BROKE COMBINE AND GETS ALL THE CIVIC INSURANCE.

City Council Gives Total Amount Of \$45,000 To The Union Company—It Created a Flurry In The Underwriters' Association.

The Report Presented. The report of the finance committee was as follows: "In February last this council adopted the recommendation of the finance committee that the city buildings be protected by an efficient water supply through stand pipes and hose in the interior, that the insurance on the fire stations be cut off, that the insurance on the fair grounds and pump house be reduced, that the insurance on the House of Industry be added to that of the city and the whole readjusted so that no company would have risks aggregating more than \$5,000.

The water service at the city buildings having been completed, your committee has for some time been endeavoring to arrange the insurance so that the above recommendations could be carried out. The insurance on the lighting property was added to the city's other insurance and the whole property classified as annual or triennial risks. A schedule of the annual risks was prepared on which the committee proposed to place \$45,000 insurance distributed as follows: City buildings, \$15,000; furniture and supplies, \$1,500; stock in the dome, \$1,000; portraits of ex-mayors, \$4,000; portraits of Chief Justice Macgibbon, \$500; exhibition buildings, \$4,000; weigh house and scales, \$500; water-works coal shed, \$1,500; lighting plant and buildings, \$15,500; total, \$45,000.

The insurance the committee proposed to divide among nine agents who now have the city's insurance, giving each \$5,000 insurance, the policies to be uniform in wording and each company liable for one-ninth of any loss. In order to facilitate the business and get a uniform rating, the schedule was submitted to the secretary of the Canadian Fire Underwriters' Association, to which all of the companies chosen belonged, with the request that he fix the premium to be paid for each \$5,000 of insurance. He returned the schedule with each item rated, and your committee found that the rate on the gas plant and buildings had been increased 80 cents, and on other properties 15 cents per \$100 of insurance, aggregating an increase in the annual premiums of \$155.67.

Your committee did not feel justified in recommending this additional expenditure and submitted the schedule to the non-tariff and mutual companies. Two of these declined to quote a rate, three offered to take \$5,000 or \$10,000 at 10 per cent. less than full tariff rates, three gave detailed ratings much lower than the tariff rates and the others have not yet replied. "In the meantime your committee has received an offer from the Union Assurance Society of London, England, through Clark W. Wright, one of its agents, to take the whole \$45,000 insurance at the old tariff rates. "The triennial risks are distributed as follows: Court house, \$15,000; House of Industry, \$7,000; caretaker's dwelling, fair grounds, \$500; water-works pump house, \$1,000; water-works boiler house, \$500; water-works supplies, \$500; total, \$24,500. "Your committee recommended that the offer of the Union Assurance Society for the annual risks be accepted, and that the committee be empowered to place the insurance on the triennial risks."

The Discussion. Ald. Meek reviewed briefly the finance committee's work in connection with reducing the insurance, getting rid of discrimination and lack of uniformity as regards risks. It was decided to reduce it from \$92,000 to \$45,000, and make it up in nine policies of \$5,000 each. When that was done, the committee struck a snag, for in reply to the city clerk's communication to the Underwriters' Association came the announcement of a new rating even though the council had expended \$1,000 in further fire protection for the city buildings. A halt was accordingly called, for the finance committee did not intend to be "held up."

Afterwards tenders were invited from non-tariff companies. This came of the offer of the Union company to take the whole amount at the old tariff rate. This the committee decided to recommend to council for acceptance. Mayor Bell—How did the Union company come into possession of the schedule? It only one was sent to the Underwriters' Association. Ald. Meek—Mr. Wright, the agent

THE LIBRARIES IN THE FRONTENAC PUBLIC SCHOOLS.

There are Now Fifty-Four—Frontenac Leads All The Counties In Ontario—Nearly 3,000 Books In All. More than one-third of the rural public schools in Frontenac have libraries in connection with them. Last year only seven counties in the province excelled Frontenac in the matter of public school libraries, and this year, the inspector for Frontenac, has the distinction of leading all others. Much credit is due the teachers for success in this work. The conditions for the establishment of public school libraries are so favorable and the aid so generous that the wonder is there is one school without one, especially so, on account of the benefit educationally that a library bestows on the pupils and parents of a school.

