Miss Agnes Miller, of Chicago, speaks to young women about dangers of the Menstrual Period.

"TO YOUNG WOMEN:—I suffered for six years with dysmenorrhoea (painful periods), so much so that I dreaded every month, as I knew it meant three or four days of intense pain. The doctor said this was due to an inflamed condition of the uterine appendages, caused by repeated and neglected colds. If young girls only realized how dangerous it is to take cold at this critical time, much suffering would be spared them. Thank God for Lydia E. Pinkham's Vegetable Compound, which helped me any. Within three weeks after I started to take it, I noticed a marked improvement in my general health, and at the time of my next monthly period, the pain had diminished considerably. I kept up the treatment, and was cured a month later. I am like another person since. I am in perfect health, my eyes are brighter, I have added 15 pounds to my weight, my color is good, and I feel light and happy."—Miss Agnes Miller, 25 Polomac Ave., Chicago, Ill.—\$5000 worth of original of above letter proofing genuine.

The monthly sickness reflects the condition of a woman's health. Anything unusual at that time should have prompt and proper attention.

SHOT AFTER QUARREL.

An Advance Agent Dying in Hospital. New York, Sept. 12.—Warren J. Ferguson, thirty-eight years old, a theatrical advance agent, is dying in a hospital from a bullet wound received during a quarrel early on Sunday in the Metropolitan hotel on Broadway, and a young woman who gave her name as Mrs. Gertrude Roberts, though admitting it to be fictitious, is under arrest and admits that she did the shooting.

The woman says that Ferguson attempted to assault her, that she painted her revolver at him to frighten him and that during a scuffle the revolver was discharged. Ferguson refused to accuse her.

The woman had been living at the hotel for about two months and Ferguson for a somewhat shorter time. They occupied rooms in the same corridor.

The young woman told the police that she came of an excellent family in Rochester, but refused to give the name of her parents. She was married in Rochester, she said, in June, 1895, and lived with her husband until August of that year, when they quarrelled and parted. She then met Ferguson at the Pan-American exposition and saw a good deal of him for a while and they had met occasionally since.

Goldwin Smith on Earl Grey. Toronto Sun. Earl Grey is personally sure to be acceptable as the head of Canadian society. He is also a man of sense, experienced in affairs, who may be trusted to understand the limitations of his office, and to know that a governor sent out from a distant country to a community which has long been perfectly well qualified for self-management must be intended to reign and not to govern. In England they seem not yet to have thoroughly taken in this truth. They are still under the impression that we require to be ruled, and that they have to choose an governor-general one specially qualified to rule us. If Lord Grey needed an object lesson, he would have one in the example either of Sir Francis Bond Head or of Lord Milner, both of whom, by throwing themselves into the struggle of colonial parties, brought on a disastrous storm. Socially, a governor-general may do good by keeping up our tone and preserving us from any tendency to vulgar dissipation and dissipation. Lord Grey may also find scope for his philanthropy and his zeal for moral reform. There is no doubt that he will be cordially welcomed here.
