More Taxes Collected A larger amount of taxes for 1904 have been collected up to July 1st than for some years past. In 1902 the amount was \$46,325; 1903, \$47, 642; 1904, 860,559. This latter amount is \$13,517 greater than in 1903, and \$14,234 greater than in 1902. The cause is either due to the change in system or to the better financial condition of the citizens.

Toronto, July 4.- The startling announcement was made by the mayor, this morning, that he was notified by the James Bay Railway company. that they had filed plans expropriating a right of way into the city from the east, and also expropriating the burned area south of Front street, between York and Yonge streets. This is the land the lease of which for a new enion station has been negotiated for between the city and the G. T.R. and C.P.R.

The mayor explained that the ac tion of the James Bay Railway company being a new company, under the railway act, gave this company the ownership in this land pending a settlement with the present holders. The action of the company is believed to be a move in their fight with the C.P.R. and also an effort to control the situation so as to secure adequate consideration in the new plans for a station. Meantime dealings between the city and the other companies are suspended and a conference will be held with D. D. Mann.

Mr. Balfour Has No Intention of Resigning Office. London, July 4.-It was nine years

ago Saturday since conservatives en tered on their long lease of office-Lord Salisbury having become prime minister for the third and last time July 2nd, 1895. Lord Salisbury, the lord high chancellor, and Lord Ash bourne, the lord chancellor of Ireland. !! are the only two ministers who hold the same posts as they did then. In spite of incessant attacks on the government in parliament during the past week, and the difficulty of maintaining anything like normal majorities, there is no reason to believe

that Premier Balfour has any present intention of tendering his resignation nor have the liberal leaders, at this moment, any real desire to attempt to force him to take this step.

Corsets

No woman can have style about her who does not wear a Corset that suits her.

The French made this discovery long ago, and the French women are the best dressed women in the world. All French Corsets are expensive, yet French women are willing to pay more.

Once the Corset is right, the fit of the gown is a secondary matter. Canadian women are just waking up to the fact that the Corset is the secret of a woman's style.

We are having more and more calls each week for the better makes of Corsets, because our customers calls each week for the better makes are getting to appreciate the fact of that Corset money is well spent and brings back interest in improved appearance.

We have Corsets that help the stout woman to look less stout, to give the thin woman the curves she desires.

The aim of our Corset Department is to get the right Corset to the right woman.

For Syracuse, N.Y.—The Regiment In Fine Shape. large crowd of people was at the

ferry wharf on Sunday morning witness the departure of the 14th Re giment for Syracuse, N.Y. At 8:30 clock the regiment came down from armouries. It was, about strong. The brass and bugle bands had the largest turnouts of the season, and played splendidly. The regiment looked remarkably smart neat, and it should have had trouble in carrying off the honors the big parade in Syracuse this morn-Lieut.-Col. Kent and Maj. Cunningham were in charge. Dr. Mylks went as surgeon-lieutenant.

It took only five minutes for the regiment to board the steamer America, There is nothing Satan loves better which lay in waiting with its flags flying. As the steamer backed out

into the harbor, whose water was perfectly calm, the crowd lustily cheered the soldiers, who gave vigorous response. The brass band played the march arrangement of "God Save the King" and "The Maple Leaf," effect being beautiful. The sweet and vigorous strains were wafted by the gentle breeze over Fort Henry heights to the military camp at Barriefield, where a drumhead service was in pro gress. A perfect day favored the trip of the Kingston regiment over the border to join with the Yankees celebrating their national day.
