considers the Canadian objection to the title an instance alike of ingratitude and perverted over-sensitiveness.

ICE-CRUSHING CAR FERRY.

To Be Built For Detroit-Windsor Route. Detroit, April 16.—The Michigan Central railway has contracted for a new and powerful ice-crushing car ferry, to operate between Detroit and Windsor. The new boat will be larger than any now in service on the river, will have more power and will embrace several features, not embodied in the constructing of any boat on the great lakes. It will have a capacity of twenty-one of the largest standard sized cars. It will be ready to go into commission next year, and will cost over \$300,000.

GETS OUT OF PRISON.

Author of "The Little Garrison" a Free Man. Strasburg, April 16.—Former Lieut. Blise has been released from prison after serving a term of six months. Blise was arrested last October on a charge of "revealing military secrets." The revelation was made in a novel written by him entitled, "A Little Garrison." It professed to expose a very disgraceful state of affairs in German military service. The lieutenant was tried by court martial in Berlin last November, and was sentenced to imprisonment for six months and a fine of 100 marks.

RECOVERED MONEY.

Miss Fannie Saunders, Earl street, picked up a roll of bills on that street Tuesday evening, containing over \$30 and promptly returned them to their owner to-day, who is very grateful that they fell into such honest hands.

THE THREE B'S.

In Kingston's Biggest hat store. Men's Best and It's Best. And then they feel well dressed. George Mills & Co., 106, 108 Princess street, wholesale and retail hatters.

ANNIVERSARY ENTERTAINMENT.

Brook street Methodist church, Monday, 15th inst. at 8 p.m. Luncheon, lecture, concert, refreshments served. Tickets 20c. children 10c. Miss Nolan, North Elmsley, had two milk cows and a steer killed by lightning last Saturday.

DETECTIVE'S ROMANCE.

Inspector Drew To Be Married April 28th.

London, April 16.—The famous London detective, Chief Inspector Drew, whose subtle skill has made him an ever-present terror to the boldest and most astute of European thieves, is a prominent figure in a pretty romance which next month will be crowned by his wedding.

In the history of modern crime Inspector Drew is a striking figure. He has an infinite ingenuity, a never-failing quickness of resource, and a cold "two o'clock in the morning" courage which have resulted in the recovery of tens of thousands of pounds worth of property and the capture of some of the cleverest criminals.

Handsome and debonair, Inspector Drew has until recently followed the example of his exemplar, Sherlock Holmes, and paid little attention to sentimental matters. But last August after months of heavy work, he went to Margate for a few weeks' rest. That proved a fateful visit. He stayed at the Queen's hotel, in company with many other visitors. The identity of the detective soon leaked out, and all staying at the hotel became intensely interested in the man whose name and exploits were so frequently chronicled in the newspapers. Particularly interested was a lady visitor, the charming widow of a well-known Welsh solicitor and a friend sprang up between them.

It was soon seen that though an excellent terms with all at the hotel, the lady found a special attraction in the vivid stories of Detective Drew. The inspector, on the other hand, discovered that even his work was beginning to have but a secondary interest for him.

The friendship grew. When at the end of a few weeks the parties returned to town, the acquaintanceship was continued, and the sequel is to be found in the announcement of the marriage of Inspector Drew to Maryle-land, a French girl, on April 28th. A reception will afterwards be held at the Trocadero.

BUSINESS COLLEGE NOTES.

Arthur O'Leary, a graduate, has secured a position as stenographer in the head office of the Canadian Pacific Railway company, Montreal. Miss Gertrude, the shorthand graduate, has secured a position as stenographer for D. Cartwright, broker, city. Gilbert Lindsay, who left for Toronto last week, has secured a position as assistant book-keeper for Smith, White & Co., that city. Fred Leavitt left on Monday for Winnipeg. E. D. Perrin and W. W. Steeves, of the commercial departments, leave for Toronto next week.

LEFT FOR THE WEST.

James Bewe left this morning for Calgary, N.W.T. He will be greatly missed by his many friends who admired him for his honest, straightforward character and genial disposition. He has been a member of the local branch of the Y.M.C.A. for the past eight years and during the last four years has occupied the position of physical instructor having filled this office to the entire satisfaction of all concerned. A new instructor will probably be appointed in the fall.

"BONNIE BRIER BUSH" TUESDAY.

Next Tuesday at the Grand opera house promises a most enjoyable entertainment from the fact that it brings again "The Bonnie Brier Bush," that very successful dramatization of Ian MacLaren's charming Scottish tale. The veteran actor, J. H. Stoddard, who has been playing "Lachlan Campbell" and "Posty" respectively, and are said to be splendidly supported by Kirke La Shelle's excellent company.

POISON FROM CHOCOLATES.

Rev. J. H. Edmonson, a recent Queen's graduate, stationed west of Toronto, and his wife, had a trying experience a few days ago. They were poisoned through eating fruit chocolates, and only that preventives were utilized, their condition would have been precarious. They were quite ill for a time, but have now almost recovered from the poisonous effects.

A CLERGYMAN'S VIEW.

Rev. Mr. Crumphy said the Japanese paper in the Whig window was quite familiar to him. He says he is sure the days are curving in the direction of warfare. He is of opinion that the Japanese will not throw themselves against the thousands of the Russians, but will content themselves with harassing the Russians both by sea and land.

"SILVER KING" IS DEAD.

The warden of the Kingston penitentiary announced the death in the prison on Friday of James Kane, alias "Silver King," who was condemned six years ago to serve ten years in the penitentiary for committing an aggravated assault on Constable James Murphy, now turnkey at police headquarters at Montreal.

