STOOD FIRM.
Kourapatkin Is Given a Free Hand
HIS DECISION
WAS THAT ATTEMPT WAS IMPRACTICABLE.
The Relief of Port Arthur Is Considered Impossible, and Will Not be Attempted—Russian Operations Limited to Skirmishes—The Black Sea Fleet Can Get Out.
London, June 8.—A despatch to the Daily News from St. Petersburg says there is the highest authority for stating that the attempt of Admiral Alexieff and the naval party to induce the czar to order Gen. Kourapatkin to march to the relief of Port Arthur at all costs, has failed. A special council of war voted by a narrow majority that Gen. Kourapatkin should be ordered south. The czar confined himself to requesting the general to make the attempt if he thought it practi-

GENERAL OKU.
cable. Gen. Kourapatkin replied that it was impossible at present. The czar, despite the fresh endeavors on the part of the naval party, stood firm, and Gen. Kourapatkin has a free hand. A personal friend of the general says it is certain that the latter would have resigned if he had been ordered to relieve Port Arthur. It is believed that the general has sent part of his force to Vladivostok to join hands with Gen. Linievitch, in advancing down Korea to intercept the communications of Generals Kourouki and Oku. The St. Petersburg correspondent of the Echo de Paris confirms the statement that Gen. Kourapatkin acts of his own free will, without being hampered by a central power.
A despatch to the Times from Tokio, says that Japanese correspondents with the first army state that the Russian operations are limited to a series of skirmishes by Cossacks and mounted infantry, that accomplishing nothing beyond keeping the Japanese outposts busy. About 6,000 men, with several light guns, are engaged in these operations in the Aiyang and Saimatsa districts. They seek to menace the Japanese province trains, but their efforts are quite without result.
A despatch to the Daily Telegraph from Tokio, says an official telegram states that a Japanese detachment, which landed at Takushan, surprised thirty Russian cavalry at Kaneichin. The Russians were routed and two of them were captured.

Native of Pennsylvania.
New Chang, June 8.—Eitel, the London Daily Mail correspondent, reported killed by Chinese bandits, was a native of Butler, Penn., and his father resides now either at Denver, Col., or San Diego, Cal.
A despatch to the Daily Telegraph from Tokio, says an official telegram states that a Japanese detachment, which landed at Takushan, surprised thirty Russian cavalry at Kaneichin. The Russians were routed and two of them were captured.
Will Stop The Movement.
Paris, June 8.—A despatch to the Petit Journal, from Yokohama, says it is stated in the London police court, that Gen. Nodra will bar the Russians from moving south.
The St. Petersburg correspondent of the Petit Parisienne says that the Baltic fleet will consist of eight battleships, two cruisers and twenty-five torpedo boat destroyers. In addition there will be a number of coal transports, which also will carry troops, arms and ammunition. The correspondent says that the fleet will sail on September 1st.
Where Kourapatkin Is.
St. Petersburg, June 8.—Gen. Kourapatkin telegraphs to the czar reporting skirmishes near Siyuen and Sain. The telegram is dated Liao-Yang, which appears to indicate that Gen. Kourapatkin has already returned there.
The Grand Duke Alexis, commander-in-chief of the navy, according to an apparently reliable report, which, however, is not officially confirmed, has obtained the permission of the emperor to create a third Pacific Squadron from the ships of the Black Sea fleet and permission already has been obtained from the Danubian on the condition that they will not return. This squadron will be composed according to the report, of the battleships Rostislav, Dvornad, Apostol, and Triavskitida, and will be accom-

