RR. COMMISSION ADJOURNED TILL NEXT WEEK - GOES TO GUELPH.

Manufacturers' Association Presents Complaints—Charge of Unfair Rates on Glassware And Co-operation From Detroit To Montreal.

Special to the Whig. Toronto, June 23.—The railway commission adjourned, to-day, till Monday or Tuesday, and this afternoon go to Guelph and possibly to Hamilton. This morning, W. H. D. Miller, railway expert of the Canadian Manufacturers' Association presented their complaints against the present classification lists which they pointed out are illegal, never having been approved by the railway committee of the G.T.R. replied to the charges of unfair rates for glassware and co-operation from Detroit to Montreal, in contrast with the rates from Wallaceburg. He argued that the Detroit rate had to be down to the level of the rate south of Lake Erie, but that there was no obligation to keep down the rates in Ontario to the same level. The rate to the south of Lake Erie was fixed by competition from Chicago, and by the water rate, but there was no such reason for keeping down the rate from such points as Wallaceburg. The street railway employees at their meeting, last night, referred back to their committee, the proposed agreement with the company that the time fixed for two years instead of three, as in the agreement. There will be no trouble about this.

NO NEED TO BORROW. The \$100,000 for Lighting Plant Till The Year 1917.

Kingston, June 23.—(To the Editor): I observe that the city solicitor in a statement made by him to the council, said that the city corporation was bound to borrow the money authorized to be raised by the Kingston Light, Heat and Power company, by-law within two years from its date, and that as a consequence the whole amount representing the debenture debt, and would be obliged to hold that amount until 1917, when the debentures fall due. The city solicitor on the recent application by the city to be relieved from the payment of the debenture interest, made the same statement before Justice Street as a reason for the granting of the order, and was met by the inquiry from the judge why it was necessary for the city to borrow all this money when it did not need to use it. The reply was that if it was not borrowed under the present by-law, another would have to be passed in 1917, to raise the amount necessary to take up the debentures, whereupon the judge said that he thought the 1917 people could be trusted to care of themselves. Needless to say the judge attached no importance to the contention. I was, therefore, astonished to see it repeated by the city solicitor to the council. As the debentures could not be removed either by the action of the company or of the city until the year 1917, there was no necessity for passing a by-law to raise the capital amount which they represent, say \$100,000, until that time. Fortunately the law is not so unreasonable as to compel the city to borrow money, which it does not require to use. All that the city needs now is enough to pay the award and its own expenses, and that is all that it needs to borrow.—Yours faithfully, RICHARD T. WALKER.

DONATES \$2,000. Churches Remembered By G. B. Burland.

Montreal, June 23.—Two Congregational churches have received generous gifts of \$1,000 each from G. B. Burland. The first is the Western church, Toronto, which has a debt upon it of \$20,000, which the congregation is striving to reduce. The other church benefited is the First Congregational church, London, Ont., of which Rev. D. S. Hamilton, formerly of Point St. Charles, is pastor. The debt on the London church is \$12,000. The congregation raised \$2,000, and the Central Fund guaranteed to give dollar for dollar. With the additional gift of Mr. Burland, there remain \$3,000 to be collected in order to free the church from debt.

Tamworth, June 22.—The funeral of the late R. A. Lott, who died very suddenly of congestion, took place on Sunday afternoon. Adams, and the interment took place in the Methodist cemetery. The strawberry festival passed off pleasantly, on Saturday evening last, and a nice sum was netted by the ladies' aid. His Lockridge and Miss Ida Wagar were united in the holy bonds of matrimony on Wednesday evening by Rev. Mr. Wright, at Roslin. SPEAKER CANNON ELECTED Permanent Chairman Of The Convention.

Chicago, June 22.—Because Speaker Joseph G. Cannon, was the central figure of the proceedings of the republican national convention, to-day, took a picturesque and demonstrative part in vain. From the moment he was escorted to the platform to wield the gavel and preside over the entire campaign, he was looked upon as the permanent chairman, and the entire campaign was conducted in his name. He was warmly welcomed by the delegates, and his presence was a source of inspiration to the entire assembly. He made a speech and the audience cheered whether he spoke jocularly or in a serious vein. He was the entertainer, in fact, he was the convention. The second day of the convention might have been the close had it not been the desire of the assembled delegates. Early in the day a movement was inaugurated to proceed with the nominations, but the original programme, which was prepared to extend over three days, prevailed, and the republican campaign will be named formally to-morrow.

Again In Session.

Chicago, June 23.—The republican national convention met at 10:30 this morning with the expectation of nominating candidates and adjourning in time for the afternoon train. Former Governor Black, New York, placed the name of Roosevelt in nomination for president in a speech full of oratorical merit. The roll call ended with twenty-six names mentioned, but all retired in favor of President Roosevelt, who got the total 994 votes of the convention.