The record for Frontenac is fifty-four libraries, with 2,971 volumes. Following is a list of the schools that have libraries, also the names of the teachers in each school, at the time the library was established: Township of Barrie—S.S. No. 2, Miss B. Roadhouse. Township of Bedford—S.S. No. 10, Miss E. Campall. Township of Clarendon—S.S. No. 2, Miss N. Riley, S.S. No. 8, Miss E. Johnston. Township of Hinchinbrook—S.S. No. 4, Miss G. Jones, S.S. No. 2, Miss D. Snyder, S.S. No. 9, Miss A. Matland. Township of Kennebec—S.S. No. 2, Mrs. F. J. Clarke, and Mrs. C. Lindsay. Township of Kingston—S.S. No. 1, Misses S. Rawden and J. Gibson, S.S. Walker, S.S. No. 20, Miss L. V. Buck. Township of Loughboro—S.S. No. 1, Miss M. G. Jones, S.S. No. 4, Miss D. Snyder, S.S. No. 9, Miss A. Matland. Township of Olden—S.S. No. 1, Miss M. Gates, S.S. No. 4, Miss R. Stewart, S.S. No. 8, Miss K. Keyes, S.S. No. 11, Miss M. L. Bolton. Township of Oro—S.S. No. 1, Miss E. Compton, S.S. No. 2, Miss B. Roberts, S.S. No. 9, Mr. Lawlor and Miss Whyte, S.S. No. 11, Miss M. Hunt, S.S. No. 4, A. T. Spankie. Township of Palmetton—S.S. No. 1, M. G. Storms, S.S. No. 2, Miss R. Bailey, S.S. No. 2, T. G. Burke, S.S. No. 6, Miss M. Perry. Township of Pittsburg—S.S. No. 1, Miss E. Gilbert and C. Ohlke, S.S. No. 3, Miss M. Nesbitt, S.S. No. 5, Miss E. Jackson, S.S. No. 8, Miss E. McCallum, S.S. No. 10, Miss A. Anglin, S.S. No. 12, Miss S. Anglin, S.S. No. 13, Miss E. Bergigan, S.S. No. 19, Miss S. J. Byssop. Township of Port Hope—S.S. No. 3, A. E. Fenwick and Miss E. Lake. Township of Storrington—S.S. No. 1, Miss E. G. Shaw, S.S. No. 2, T. P. Maxwell, S.S. No. 3, Miss A. I. Spankie, S.S. No. 4, Miss Lena Todd, S.S. No. 5, Miss Lulu Todd, S.S. No. 6, Miss V. Sears, S.S. No. 10, Miss C. F. Forke, S.S. No. 12, Miss J. E. Dapidos. Township of Wolfe Island—S.S. No. 4, Misses L. D. Allen and H. H. Hickock, S.S. No. 5, Miss M. L. McKenzie, S.S. No. 15, Miss N. Horne.

There are yet in Frontenac many teachers who have not established libraries at their schools. It is hoped these will now become active, and allow another year to close without achieving something in this respect. Children will read and their lives are influenced by what they read. It is better, therefore, to provide them with selected and approved works than to select at random and risk for themselves.

BUILDING FOOD. To Bring The Babies Around. When a little human machine (or a large one) goes wrong, nothing is so important as the selection of food which will always bring it around again. "My little baby boy fifteen months old had pneumonia then came brain fever, and no sooner had he got over these than he began to cut teeth and, being so weak, he was frequently thrown into convulsions," says a Colorado mother. "I decided to change my diet, so took him to Kansas City for a visit. When we got there he was so very weak when he would cry he would sink away and seemed like he would die. "When I reached my sister's home she said immediately that we must feed him Grape-Nuts and, although I had never used the food, we got some and for a few days gave him just the juice of Grape-Nuts and milk. He got stronger so quickly we were soon feeding him the Grape-Nuts itself and in a wonderfully short time he fattened right up and became strong and well. "That showed me something worth knowing and, when later on my girl came, I raised her on Grape-Nuts and she is a strong healthy baby, and has been. You will see from the little photograph I send you what a strong, chubby youngster the boy is now, but he didn't look anything like that before we bought this nourishing food. Grape-Nuts nourished him back to strength when he was so weak he couldn't keep any other food on his stomach." Name given by Postum Co., Battle Creek, Mich.

