sational Incident In Connection With The Great Lockout Which Has Forced 25,000 Workmen Into Idleness.

New York, Aug. 18.—The most sen-sational incident in the great building trades lockout and strike, which has thrown nearly 25,000 workmen into idleness, came yesterday, when Philip Weinseimer, president and organizer of the Building Trades' Alliance, was arrested charged with extortion.

When the labor leader was arraign-

ed in court, he was confronted George J. Essig, a plumber, who charged that on December 3rd last he paid Weinseimer \$1,000 so that work could be resumed upon an apartment house on Riverside Drive, Weinseimer's counsel appeared to be Edge, 65; Silver Spring, 75; Collins anxious to have the examination go on at once, but upon motion of Disover, Weinseimer being released

The district-attorney wanted to know if he had seen any other money pass in the court room and the lawyer said that he had not. He said he was willing to show all the bills he had, but the other lawyers objected to this.

FIRES AT MICHEL

The Town Threatened With De

Nelson, B.C.; Aug. 18 .- A special to the Daily News from Michel says the smoke at Michel from the forest fires was so bad that it entered the coal mines and rendered them almost unsafe to work in. All day long the fires burned, drawing steadily closer, but by 10 p.m. a breeze springing up, assumed dangerous proportions threatened to sweep the entire town Many of the citizens then prepared for flight, and a train was arranged to take the women and children out necessary to Fernie. Men began digging great holes in their back yards, and burying their possessions. Thanks, however, to the foresight of Manager Arthur Wilson, of the Crow's Nest Coal company, the town is fully provided for such contingencies with a water system. In a short time the wildings were fairly deluged with water. Fortunately the wind died down, averting immediate disaster. He was not one of those who thought the imperialist idea all wrong, but he did think it was wrongly worked out. The pagans of old would have been convulsed with laughter at two opposing nations praying to the same God. Prof. Shortt thought the proper development of expansion was in the direction of international association, and therefore, favored the international
