Another club woman, Mrs. Haulk, of Edgerton, Wis., tells how she was cured of irregularities and uterine trouble, terrible pains and backache, by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—A while ago my health began to fail because of female troubles. The doctor did not help me. I remembered that my mother had used Lydia E. Pinkham's Vegetable Compound on many occasions for irregularities and uterine troubles, and I felt sure that it could not harm me at any rate to give it a trial. I was certainly glad to find that within a week I felt much better, the terrible pains in the back and side were beginning to ease, and at the time of menstruation I did not have nearly as serious a time as heretofore, so I continued its use for two months, and at the end of that time I was like a new woman. I really have never felt better in my life, have not had a sick headache since, and weigh 20 pounds more than I ever did, so I unhesitatingly recommend your medicine."—MRS. MAY HAULK, Edgerton, Wis. COMPANY INSOLVENT. So It Was Stated in The City Council. The city council will likely have to proceed against the sureties of the Light, Heat and Power company, for the costs of the arbitration appeal to the privy council. That was the announcement made last night by John McIntyre, K.C., who stated that the company was practically insolvent, and unable to pay these costs of £100, 2s, 8d. taxed in London. While it cost the city only about \$500 in defending that appeal, the company was "soaked" to the extent of \$1,600, and had to pay it as the proceedings went on. The city's credit was good, and the bill has come in only now from the London solicitors. It is extremely moderate, too.

Married At Cornwall. At Cornwall, on June 1st, Roderick Ross Sangster, Montreal, only son of the late Charles Sangster, Kingston, and Miss Catherine J. Borwick, of Cornwall, were married at the church of the Good Shepherd by Rev. Gower Poole. They were unattended and after a luncheon at the home of the bride's brother, left by the afternoon train for the east.

Sunday "sacred" concerts have been started in Winnipeg.

DEFER ACTION. NO MEDICAL SUPERINTENDENT TO BE APPOINTED.

To General Hospital, Till The End Of The Year At Any Rate—Institution to be Disinfected Under Dr. Williamson's Supervision.

The chief matter of discussion at the meeting of the General Hospital governors on Monday afternoon was the proposed change of management and the appointment of a medical superintendent. It was fully expected that this would be done, but instead, the majority of the board has decided to postpone the matter until the end of the year. The meeting was held at the residence of Dr. Williamson, chairman, Dr. Wood, Dr. W. Robertson, F. G. Lockett, Dr. Third, Dr. Herald, Rev. D. Laing, Dr. Kilborn, Prof. Marshall, Archdeacon Carv, T. McK. Robertson, Dr. Duff, Dr. J. C. Connell, Rev. Stearns Tighe, Dr. Winnett, A. Y. Chown, Capt. Bruce Carruthers, G. Y. Chown, R. Waldron, C. Livingston, James A. Minnes, Dr. Massie, Dr. Bell, W. F. Nickle, H. W. Richardson, Dr. Chown, H. A. Calvin, Dr. Sparks, John McIntyre.

By the action of one of the governors the majority of the board had promised to vote for the appointment of a medical superintendent, and he has a list of the promises, but some of them changed their minds and opposed such action at present. It was moved by Dr. J. C. Connell and seconded by B. W. Robertson that a medical superintendent be appointed as soon as possible. Archdeacon Carv moved in amendment, seconded by G. Y. Chown, that any action regarding change of management be deferred till the annual meeting in November. After a lengthy discussion the motion prevailed. It was held by those favoring the present system that it was unwise and unfair to make a change at the present time. On the other hand, it was declared that a crisis having been reached, now was the time to take action. Why should an ill be allowed to remain for six months before being remedied, they asked.

In the meantime the hospital is to be thoroughly disinfected, the walls and ceilings whitewashed and a general cleaning made. The disinfecting is to be under the supervision of Dr. Williamson, assistant pathologist and bacteriologist of Queen's Medical College.

The contract for the supply of coal was awarded to Booth & Co., their tender being the lowest. The contract for the supply of meat was awarded to W. H. Reid.

Additional rules were promulgated for the government of the isolation department, making the precautions more stringent.

