

VERY TRYING TO WOMEN BEEN RESTORED.

Are the Peculiar Ills Brought on by Catarrh of the Pelvic Organs. (Pe-ru-na is a Tonic Especially Adapted to Their Peculiar Diseases.)

Catarrh is a very frequent cause of that class of diseases peculiarly known as female weakness. Catarrh of the pelvic organs produces such a variety of disagreeable and irritating symptoms that many people—in fact, the majority of people—have no idea that they are caused by catarrh.

Miss Alice Dressler, No. 1813 North Bryn Mawr, Minneapolis, Minn., writes as follows concerning Peruna: "I was suffering from catarrh of the throat and head. One of my college friends, who was visiting me, asked me to try Peruna and I did so and found it all and more than I had expected. It not only cured me of the catarrh, but restored me to perfect health."

Miss Mamie Groth, Plattville, Wis., writes: "I have for several years suffered with frequent backache and would for several days have splitting headaches. Several of my friends advised me to take Peruna and I asked my physician what he thought of it. He recommended it and so I took it and am entirely without pain of any kind now."

Deputy of Detroit Independent Order of Good Templars, writes as follows: "Peruna has been a blessing to me and gladly do I endorse it. For two years I suffered with catarrh of the stomach. I lost flesh and grew thin and emaciated, nervous and exhausted, so that I could neither work or enjoy life. I began taking Peruna and can now eat and enjoy everything I eat. I have been well over a year now."

Miss Florence Murphy, No. 2708 Second Ave., Seattle, Wash., writes: "I suffered for over a year with female trouble, and although I tried several physicians none of them seemed to be able to help me permanently. It only took a little over three bottles of Peruna to make me well and strong. I never had backache, headache or bearing down pains any more."

En Route to Boston. Sunday afternoon five trainloads of members of the Grand Army of the Republic will pass through the lower station en route to St. Louis to Boston. The G.A.R. is probably one of the largest fraternal organizations in the United States and has enrolled as its members some of our most distinguished American citizens.

Fowl Dying. Letters from poultry raisers in Eastern Ontario state that the young turkeys are dying in large numbers. This is undoubtedly due to the wet season. Turkeys are very delicate when from one to two months old and should be kept out of wet grass. On very hot days they should be kept in the shade and on cool days they should be given freedom in the sun.

August 31st has been fixed as the day for the demonstration at Lyndhurst in honor of the seventy-fourth birthday of Thomas Pender of Boston. Souvenir invitations are being issued, and it is expected that fully five hundred relatives and friends will take part in the gathering.

WHALES ARE SCARCE. Temperature Between 53 Below and 67 Above. Ottawa, Aug. 13.—Major Moodie, who went up to Hudson's Bay last fall to establish the authority of the Canadian government in that district, reached Ottawa last night and reported to the mounted police department today. He says that properly constructed vessels should have been sent in getting through Hudson's Bay from June to about the 10th of October. He was not able to get out of the bay this season till July 18th, but the spring this year was exceptionally late. The whalers said that navigation was usually clear in the first week of June. There was only one American whaler in the bay last winter, and it showed no disposition whatever to dispute the full authority of the Canadian government in those waters, and paid customs duty accordingly.

What The Doctor Does. The first thing the doctor does when he is called to see a fretting, worrying baby is to give it a medicine to move the bowels and sweeten the stomach. The doctor knows that nine-tenths of the troubles affecting babies and young children are due to irritation of the stomach or bowels, and that when the cause is removed the child is well and happy.

POLICE COURT.

Mary Blake and Bridget Thomson. Used Comprehensive Vocabulary—Four Juvenile Thieves Will Get Severe Whipping—Walsh's Case a Sad One.

The first case was a charge of using grossly insulting and abusive language against Mary Blake, the complainant being Bridget Thomson. There has evidently been bad blood between the two women for some time past, and apparently both of them are possessed of comprehensive vocabularies, which they do not fear to use when occasion arises.

William Norman, freight checker at the K. & P. station was the first witness called. He and P.C. Page testified to the goods being taken from the cart also to the admission of guilt made by the Brown and Babcock boys. After hearing this conclusive evidence the boys were put in the box in turn, and all acknowledged their share in the theft.
