ST. LOUIS FAIR.

GREAT OPENING OF THE EXPOSITION TO-MORROW.

Passenger Trains By the Score, Rolling In—Governors, and Governor's Staffs, Etc., There—Grounds Beehive of Industry.

St. Louis, Mo., April 29.—At noon to-morrow, the Louisiana Purchase Exposition, upon which months of labor and millions of dollars have been expended, will become an accomplished fact. The great fair will be opened with exercises of a simple but impressive character.

The people of St. Louis to-day get a clear idea of the conditions that will confront them during the next six months. Passenger trains by the score rolled in all day, and governors and governors' staffs and other distinguished visitors poured through the gates in what seemed a never-ending stream. The visitors who wore no gold lace and came merely to see, arrived by the tens of thousands. They came from all parts of Missouri, Kansas, Iowa, Illinois, Kentucky, Tennessee, Arkansas, Oklahoma, Indiana and other states and territories still more distant. It was the first day of the coming rush, and it came like a tidal wave. Everybody was cared for promptly. All the distinguished guests were met by escorts and escorted to quarters previously set apart for their comfort and entertainment. Those of the multitude who had made no previous arrangement for rooms were compelled to hunt for what they wanted. The hotels were full, but not overcrowded. Hundreds of visitors sought cheaper accommodation at boarding-houses and rooming-houses. The bareness of information established at the railway stations and other places were kept busy answering questions and providing quarters for those who applied for them.

The exposition grounds resembled a veritable beehive of industry. Hundreds and hundreds of workmen were literally swarming through the great buildings and gave their attention to the final preparation of exhibits. The Pike, also was a scene of activity. From all indications this part of the great fair will be ready to-morrow with nearly every one of its many and interesting features in a completed state.

Another busy lot of men to-day were the fire and police forces, upon whom will devolve the welfare and protection of visitors and exhibits in the exposition grounds. Fire houses and police stations are located in various parts of the grounds and experts who have examined the arrangements along this line declare that no previous exposition has provided such ample protection.

Badly Disfigured By Violent Eczema

A Chronic Case Which Defied Doctors' Skill Was Permanently Cured Seven Years Ago By

Dr. Chase's Ointment

Once eczema becomes chronic it is most difficult to cure, and many people after doctoring for a time give up in despair. It is to the discouraged ones especially that we would introduce Dr. Chase's Ointment, knowing from experience with hundreds of severe cases that it will positively effect a lasting cure. Oakley W. Beamer, Boyle, Ont., states: "For two years prior to 1897 I suffered from eczema in a violent form. I was perfectly disfigured about the face and head, and was in great misery day and night. Though I tried many remedies and the best doctors, I steadily became worse, and was finally prevailed upon by friends to use Dr. Chase's Ointment. "Five boxes of this golden remedy perfectly cured me. I shall always recommend this ointment, and often think that if I was a "Carnegie" my first move would be to purchase a million boxes of Dr. Chase's Ointment and send it free to the afflicted all over the land. It is six years since I was cured, and the cure is therefore a permanent one."

Dr. Chase's Ointment has a record of cures unparalleled in the history of medicine; 60c. a box, at all dealers or Edmondson, Bates & Co., Toronto. To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box. Wood's Fair Lamp sale.

MISS AGNES MILLER

While no woman is entirely free from periodical suffering, it does not seem to have been the plan of nature that woman should suffer so severely. Lydia E. Pinkham's Vegetable Compound is the most thorough female regulator known to medical science. It relieves the condition which produces so much discomfort and robs menstruation of its terrors. Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhoea, falling, inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences; and to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. Thousands have been cured by so doing, and by the use of

Lydia E. Pinkham's Vegetable Compound

"DEAR MRS. PINKHAM:—I suffered for six years with dysmenorrhoea (painful periods), so much so that I dreaded every month, as I knew by the time three or four days of intense pain. The doctor said this was due to an inflamed condition of the uterine appendages caused by repeated and neglected colds. "If young girls only realized how dangerous it is to take cold at this critical time, much suffering would be spared them. Thank you for Lydia E. Pinkham's Vegetable Compound, that was the only medicine that helped me any. Within three weeks after I started to take it, I noticed a marked improvement in my general health, and at the time of my next monthly period the pain had diminished considerably. I kept up the treatment, and was cured a month later. I am like another person since. I am in perfect health, my eyes are brighter, I have added 15 pounds to my weight, my color is good, and I feel light and happy."—Miss AGNES MILLER, 25 Potomac Avenue, Chicago, Ill.

MRS. MAY HAULE.