The services of Ben Greig's company have been secured to give a performance on the afternoon and evening of Thursday, June 16th, in Lake Ontario Park, on behalf of the hospital, which will receive twenty-five per cent. of the proceeds.

No report was received from the visiting governors, Messrs. R. F. Elliott and F. G. Lockett were reappointed for the present month.

CONVICTS IN TRUST. Other Prisoners Term It Violation Of Law. Marquette, Mich., June 7.—On the grounds that the business conducted by three convicts in the penitentiary constitutes a monopoly in violation of federal law, other convicts who tried and failed to establish a rival enterprise want the prison authorities to dissolve the "trust" and abolish the concern.

The three convict magnates conduct their business in adjoining cells on the second floor of the prison, where they have a good stock, such as is found in the store of any grocer. A. V. Freeman, who is serving five years for embezzlement, formerly a prominent Menominee lumberman, Edmund Holzhey, who once terrorized the peninsula as a bandit, and is serving a life sentence for murdering a banker, and a convict named Manning, are the partners. They have made some money and all hope for freedom and a fresh start in life. Holzhey wants a pardon on the ground that he was insane while he was a high-woman.

"Frio enjoys no special privileges in the matter of prison work and their bartering is done "out of hours." Holzhey was editor of the prison paper which was recently suspended.

BIG BREAK IN TIE-UP. Many Captains Quit Masters and Pilots' Association. Cleveland, O., June 7.—The most serious break in the Great Lakes tie-up was the withdrawal of twenty or more captains from the Masters' and Pilots' Association yesterday. They will report for duty at once.

Capt. Mitchell, of the Mitchell fleet, says he has assurances that fourteen of his captains will resign from the Masters' and Pilots' Association. A like number of men are also understood to have gone back to work with the Gilchrist fleet and have been requested to withdraw from their association.

A member of the Lake Carriers' Association said to-night that they expect to have seventy boats in commission by Wednesday and some of them would be among the largest on the lakes.

Heart Palpitation At Night. Rattles even the strongest man, but to the average woman it is a taste of general purgatory. Take a little Ner-viline in sweetened water and away goes the palpitation. You'll be saved lots of worry by keeping Nerviline on hand, which is a treasure for all sorts of pains and aches. Nerviline cures headache, stomach and bowel troubles, indigestion, and all the ills of the day. Costs 25c. for a large bottle, quickly.

An address and purse of gold was presented after the service at St. Peter's, Brockville, on Sunday night, to the incumbent, Rev. H. H. Bedford-Jones, on the eve of his marriage to Miss Britton, Gananoque. The clergyman was deeply affected. Lieut. Col. Drury is at St. Catharines, transferring the stores of the 7th Field Battery from Major Merritt to Capt. Singer of Niagara.

CHARGED WITH LOAFING. Some Aldermen Are After The City Officials.

Nearly every civic official seems to be under the suspicion of some aldermen who are anxious to keep at the expense of the city. The official who received the most criticism at the hands of Ald. Carson and Couper, in the city council meeting last night, was the city engineer, who they claimed, was not too burdened with work to be unable to attend to the measuring of asphalt walks. They also claimed that much of his time was taken up by some men who were continually monopolizing his office.

Ald. McLeod and Behan rose to the defence of the engineer. The former declared that the city was lucky in having such an experienced man as Mr. Kirkpatrick, who, by his engineering ability, could easily save the city the amount of his salary in shutting off the water. In fact, said Ald. McLeod, the engineer is saving the city money every day. Regarding the charge that he was a lecturer, the alderman said that Mr. Kirkpatrick, who, by his engineering ability, could easily save the city the amount of his salary in shutting off the water. In fact, said Ald. McLeod, the engineer is saving the city money every day.

Ald. Behan pointed out that when Mr. Kirkpatrick was engaged as city engineer, the council decided not to let him down, but to allow him as much freedom as possible. They recognized that they had secured a first-class man, and in order to hold him, they allowed him to do other work, by which he could perhaps make more than his salary. Ald. Behan stated that he was a lecturer, and he had several good positions were open to the engineer elsewhere. He had every confidence in him.