All children can be built to a more sturdy and healthy condition upon Grape-Nuts and cream. The food contains the elements nature demands, from which to make the soft gray filling in the nerve centers and brain. A well fed brain and strong, sturdy nerves absolutely insure a healthy body. Look in each package for the famous little book, "The Road to Wellville."

Thousand Island Notes. The steamship Ramona, the flagship of the Thousand Island Steamboat company, had a big excursion party on her regular fifty-mile ramble among the Thousand Islands on Monday. The steamer Arundel, of the Red Coat Line company, has completed her Thousand Island trips for the season of 1904. After having a very successful season she will go to Detroit to engage in the packet freight business.

Flower Show to-morrow.

WAS THE SHOW. A Slim House, But Good Entertainment.

The appearance of William H. West's Big Jubilee Minstrel Show at the Grand Opera House last evening did not draw an extra large crowd, although the audience was highly appreciative and made up somewhat in numbers. Apparently the local theatregoers have seen a great deal of the work of black face artists, and are content to postpone their attendance until the arrival of some of the coming attractions. The minstrel band which played at the noon street parade was very fine, and was but a foretaste of the show proper, which was excellent throughout. The opening scene with the bright costumes and artistic color effect was a thing to be remembered and the singing of the minstrel soloists was greatly appreciated. Each of the performers gracefully responded to numerous encores. The two end men Jack Crawford and Tom Mack, got off some clever jokes and catchy songs. The orchestra of the troupe was stationed on raised seats in the rear of the stage, and played the different accompaniments very artistically. The introductory overture, under the leadership of Prof. Frank Fuhrer was excellently rendered. A feature of the musical act was the singing of the troupe's set, who were given a hearty recall after singing the Hawaiian love song, "Aloha." The concluding number of the first act was the waltz clog as performed by four of the company's clever artists. They made a profound impression and were recalled several times.

In the second part of the performance, the different specialties were introduced. Lavallet brothers, acrobats, did some excellent trapeze work and gave many exhibitions of their agility and strength. McDevitt and Kelly, two-step dancers; were about the best in their class ever seen in the city and introduced many new features. Kartelli, the king of the wire, did some seemingly impossible work on the slack wire and was cheered to the echo. Crawford and Manning, the grotesque eccentrics created much amusement as did also Tom Mack. The performance was concluded by the Norman family, instructors, who gave a pretty exhibition of trick club swinging.

THE CROWDED ROOMS. Relief Is Desired At The Collegiate Institute. As was decided at the last meeting of the board of education, the committee appointed by the board, yesterday, visited the Collegiate Institute where they received a practical demonstration of the crowded condition of the institute and informally discussed the means that should be taken to avoid the overcrowding. Among the members of the board who were present at the tour of inspection were Trustees A. W. Richardson, Dyde, Martin, McCann, Henderson, Birrell, McIntyre, Halfer, Godwin, Laturney, Lambert and Donaldson. Principal Ellis conducted the party to the different class rooms in the building and pointed out to them the need for more accommodation for the pupils.

In form I A, there are 47 pupils and 46 seats; in form I B, 91 pupils and 48 seats; in form I C, 36 pupils and 38 seats; in form II A, 47 pupils and 35 seats; in form II B, 36 pupils and 40 seats; in form III B, 31 pupils and 36 seats; in form IV, 74 pupils and 48 seats. The honor form has 12 pupils and 14 seats. The students of the commercial class, twenty in number, have been crowded out of the regular class and occupy a temporary position in a room partitioned off from the assembly room. The total number of pupils in the K. C. I. is 424, with a seating capacity of 337. This condition of affairs is extremely serious and the board of education first themselves called upon to act promptly in the matter. Among the plans suggested are the building of a new wing extension to the structure and the utilization of the large assembly room in the top flat which could be divided into class rooms.