panied by torpedo boats and torpedo destroyers, and will sail for the far east simultaneously with the Baltic fleet.
The government has the confirmation of the report from Chiefo and elsewhere that the Russian squadron has made a sortie from Port Arthur and that the Japanese had begun a land attack on the fortress.
VERY PROSPEROUS.
Ottawa, June 8.—Hon. W. S. Fielding in the common yesterday delivered the budget speech which showed the country to be prospering exceedingly. The surplus for the past year amounted to over \$15,000,000. The liberals have been able to carry on the administration of the country without adding one dollar to the public debt. That the surplus will be sufficient to meet all additions that have been made to the public debt since 1896, and the reduction in the debt will be greater this year than at any time in the past. He claimed net surpluses of eight, eight and a half, and seven millions. He estimated the debt of the current year at \$257,412,000, as against \$264,912,000.
Touching the German surtax, Mr. Fielding said that it had resulted in decreasing German importations in woolens, cottons, iron and steel, and other articles from eight millions in the first ten months of last year to five millions in the same period of this year. It had helped the West Indies, as shown by increased importations of raw sugar.
Mr. Fielding declared that the present tariff had been shown to be a "revenue tariff." It had also afforded Canadian industries a reasonable measure of incidental protection, as shown by the establishment of such great American-owned industries as that of the Deering at Hamilton.
He reminded the house that Canada had led the way in the adoption of the preferential tariff in 1897. Since then other colonies had followed. In England reciprocity had not been taken in favor of preferential trade within the empire, though they might not agree as to the details, Canadians were not called on to discuss the details, but Mr. Chamberlain's advocacy had made it proved that the policy of preference had come to stay. The Canadian government would adhere to its preferential policy in the hope that it would be supported by other parts of the empire, including the motherland.
Mr. Fielding said he had no expectation of this night's struggle, but he announced his request for a maximum general tariff, a minimum tariff and the British preference, and to apply to nations not inclined to treat Canada fairly. The minimum tariff would be applied to countries inclined to treat Canada fairly, and the British preference would give the lowest figure of duties.
The result would be that the government would be able to deal with specific items.
General tariff revision would follow only a government inquiry.
A few tariff changes were announced, crude oil and several kinds of machinery being placed on the free list.
The British preference on woollens has been diminished by about seven per cent, which gives that much additional protection to the Canadian manufacturers. Twine and cordage has been made twenty per cent, under British preference instead of fifteen per cent; importation of stallions and mares are prohibited when valued under \$30; coal oil, previously five cents per gallon, has been reduced to two and one-half cents a gallon, and a bounty of one and one-half cents a gallon given on crude oil manufactured in Canada and crude oil imported from the United States.
A provision is to be inserted in the Canadian tariff to impose special duty on "dumped" goods equal to the difference between the price at which these goods are sold for delivery in Canada and a fair market value in the country of production.
A. C. Bell was the first speaker on the opposition side and Sir Richard Cartwright moved the adjournment of the debate.
Hon. H. R. Emerson, minister of railways and canals, together with Hon. Sir William Mulock, postmaster general, and possibly some other members of the cabinet, will visit Port Hope as soon as the session of the house closes and personally inspect the proposed canal route from Rice Lake to Port Hope.

German Officer Expects Attack On England.
NEW DIVISION
UNIVERSAL DOMINION OF WORLD RE-DISTRIBUTED.
Germany, Russia, and France Will Unite, He Thinks, To Secure New Apportionment of Earth.
Berlin, June 8.—Capt. August Niemann, of the German army, in a book entitled "Der Weltkrieg" (the world war), which he has just completed, freely predicts that Russia, France, and Germany will engage in a war with England, the result of which will be a fresh apportionment of the earth.
"Although the responsibility of a world war is great," says Capt. Niemann in his book, "and although the idea of peace of nations is very pleasant, valuable acquisitions are won only by the expenditure of blood and iron."
"If the German people intend to participate in the struggle for the domination of the world, it must accord itself to the idea of the coming war. In the course of long years England has grown great through the dissensions of continental powers. For centuries past England has reaped advantages from every war, most of which were instigated by herself."
"It required the genius of Bismarck to awaken the German empire to a sense of its power. Shall Germany be content to be dependent on England for her light, air, and for daily bread, or shall she retain some of the power which won her victories?"
"Will the three powers which stood together after Japan's victory over China to thwart England's plans—will Germany, France, and Russia remain longer idle or will they combine for their mutual benefit?"
"I see in spirit the armies and navies of Germany, Russia and France advancing against the common enemy—England—which like an octopus encircles the world with its tentacles."
"My dreams of Germany bring clearly before me the war and the victory of three great nations—Germany, France and Russia—over England, and the fresh apportionment of the possession of the earth as a final result of this mighty struggle."
"I predicted in bloody battles on land and sea, securely encompassed on every side, rapacious England will at last be ground to dust, and the universal dominion of the world will be redistributed on a just basis."

THIRTY SECURE HUSBANDS.
Young Men at "Cupid Festival" Ask For Time.
Brussels, June 8.—Once a year the unmarried young women in Ecunaises give a feast, to which all the young men in surrounding towns are invited. This festival is known as "Cupid's coming," and generally results in a large number of engagements.
The "Cupid Festival" this year was held on Wednesday. The day was beautiful, and the young women attired themselves in their best raiment and went in a body to the railway station to welcome their guests. About 100 arrived, and the bustling youths were escorted to the festival hall, where Miss Dassava delivered a lecture on "Women's Emancipation."
Miss Dassava not only convinced the bachelors of the propriety of the entire proceedings, but also changed the views of matrimony.
The dinner followed, the hostesses taking their places first. The guests were expected to make their selections by sitting beside them, a feat they performed with surprising alacrity. At the table all the young women formally proposed, but in many cases the young men refrained from giving a definite reply. However, before the dance started formal announcement of twenty engagements was made. Within the next few weeks at least thirty more are expected to follow.

