From an Awful Skin Humour. Scratched Till Blood Ran. Wasted to Skeleton.

CURED BY CUTICURA

One Application Soothed Him to Sleep. Cure Speedy and Permanent.

"When my little boy was about three months old his head broke out with a rash, which was very itchy and ran considerable watery fluid. We tried everything we could, but he got worse all the time till it spread to his arms, legs, and then to his entire body, and he got so bad that he came near dying. The rash would itch so that he would scratch till the blood ran, and a thin yellowish stuff would be all over his pillow in the morning. I had to put mittens on his hands to keep him from tearing his skin around his wrists. He got so weak and run down that he took fainting spells like we would think him dying. He was almost a skeleton and his little hands were thin like claws.

"He was bad about eight months when we tried Cuticura Remedies. had not laid him down in his cradle in the daytime for a long time. He had got so that he just slept in our arms all the time. I washed him with Cuticura Soap and put on one application of Cuticura Ointment and he was so soothed that I put him in the cradle. You don't know how glad I felt when he felt better. It took one box of Cuticura Ointment, pretty near one cake of Cuticura Soap, and about half a bottle of Cuticura Resolvent, to cure. I think our little boy would have died only for the Cuticura Remedies, and I shall always remain a firm friend of them." MRS. M. C. MAITLAND, JASPER.

No return in 14 years. Mrs. Maitland writes, under date of Feb. 24, 1903, that the cure is permanent. "It affords me much pleasure to inform you that it is fourteen years since my boy was cured of the terrible skin disease from which he suffered. "He has been permanently cured and

is hearty and strong." Cuticura Resolvent, liquid and in the form of Chocolate Coated Pills, Cuticura Cintment and Cut-cura Soap are sold throughout the world.