APPOINTED LECTURER. On German And French In St. John's College, Winnipeg. Edward J. Williamson, M.A., Gore street, received a telegram yesterday afternoon, from Bishop Matheson, of Winnipeg, notifying him of his appointment as lecturer on German and French in St. John's College (Anglican), affiliated with the University of Manitoba. He left at noon to-day for the western city of great prospects. Mr. Williamson is a student of Prof. Macgillivray. He was graduated as master of arts at Queen's in 1899, and for two years was tutor in modern languages there, and also teacher in Hillcroft Academy. The following two years he studied at Leipzig University, Germany, and for a short time at the University of Besancon in France. Last winter, he delivered a course of lectures to the honor German students at Queen's. His recommendations from all quarters concerning scholarship were the very best and he was chosen by the board of St. John's College from among a large number of applicants.

Church Appointments. At a meeting of the Sydenham Street Methodist joint board last night, an invitation was extended to Rev. Charles E. Manning, of Dominion Square Methodist church, Montreal, to become pastor for the year commencing June 15th, 1905. Many applications were received for the positions of organist and choir leader. The board chose Mrs. A. R. B. Williamson as organist, and A. U. Brander, late of Boston, as musical director, and they will begin duty on Sunday, the 25th.

Made A House Surgeon. Dr. Leonard Mylks has been appointed a house surgeon in the Winnipeg General Hospital, and is now there. For the past few weeks he filled a temporary vacancy in the Kingston General Hospital.

DAY'S EPISODES LOCAL NOTES AND THINGS OF GENERAL OCCURRENCE IN THE CITY AND VICINITY—Other Brief Items of Interest To The People.

Let us have Thanksgiving day on Monday. The county jail is at present sheltering thirteen men and five women. The Bishop of Ontario is expected to re-open St. Thomas' church, Belleville, on October 2nd. Many Kingston young men are anxiously awaiting the appointments to the G.T.R. survey parties, which are being organized. A batteryman named Campaign from "B" Battery, was taken to the county jail this morning to serve a term of fifty-six days for desertion. It is reported that a young lady was assaulted by a number of rowdies at the foot of Queen street last night. The toughs made their escape before help arrived. The exchange of clerkship at the division court office is being anticipated. William Carson is in daily attendance receiving instruction from William Robinson, the retiring occupant. At the police court this morning, the seventeen-year-old boy who was remanded from yesterday on the charge of drunkenness was dismissed. He stated that it was his first offence and promised better things for the future. I am dizzy, Lizzy, dizzy, sick with waiting at the phone, "busy" when I call you, my own I "Busy," Lizzy, pray who is he? Who is the rival that I fear? Is he busy, dizzy Lizzy, busy buzzing round you, dear?

It is not creditable to Canadian's hospitality and sense of justice that the two persons fined for selling goods or keeping open place on Sunday have an Italian friend vendor and the Greek who keeps a rifle gallery. Yet many of our own people have broken the law. The Whig is always pleased to receive news items sent by correspondence, but would prefer to have the news in a clean sheet of paper instead of the back of a calendar or a private letter, or even a piece of wrapping paper or a sale bill. A third of a man is the question upon which the legality of Bishop-elect Worrell's election is disputed. That's about the size of the man who would raise such an issue. The lay vote was 115 out of 173 and this lacked the two-thirds attendance required by one-third of a man. Another meeting of the synod may be called.

A CHILD DROWNED. A Sad Event At Channel Grove. A sad death, by drowning, occurred at Channel Grove, on Monday evening, the victim of the fatality being Miss Gordon, a bright, little girl from Chicago, who spent the summer visiting at her grandmother's, Mrs. Macdonald, Montreal street. Her parents, Mr. and Mrs. Joseph Gordon, Chicago, formerly lived in Kingston, and their many friends have heard with sorrow the news of their sad bereavement. The deceased child, twelve years of age, went over to Channel Grove on Monday morning, to visit friends and relatives. She was seen while standing on the dock, about seven o'clock in the evening, awaiting the arrival of the steamer Aberdeen, she, in some way, lost her balance and fell backward into the water. A young man was standing on the dock at the time but being unable to render all the assistance he possibly could, but without avail. On the arrival of the steamer Aberdeen from the city, on which were Willie Hartly and Mr. Osler, they immediately dove down with their clothes and a net, and brought the unfortunate girl to the surface and done all in their power to bring her to, and all the members of the family rendered aid. After being in the water for some time the body was recovered, but too late for resuscitation. Dr. McCarty was unable to renew the vital spark. The remains were brought to the city on the steamer Aberdeen and the interment will probably take place in Kingston after the arrival of the parents from Chicago. Steward William Macdonald, of the steamer Toronto, was an uncle of the deceased child.

