

TO DEVELOP CONSUMPTION

Be Careful of Your Cold!

CONSUMPTION DOES NOT DEVELOP IN A DAY NOR YET IS IT HEREDITARY.

The idea that Consumption is hereditary has long since been exploded; it usually begins simply with a cold. The cold is neglected, then Catarrh develops, then probably the patient takes stomach medicine or cough mixture; little relief is found and the cough grows worse.

Unless the cough is checked quietly (this can only be done by breathing Catarrhose) and all the germs eradicated from the system, Consumption is sure to manifest itself.

CATARRHOZONE

Is the Only Cure For These Conditions.

This germ-killing, healing medicine is inhaled at the mouth and passes over every air cell and air passage of the head, throat, and lungs, creating a healthy condition of these organs. It not only prevents Consumption, but cures quickly every disease of the throat, lungs and nasal passages.

No remedy has gained such universal reputation as Catarrhose. If you are troubled with Coughs, Colds, Asthma or Bronchitis use CATARRHOZONE and you will be quickly cured.

CATARRHOZONE

Little drops of healing carried by air to disease places in the throat, lungs and nasal passages.

FORESTRY PLANTATION.

College Will Set Out 30,000 Seedlings. Guelph, April 16.—The O.A.C. is branching out in every department of agricultural education. C. A. Zavitz has been appointed to look after a plot of land which has been set apart for forestry near the Macdonald Institute building. Some thirty thousand seedlings will be planted principally Norway spruce, white pine, white ash, basswood and sugar maple. These young trees will be ready for distribution among the farmers in the spring of 1905 and 1906. Mr. Zavitz will also attend to the distribution.

ON THE STAGE.

NOTES ON PLAYS, PLAYERS AND PLAYHOUSES.

Margaret Anglin To Play "Camille" Next Week—Beerholm Tree's Dramatic School In England.

Mrs. Fiske will make Maeterlinck's "Monna Vanna" the important feature of her next season.

Miss Margaret Anglin will appear in "Camille," at the Hudson theatre, New York, beginning Monday, April 15th.

De Wolf Hopper's revival of Wang made a hit at Philadelphia last week. Della Fox's place is taken by Madge Lessie.

It is said that Julia Marlowe and E. H. Sothern will appear in London in June in "Ingomar" and "Romeo and Juliet" at the Duke of York's theatre.

Furber Robertson is to offer "Othello" next season to American audiences, in a way to excel any production of that tragedy seen in recent years.

Pino's latest play, Letty, has closed its limited run at the Duke of York's theatre in London, and the latest reports from there are to the effect that it was not much of a success.

Ida Comstock, formerly leading woman with Richard Mansfield, and with N. C. Goodwin, in "A Midsummer Night's Dream," is to star next season in Shakespeare plays—"Romeo and Juliet," "Twelfth Night," and "As You Like It."

Beerholm Tree has issued a prospectus of an academy of drama and acting in England. Provisions are made for matriculation and periodical examinations, and the best professional students are to be drafted into Mr. Tree's touring company. The academy opens on April 15th.

W. A. Brady is having some difficulty in getting a well-known actor to play Uncle Tom in his revival of Uncle Tom's Cabin. The part was offered to Otis Skinner. Two hands (white and colored); two boys, and two donkeys, are made for matriculation and periodical examinations, and the best professional students are to be drafted into Mr. Tree's touring company.

SHE WANTS EPIDERMIS.

St. Paul Woman Will Pay \$100 An Inch For It.

Dr. A. J. Fulton, of Brooklyn, advertises that he will pay \$300 for three inches of perfectly healthy skin of a brunette female, and declares that absolute secrecy in the transactions will be guaranteed.

Dr. Fulton has a patient who needs the three inches of skin and who wants it right away. She is a St. Paul woman who has been under Dr. Fulton's treatment for some time.

The skin is to be used in a very unusual operation. It is not to cover a burned spot, but to heal and hide a great ulcer caused by lupus, a skin disease, somewhat resembling cancer, but without cancerous malignity and the tissue destroying effect of cancer.

In the case of Dr. Fulton's patient the lupus has been of long standing. It began in the form of numerous nodules, that finally broke down and formed one large, ulceroous sore. This has been treated but ineffectually so far as healing is concerned.

The granulated surface of the ulcer has been brought to a healthy condition by proper treatment, but the size of the ulcer was such that it seemed unlikely that skin would grow over it for years, if at all.

The patient is a woman of social position and it has been a great affliction in more than a physical way, as the ulcer is on the throat and under the chin. Because it is on an exposed part, she wants it covered with skin to match her own brunette complexion. Dr. Fulton says this is important, inasmuch as skin of lighter pigment would show up like a white patch on the darker skin.

The person who parts with skin for \$100 an inch must be in perfect health. Her blood must be absolutely pure. Every applicant, with skin to sell, will be examined for blood taint, as it would make matters worse to graft on skin that would inoculate the patient with impure blood. The woman who sells her skin will not be incensed to any large extent, Dr. Fulton says. The skin is removed so carefully that there is no resultant inflammation, the wounds healing in a week.

IN THE SPRING. Nature Teaches a Lesson That Tired, Exhausted Men And Women Should Follow.

The spring is the season when nature prepares for summer. All the trees and plants are filled with new sap to build and brace them up to withstand the coming hot season. Without new sap in the spring a plant would wither and die beneath the midsummer sun. It is the same with men and women. All physicians are agreed that everyone needs a fresh supply of new blood in the spring. Without the new blood you would be as helpless in the summer as a tree without new sap.