Ald. Behan drew attention to the fact that some members of council had the suspicion of loafing on nearly all the civic officials. He mentioned his assistant, the foreman of the streets, the market clerk, the street watering contractor, and they even were after the police. Is there any one left on whom we have not cast suspicion? the speaker asked. He claimed it was unfair and reflected no credit upon the council.

If the market clerk is appointed to do all the work suggested for him by one of the aldermen, he will be a wonderful man. His duties would include police work, market and harbor overseer, measuring the streets, watering carts, enforcing by-laws, and sundry other civic bits of work. He would have to work twenty-six hours a day to perform all these duties.

PUT BABY IN SACK And Threw It In Watering Trough.

Paris, June 7.—A remarkable case of juvenile depravity is reported from Sery, in the department of Aisne. M. Germain and his wife went out on Friday, leaving their one-year-old son in charge of the eldest girl named Adrienne, aged six months. Finding the baby was asleep, they went into the village for some milk, and in order not to wake the child got out of the window, leaving it open.

She had scarcely disappeared when two little boys named Maurice Herin and Jean Biquet, each aged six months, were playing close by, entered the house by the open window. Finding the baby asleep, they put it into an empty potato bag, which they proceeded to stuff with grass, and then carried it to the watering trough, but outside the house, and threw it into the water. The boys then returned to the house, and the mother, who was in the yard, saw the sack in the butt, and then scampered away.

When the sister returned she was astonished at finding that the baby had vanished, and after several hours' search found it drowned in the watering trough. As the boys had been seen near the house, the mayor of the village sent for them, and, in the presence of the horrified parents, they related what they did, though they were apparently unaware that they had done anything very wrong.

THREW ACID ON PERSONS. Deserted Wife Burns Many With Vitrol.

Paris, June 7.—A handsome-gowned woman entered a cafe on the boulevard Wednesday night and walking to a table where a man and a well-known actress were sitting, drew a bottle of vitrol from her jacket and with a wide sweep sprinkled the contents. Her aim was so comprehensive that nineteen persons were seriously burned. In the panic that followed the man and the actress fled. The vitrol thrower was arrested. She said the man was her husband and he deserted her six months ago. She pursued him to America where he eluded her. She followed him to this country and finally located him in the cafe. A revolver was found on the woman. She said her original intention was to shoot her husband and the actress.

THIRD SET OF TEETH. Woman Lives Up To Family Traditions.

Owingsville, Ky., June 7.—Sixty-year-old Miss Maria Williamson, of this town, is attracting much attention because of a third set of teeth she is cutting. Two teeth have already made their appearance. She lost her second set of teeth several years ago and has since used false ones.

Recently on adjusting the plate she found that the new teeth interfered with the plate. Her grandfather, who died many years ago, had a third set of teeth after he had passed his sixtieth year, and it is said that other members of the family had similar experiences.

B. Carey, Mrs. Roberts, Adolphstown. The meetings begin in St. Paul's school-room, this evening and will continue till Friday morning. Rev. W. H. White is to be one of the speakers at the missionary meeting.

BUYING A CAR. WOULD NOT WAIT TO HAVE PULLMAN BUILT.

City Electrician Fined For Playing Auctioneer—Body Found In River—Church Union Up At Ottawa Synod.

Special to The Whig. Ottawa, June 7.—The Canadian railway commission is purchasing a Pullman car, which is wanted for the work of the commission which will sit at different places. Owing to urgency, the commission could not wait to have one built and will buy one now in use. A representative of the Pullmans is in the city negotiating the sale.

George F. Macdonald, city electrician, and secretary of the fire and light committee, recently acted as auctioneer at the sale of a fire station hose no longer required by the city. The interested auctioneers prosecuted and, to-day, Magistrate O'Keefe inflicted a fine of \$5 and costs.

A body was found floating in the Ottawa river, yesterday, at St. Joseph's village. Coroner Bapiste left today to hold an inquest. It is believed to be the body of Edward Phillips, reported missing a few weeks ago.