MARINE INTELLIGENCE. What Is Going on in Harbor And Elsewhere. Crawford's wharf: Schooner McGee cleared for Charlote. At Swift's wharf: Steamers Toronto down and up; Hamilton up to-night. At Craig's wharf: Steamers Alexandria, Waterbury, and Lake Michigan, down. The schooner Acacia cleared yesterday for Oswego to load coal for Swift & Co. The SS. Westmont was due here this afternoon. She has a cargo of iron ore from Two Harbors, en route to Sydney, C.B. The steamers Toronto exchanged yesterday's trip out of Toronto with the steamer Kingston, the former having better accommodation for the battery horses, which came down this morning. The men of the battery were given a good send off at Toronto.

James Daly, Kingston, will exhibit fruit at the Ottawa exhibition. For years he has won prizes on grapes and apples, of which he raises many varieties.

There are yet in Frontenac many teachers who have not established libraries at their schools. It is hoped these will now become active, and allow another year to close without achieving something in this respect. Children will read and their lives are influenced by what they read. It is better, therefore, to provide them with selected and approved works than to select at random and risk for themselves.

Just arrived at Taylor & Hamilton's, a large consignment of agateware and tinware to be sold cheap. Monkey Brand Soap removes all stains, rust, dirt or tarnish—but won't wash clothes.

BUILDING FOOD. To Bring The Babies Around. When a little human machine (or a large one) goes wrong, nothing is so important as the selection of food which will always bring it around again. "My little baby boy fifteen months old had pneumonia then came brain fever, and no sooner had he got over these than he began to cut teeth and, being so weak, he was frequently thrown into convulsions," says a Colorado mother. "I decided to change my diet, so took him to Kansas City for a visit. When we got there he was so very weak when he would cry he would sink away and seemed like he would die. "When I reached my sister's home she said immediately that we must feed him Grape-Nuts and, although I had never used the food, we got some and for a few days gave him just the juice of Grape-Nuts and milk. He got stronger so quickly we were soon feeding him the Grape-Nuts itself and in a wonderfully short time he fattened right up and became strong and well. "That showed me something worth knowing and, when later on my girl came, I raised her on Grape-Nuts and she is a strong healthy baby, and has been. You will see from the little photograph I send you what a strong, chubby youngster the boy is now, but he didn't look anything like that before we bought this nourishing food. Grape-Nuts nourished him back to strength when he was so weak he couldn't keep any other food on his stomach." Name given by Postum Co., Battle Creek, Mich.

All children can be built to a more sturdy and healthy condition upon Grape-Nuts and cream. The food contains the elements nature demands, from which to make the soft gray filling in the nerve centers and brain. A well fed brain and strong, sturdy nerves absolutely insure a healthy body. Look in each package for the famous little book, "The Road to Wellville."

Thousand Island Notes. The steamship Ramona, the flagship of the Thousand Island Steamboat company, had a big excursion party on her regular fifty-mile ramble among the Thousand Islands on Monday. The steamer Arundel, of the Red Coat Line company, has completed her Thousand Island trips for the season of 1904. After having a very successful season she will go to Detroit to engage in the packet freight business.

THE LIBRARIES IN THE FRONTENAC PUBLIC SCHOOLS.

There are Now Fifty-Four—Frontenac Leads All The Counties In Ontario—Nearly 3,000 Books In All. More than one-third of the rural public schools in Frontenac have libraries in connection with them. Last year only seven counties in the province excelled Frontenac in the matter of public school libraries, and this year, the inspector for Frontenac, has the distinction of leading all others. Much credit is due the teachers for success in this work. The conditions for the establishment of public school libraries are so favorable and the aid so generous that the wonder is there is one school without one, especially so, on account of the benefit educationally that a library bestows on the pupils and parents of a school.

The record for Frontenac is fifty-four libraries, with 2,971 volumes. Following is a list of the schools that have libraries, also the names of the teachers in each school, at the time the library was established: Township of Barrie—S.S. No. 2, Miss B. Roadhouse.