Determine Great Issues.

London, June 23.—The Times says the platform adopted by the republican national convention, at Chicago, bears the stamp of the individuality of President Roosevelt and that, save in the points where the hand of the politician is visibly impressed upon it, it seems to be bold and clear and consistent. "What the judgment of the people will be," it adds, "it would be neither prudent nor polite to forecast, but it is what it may, it must determine great issues, not for the United States alone, but for civilized mankind."

India's Tribute To Victoria.

Substantial progress is being made with the great Indian memorial to Queen Victoria at Calcutta, says the London Graphic. Work is now being pushed forward on the site where, in a few years' time, will stand the memorial hall, of pure white marble, erected by the subscriptions of all the communities of India, which primarily is to honor the memory of the late queen-empress, and in the second place to serve in Lord Curzon's words, "as a national gallery and valua to the 'Indian Empire.'" In the central hall, beneath a dome which is to be 160 feet in height, will stand a white marble statue representing the queen in her youth, while in the surrounding galleries and quadrangles will be displayed collections of sculpture, paintings, armor, manuscripts and other memorials, of the great events and persons of Indian history.

Told in the Twilight

A pleasant little tea with Mrs. Fred Chown, University avenue, as hostess, and Mrs. and Miss Sweet as guests of honor, was one of yesterday afternoon's pleasant functions. A charming little programme of music and recitations filled in the afternoon. Miss Daisy Chown giving several piano numbers, Miss Ada Chown, whose talents are not confined to singing alone, reciting very charmingly, as well as contributing a number of pretty songs. Miss Hazel Nassie sang and Miss Sweet recited. Tea was served at quartette tables, and the guests were rather shocked to find when the first move was made for home, that the watch hands pointed close to the hour of eight.

Last night was no exception to the rule, and towns people who do not generally patronize the weekly hop turned up at it, and added to the jollity. Among the chaperons were Mrs. Peters, Mrs. Drury, Mrs. Grover and Mrs. James Gidderale, and a very few of the visitors noticed were Miss Ethel Hendry, Miss Bessie Cooke, Miss Peters, Miss Mary Sheffield, Miss Gemmill, Miss Lambert and Miss Kathleen Despard.

Lady Marjorie H. Gordon is one of the most interesting of British bride-elects, according to the London Graphic. Lord and Lady Aberdeen gave their children a cottage, christened by the "Holiday Cottage," in which Lady Marjorie did all that was necessary to keep it spick and span even scrubbing the floors and cooking whatever refreshment was taken in it, when she had guests. Her brothers chopped the wood, drew the water, and did the digging and gardening generally. This taste for manual work is inherent in the family. Lord Aberdeen's brother worked as a sailor before the mast for years, and the two younger sons of the present peer are apprenticed in a shipyard.

Cliff Of Natural Glass

A cliff of natural glass can be seen in Yellowstone Park, Wyoming. It is half a mile long and from one hundred and fifty to two hundred and ninety feet high, the material of which it consists being as good glass as that artificially manufactured. The dense glass which forms the base is from seventy-five to one hundred feet thick, while the upper portion, having suffered and survived many ages of wind and rain, has naturally worn much thinner. Of course, the color of the cliff is not that of natural glass—transparent and white—but is mostly black, and some places molten and streaked with brownish red and shades of olive green and brown.

D. H. MILLER DEAD. He was a Leading Resident of Napanee. Napanee, June 23.—The death occurred on Tuesday night of Davis Samuel Miller, eldest son of the late Samuel Miller of Erin-stown. The deceased has been living in Napanee for over fifty-five years, and was a well-known and respected resident. The deceased was in his seventy-seventh year and for the last few years of his life he has been falling gradually, and the end was not unexpected for some weeks past. Deceased was the eldest of seven children only two of whom are now living, Charles Miller, Grenville, Iowa, and Mrs. J. J. Johnston, Bath. In his young days he was in the grain business in this town and at that time made money fast and being careful and shrewd in business ten years ago he gave to his near relatives about one hundred thousand dollars, and last year he was again generous to several cousins, giving them \$5,000 each. He was of a quiet and retiring disposition, and a man of few words. He, as well as his brother William Miller, who died a little over a year ago, were fast friends of the late Judge Wilkinson, at whose sudden death he was very much affected. He was a staunch reformer and in his young days was versed and conversant with the topics of the day and so that he could not read very much. The deceased never married. The funeral takes place Thursday afternoon, at two o'clock from the residence of his late brother, William Miller, East street. Services at St. Mary Magdalene's church.