The synod of the diocese of Ottawa opened to-day. The principal feature of the morning session was the address by the Moderator. He dealt with the church's position, and said she has not departed from the traditions of the past. He referred to church union, expressing the hope that the other denominations would some day find themselves back in the unity of the faith.

A. B. Hannay, sessional correspondent of the Montreal Herald, was presented with a solid silver tea service by his conferees in the press gallery, as a token of esteem on the occasion of his joining the ranks of the benedictus this week.

There are now two vacancies on the bench of the supreme court of Nova Scotia, including the chief justiceship, Dr. B. Russell, M.P. for Hants, will, it is said, be appointed chief justice.

The rumor that Lord Onslow will succeed Lord Minto as the next governor-general of Canada is repeated to-day. The government has not been officially notified of any appointment. It is stated that Simon Lefevre, one of Sir Wilfrid Laurier's private secretaries, will succeed the late Alfred Garneau, as chief French translator for the senate.

GANANOQUE NEWS. The Death of James S. Watt—Club House About Ready.

Special to The Whig. Gananoque, June 7.—On Sunday morning last death claimed a much respected resident of this town in the person of James Scott Watt, aged fifty-six years.

The deceased was born in Aberdeen Scotland. For many years he was in partnership with J. Ross, a chemist, but lately engaged in the grocery business. He was a prominent member of the Masonic order, an elder of the Presbyterian church, and a conservative in politics. His quiet, unassuming manner endeared him to all he came in contact with, and much sympathy is felt for the family.

The Bedford-Jones-Britton wedding took place at the English church on Tuesday, the 7th inst., at 11 o'clock. Some four hundred invitations were issued. A great many guests arrived yesterday, including Mrs. J. Ross, Mrs. Robertson, Toronto; Mr. and Mrs. C. V. Schuveler, New York; Mr. Parmenter, Buffalo, N.Y.; Reginald Parmenter, Toronto.

Confirmation service was held last evening at Bishop Mills officiating. Dr. J. T. Rogers and wife, from Hamilton, are renewing acquaintances in town.

The yacht club house is being pushed rapidly forward and is expected to be ready for occupation in two weeks time.

IF SHAMROCKS PLAY Brantford They Will Be Barred as Amateurs.

Special to The Whig. Montreal, June 7.—The Canadian Amateur Athletic Union has decided to take up the question of professionalism in lacrosse, at a meeting called for the 13th inst. It is expected that the outcome will be that Shamrocks will be unable to play Brantford for the Minto cup, and remain in the amateur ranks.

The members of the government transportation commission, Messrs. Bertram, Toronto, Redford, Montreal, and Fry, Quebec, were the guests of Mayor Lapointe at luncheon to-day, at the St. James Club. Afterwards they were guests of the board of harbor commissioners on a special boat which made a trip through the harbor for the purpose of showing the commissioners the present facilities, and what it is decided to add to the port.

Four members of the Montreal Board of Trade will leave for Ottawa to-night, where they will be joined, tomorrow, by delegates from Toronto and Winnipeg, which will form a delegation to ask the government to repeal the present law relating to grain inspection, and place the matter in the hands of the boards of trade of the different cities to manage.

A DASTARDLY CRIME. An Attack Made On a Sister Superior.

Special to The Whig. Shelbyville, Ind., June 7.—A dastardly assault, and an attempt to murder was made by a tramp at midnight on the Sister Superior at the local Roman Catholic school. The tramp was pursued and caught, and a mob is now forming to lynch him. Three men were hanged here three years ago for a similar crime.

Children are counting the days they still have to attend school before holidays. They are seventeen.

Sunshine Furnace. Flues Easily Cleaned. Cleaning out the flues of most furnaces is so difficult and complicated that only an expert can do it, and experts' services usually come high. The flues in the Sunshine Furnace can be cleaned from two different clean-out doors and from the feed-door, so that there is no part of the flues which is not easily reached. A special brush for this purpose is always supplied, and the operation is so simple that a boy can perform it. The whole Sunshine Furnace construction is on the same plan of simplicity.
