How many beautiful young girls develop into worn, listless and hopeless women, simply because sufficient attention has not been paid to their physical development. No woman is exempt from physical weakness and periodic pain, and young girls just budding into womanhood should be carefully guided physically as well as morally.

If you know of any young lady who is sick, and needs motherly advice, ask her to write to Mrs. Pinkham at Lynn, Mass., who will give her advice free, from a source of knowledge which is unequalled in the country. Do not hesitate about stating details which one may not like to talk about, and which are essential for a full understanding of the case.

Miss Hannah E. Mershon, Collingswood, N. J., says: "I thought I would write and tell you

that, by following your kind advice, I feel like a new person. I was always thin and delicate, and so weak that I could hardly do anything Menstruation was irregular. "I tried a bottle of your Vegetable Compound and began to feel better right away. I continued its use, and am now well and strong, and