STEAMER ISLANDER TO START.

The steamer Islander leaves to-morrow morning for Alexandria Bay to begin her season's trips among the Thousand Islands. It is said that the river is fairly clear of ice from Kingston to the bay, but blocked behind that point. The United States channel to Cape Vincent is blocked.

TO MAKE ENQUIRY.

Col. Sam. Hughes will ask whether any commissions in the imperial service are granted annually to the Canadian militia, irrespective of those given to graduates of the Royal military College. If other commissions are allowed to the militia on what principle is the selection made, and whether examinations of candidates are held.

T. H. WIGGINS, D.L.S., NAPANEE.

Has been appointed chief engineer of the North West Territorial government's drainage system for the Regina and Prince Albert district. Miss Grace Nourse has completed her course in the nurses' training school at the General Hospital, and shortly leaves for her home in Sherbrooke, Que.

NEWS OF WORLD

NEWSY ITEMS FROM MANY QUARTERS OF EARTH.

Matters That Interest Everybody

Notes From all Over—Little of Everything Easily Read and Remembered by the Public. The annual dinner of the Ottawa Press gallery will take place this evening. Reports from Red River points state that the water is rising but no alarm is felt as yet. The S. S. Lake Manitoba, from Liverpool, arrived at St. John, N.B., this morning. J. H. Haslam, Winnipeg, proposes to give \$1,000 in prizes to encourage tree planting in Assiniboia. A company to control the Sherbrooke, Que., Gazette, has been chartered with a capital of \$20,000. The British American Fish Corporation has been incorporated with headquarters at Montreal and a capital stock of \$10,000. Arthur Chamberlain, brother of the ex-colonial secretary continues his crusade in England against concessions to the licensed victuallers. Jerry McAuliffe, charged with giving an immoral show at Halifax, N.S., as a public nuisance, was fined this morning, and the case was dismissed. The naval reserve bill which Mr. Prefontaine is to introduce in the House of Commons, this session, is a lengthy measure, containing 103 clauses.

HOPE OF BULLYING, OF THE NORTH-WEST

government, is in Ottawa, and during his stay will renew negotiations with the government, looking to the granting of provincial autonomy to the territories. An inquest was opened in Ottawa, in connection with Captain Knapp, British army, found dead on Friday. The body was viewed and adjournment made until Monday to permit of a post mortem examination to ascertain if there are any traces of poison having been used. At a Port Arthur, Ont., public meeting, resolutions were passed protesting against the action of the private bills committee of the Ontario legislature, in passing the bill to give E. S. Jenkinson privileges for power development on the Kaministiquia river, and particularly the refusal of the committee to preserve to the town control of its own streets.

DESERVED A BETTER FATE.

Best Are Not Always Most Fortunate. Colouze Sentinel-Star. Another death occurred in the Infirmary ward of the jail on Tuesday morning. Dr. Burdett G. G. Bennett, who thirty or forty years ago was one of the best known practicing physicians in the east riding of Northumberland, passed away under distressing circumstances. He practised his profession at Northam, in the county of Northham, in the town of Hastings, then removed to Stirling, Hastings county, and afterwards to Warkworth. He was a gifted man but after the death of his wife became rather peculiar. He was at one time worth \$20,000, but lost it in the Madoc gold mine and other foolish speculations. He was the oldest living graduate in medicine of McGill University, having graduated in 1827. He was in his seventy-ninth year. His father was one of the circuit riders of the Methodist church in the early days of our country, and the village of Demorestville, in Prince Edward county, was named after him. He was an enterprising man, and introduced the Champion stock of horses into this county. The cause of death was arterial sclerosis, or the congealing of the blood in the veins. The body was interred beside that of his wife at Frankford. He was in the jail about two years. This aged and one time important character in our county deserved a better fate, but the best in life are not always the most fortunate.

DOING BIG BUSINESS.

Toronto World. John W. Elliott, Kingston, was the heaviest operator in export cattle, having bought upwards of 300 on Thursday and Friday's markets. Mr. Elliott bought 152 of the best finished export cattle seen on this market for a long time from J. B. Groff, Elmira, Ont. Mr. Groff, who was on the market, stated that he had never had a superior lot during his long experience of twenty-five years. These cattle weighed on an average 1,400 pounds each, and were a credit to all concerned. Mr. Elliott bought two loads from Crawford & Hunnisset, 1,350 pounds each, at \$4.50 per cwt., one load from George Tucker, 1,340 pounds each, at \$4.70 per cwt.

A CHARITY THEATRICAL.

A talented group of local people will present a three act comedy in a week or ten days at the Grand Opera House. The proceeds will be divided between the General Hospital and Hotel Dieu. Four of the boxes will be occupied by nurses, and the opposite four by members of the Roman Catholic orders. Those taking part are Mrs. Betts, Miss Mildred Macmorine, Miss Mabel King, Miss Birch, Miss Betts, Harry Walker, Robson Black, Herbert Osborne, Arthur Martin, and Mr. Dalnagie. The demand for tickets has already begun to such an extent that a crowded house is assured.

TO MAKE ENQUIRY.

Col. Sam. Hughes will ask whether any commissions in the imperial service are granted annually to the Canadian militia, irrespective of those given to graduates of the Royal military College. If other commissions are allowed to the militia on what principle is the selection made, and whether examinations of candidates are held.

T. H. WIGGINS, D.L.S., NAPANEE.

Has been appointed chief engineer of the North West Territorial government's drainage system for the Regina and Prince Albert district. Miss Grace Nourse has completed her course in the nurses' training school at the General Hospital, and shortly leaves for her home in Sherbrooke, Que.
