

CAN MAKE MEN SOUND AND STRONG. HE PRAISES US. MARK GAY PEARSE ENGLISH PREACHER LAUDS CANADA.

Called To See One Drunken Man... He Tells An Interesting Story. London, Aug. 26.—The British Weekly contains an interesting talk with Rev. Mark Gay Pearse, who has just returned from a year's tour of Canada and the United States.

"I have traveled," he says, "in Canada from Montreal to Victoria, in California and other states. The chief impression left in my mind was an overwhelming sense of the destinies of the English-speaking people. Just think that in the home islands there are 121,000 square miles, in Europe about 3,400,000, while in America, English-speaking people occupy nearly eight million square miles. These figures before me, realize as we travel over the vast continent, and remember that these people for I cannot separate Canada from United States—of one industry, one religion, and one destiny. Surely we see in our

MONARCH OF THE SNOWS. Illustrated By An English Banker. Amongst the most beautiful and the most picturesque of all these delightful mountains which so abound in that nature-adorned land, Switzerland, perhaps the road leading to the foot of Mont Blanc takes the first place. Climbing up to the banquet of the diligence, now supplanted by a railway—the long whip of the driver, soon moves the double team into a gallop, and we are soon revelling in the beauty of some of nature's fairest scenes.

The road now becomes more precipitous and apparently perilous; we have climbed far above the surging current, which is here torn into foam, and hurling itself sheer over a rocky ledge into a wildly boiling crater far beneath, whence it enters a tumultuous

THE RAILWAYS OF JAPAN SHOW GREAT ENTERPRISE.

That Country Will Soon Have 20,000 Miles of Track—The Whole System Is Thoroughly British. People generally do not know that Japan has many means of locomotion other than the "rickshaws" that there are enough miles of railway there to make a double track across the American continent.

One ride in a railway train in Japan does much to disillusion the American who carries the belief that Uncle Sam is the godfather of Japan. From Yokohama ride to Tokio, and but for the character of fellow passengers you could readily believe you were traveling from Liverpool to London. The whole system is thoroughly British.

Report to Money Column... Dr. S. Goldberg, The Possessor of 14 Diplomas and Certificates Who Was No Money That He Does Not Earn.

Both the method and the ability to do so, he says, Dr. Goldberg, the discoverer, will send the needed safety first to 20 men who send him their names and addresses. He wants to hear from men who have evidence that they have been cured by Dr. Goldberg's method, or wish to be cured by it.