"DEAR MRS. PINKHAM:—A while ago my health began to fall because of female troubles. The doctor did nothing. I remembered that my mother had used Lydia E. Pinkham's Vegetable Compound on many occasions for irregularities and uterine troubles, and I felt sure that it could not fail. "I was certainly glad to find that within a week I felt much better, the terrible pains in the back and side were beginning to cease, and at the time of menstruation I did not have nearly as serious a time as heretofore, so I continued its use for two months, and at the end of that time I was like a new woman. I really have never felt better in my life, have not had a sick headache since, and weigh 30 pounds more than I ever did, so I unhesitatingly recommend your medicine."—Mrs. MAY HAULE, Edgerton, Wis., President Household Economics Club.

YOUNG MAN GO WEST.

Another Call From The Teeming Prairies To The East.

Foxwarren, Man., April 25.—(To the Editor): Many of the successes and failures in this life arise chiefly from a man's location on this terrestrial sphere. Many a young man has labored faithfully, with his God-given talents of body and mind, to raise himself above the level of the lower classes, and become a man in the world of men. But, after several years of hard—either mental, or physical labor, he finds his position no higher than when he began, he is apt to give up in despair; and the "Fresby" times of yore were led to believe in the doctrine of predestination, so this unfortunate young man believes there is no success for him in the world, and he gives up in despair. It is to such as these that I address this letter.

Young man, whoever you may be, you have perhaps heard the robarak that the west is a good place to make money, but a poor place to live. The statement is misleading from the outset. Why, I believe there is no place in Canada that is so highly regarded with the best of everything. Entertainments given only in the cities of the east, are given in every little country village in the west. As for sports—why in Ontario we were away behind the times—and the fresh prairie breezes put a certain energy in every boy, no witness in any other part of Canada. The school and churches have been most thoughtfully planned; the stores and factories embrace everything necessary to man; the roads are sufficiently wide for teams to pass, some extending the width of hundreds of acres of prairie soil. The railroads too, are doing grand service and with the completion of the new Grand Trunk Pacific with its branches, all parts of the west will be easily reached.

It is not a lonesome place either. The very sight of the prairie leads one to feel the boundless liberty of the place; and like the poet Bryant, you would be led to say: "My heart swells, while the dilated sight, takes in the encircling vastness. Truly, here the sky takes on a tone the blue than that which bends above our eastern hills. How surprised one would be in Ontario to go out some morning, and see pictured in the heavens some town or village twenty or thirty miles away; yet this is a common occurrence in Manitoba; and although, in a mirage of this kind buildings, trees, etc., are wrong side up, this only adds to the bewildering beauty of the scene.

Every true Canadian is proud of Canada, but if one part is to be more highly prized than any other, it is the place where once the lion shook the earth with thundering step; the place where the red-man's face may yet be seen; the place where the vast fields of waving grain appear like billows on the mighty ocean; the place where the majestic deer and the howling prairie wolf still roam through the meadows; the sportsman's paradise, the farmer's home, the professional man's banking ground, and the ladies' best market. I can't begin to describe all the advantages of the west, but seeing is believing, so young men should take their first opportunity, and come west, and old men should not be content to live longer without seeing it. Ontario has sought to improve on nature in many ways, Manitoba still remains in many respects as nature left her. Visit her before the hand of man turns all these vast plains of waving grass into furrow, grain and stubble. Now is the time. Spring is upon us. All nature is alive. Young men come west."—D. V. Deranged Nerves AND Weak Spells.

Mr. R. H. Sampson's, Sydney, N.S., Advice to All Sufferers from Nerve Trouble is

"GET A BOX OF MILBURN'S HEART AND NERVE PILLS."

He says: "I have been ailing for about a year from deranged nerves, and very often weak spells would come over me and so bad that I sometimes thought I would be unable to survive them. I have been treated by doctors and have taken numerous preparations but none of them helped me in the least. I finally got a box of Milburn's Heart and Nerve Pills. Before taking them I did not feel able to do any work, but now I can work as well as ever, thanks to one box of your pills. They have made a new man of me, and my advice to any person troubled as I was, is to get a box of Milburn's Heart and Nerve Pills."

Got Good Damages.

In the matter of the Thousand Island Park Association vs. Ora Tucker, Bradley Winslow, as referee appointed by Justice Watson M. Rogers to ascertain the damages sustained by the defendant by reason of the injunction granted by Justice Pardon C. Williams in 1899, has rendered his decision. Aside from the costs amounting to \$495.10, which the plaintiff has paid the defendant, the referee finds that the defendant is entitled to damages in the sum of \$658. This is the famous huckstering case which has been in litigation since 1899.
