When the scalp throws off either dandruff or a gummy substance, it is an evidence of scalp disease, and no time should be lost in correcting it. You certainly would not hesitate to take treatment were you to look at this matter through a magnifying glass. When highly magnified it resembles a working mass of insects. These creatures absorb the nutriment or life-sap of the scalp causing the scalp to become dry and feverish, tesulting in the loss of hair and finally baldness. Seven Sutherland Sisters' Hair Grower and Scalp Cleaner works wonders in all such cases. It thoroughly eradicates all trace of scalp bacteria and makes the hair grow unusually long, strong and beautiful. One so cent bottle is enough to above you that it will do all this and even more.