THRASHED IN PUBLIC.
Whipped in Court For Playing Truant.
London, Ont., June 8.—For the first time in the history of the London police court, a boy was publicly thrashed yesterday. Albert Joyce, a twelve-year-old school boy, persisted in playing truant. The truant officer had the lad's father up in the police court, where he was given the choice of giving his boy a whipping or paying a fine for neglecting to send him to school. He decided in favor of the latter course, and a rubber strap, eighteen inches long, was secured and applied to the boy in strenuous fashion by his father, who took the lad over his knee and gave him between forty and fifty blows. The truant officer interferred, because he thought the boy was being given too much. The magistrate has not the right to order a boy to be whipped, but he can give the option of paying a fine or administering a thrashing.
Drowned At Renfrew.
Renfrew, Ont., June 8.—While playing with a number of other children on the banks of the Bonnechere river here, a five-year-old child, Mary Atkinson, accidentally fell into the water. The current being very strong the body was carried down stream and when rescued about half an hour later, life was found extinct. Several attempts were made to resuscitate the child, but they were unsuccessful.

CAN GET NO NEWS.
Nothing Will Be Heard For Some Time.
Special to the Whig.
Chiefo, June 8.—The Japanese so closely invested Port Arthur that no news is likely to escape through official channels at Tokio until the fortress is reduced or is relieved. Rumors of a naval battle reached Chiefo, but these and similar reports were based on the sounds of guns.
One Or The Other.
St. Petersburg, June 8.—The admiralty is convinced that either the battleship Yamashiro or the battleship Shikishima has been lost off Talien Wan.
Russian Gunboats Destroyed.
London, June 7.—The correspondent of the Daily Telegraph in Tokio wires: "The commander of the fourth Japanese flotilla, returned to the rendezvous of the fleet from a reconnaissance in the vicinity of Port Arthur, mentions the loss of the Russian gunboat Gilyak and the blowing up of another Russian gunboat about the same time."
"A Chinaman escaped from Port Arthur says that the rations of the soldiers comprise two pounds of bread daily and as the officers have an abundance of food the men are discontented."

Norwegian Steamer Held.
Nagasaki, June 8.—The Norwegian steamer Agri, which arrived here Saturday from Cardiff with coal, was arrested to-day by the Japanese. The reasons for the action taken are not stated.
On A Tour Of Inspection.
Tokio, June 8.—Four Japanese gunboats which made a close reconnaissance of Port Arthur harbor, at midnight, on June 6th, for the purpose of examining the entrance were exposed to severe cannonading. Gunboat, No. 4, was hit eight times and sustained some damage. One of her sailors was killed and two others were wounded.
The Fighting Is Hot.
Rome, June 8.—A despatch received from Yinkow, Manchuria, this morning, says that an attack on Port Arthur has been proceeding ever since Saturday, both from land and sea. It is asserted that the fall of the fortress is imminent.
THE TARIFF CHANGES.
What The Manufacturers Had To Say.
Special to the Whig.
Montreal, June 8.—A variety of interviews with manufacturers and others, interested in franchises affected by the tariff changes, have been given in this city, to-day, and disappointment was expressed by manufacturers who are in favor of higher protection, that more was not done for them, more especially in the cotton and woolen industries. It was generally expressed that the dumping clause would be a great help. There was a stronger tone in the stock market, but none of the issues directly caused by the tariff changes, apart from steel stocks, figured in the transactions.

STRANGE DEATH.
Was Asphyxiated By Illuminating Gas.
Winnipeg, June 8.—Charles Patterson, well-known in business and social circles here, is found dead in bed yesterday. Asphyxiation by illuminating gas was the cause of his death. He was residing in a fine house just purchased from Attorney-General Campbell, as he was about to be married to Miss Naomi Farrell, niece of Justice Richards, who was king's bench. Up to last month he was manager of the Winnipeg branch of the Bank of Hamilton. He was a member of one of Hamilton's leading families. Within the last fortnight he had assumed the management of a local insurance office. He was thirty-two years of age.

AMERICAN RECORD BEATEN.
By Senior Four Of Winnipeg Rowing Club.
Special to the Whig.
Winnipeg, June 8.—In a test against time at Rat Portage, last evening, the senior four of the Winnipeg Rowing Club, went over the course of one and one-half miles in eight minutes, fourteen seconds. This beats all American records for the distance. The water was in fine condition for the trial, though it is claimed the four lost four seconds on account of some driftwood on the course. The men undoubtedly will travel faster when trained down. The trial was held to decide whether to send the crew to Italy, and after the fine showing its entry is assured.
1,000, Out Of Work.
Hazelton, Pa., June 8.—Audenried No. 4 Breaker, owned by the Lehigh and Wilkesbarre Coal company, situated four miles south of here, was burned last night throwing over 1,000 men and boys out of employment.
