KINGSTON IS LIBERAL. The result of the election in th ity is as most discerning persons an ticipated. Kingston is a liberal constituency-it has been such for many day-and is destined to remain so The young men are generally liberal and their addition to the voting force of the constituency insures victory

Besides the liberal candidate, and the cause which he espoused, commanded he support of the electorate, Hon. ir. Harty has been a most satisfacording to tory complaint), a noisy person, storming about the lobbies of parliament and filling the house voted to the interests of the city, and it is the one that does something in the cabinet, and he is a man of whom the people usually prefer.

the other incidents of the times. Kingston has made the better choice, the one that will redound most to its dominion which is most interested in benefit, and its electors will rejoice.

THE COUNTRY IS SAFE. The country has gone liberal again and by an overwhelming majority The government has been endorsed and in a most flattering way. Not one its members has fallen-a most unus ual experience. Never before has general election given such a manifest expression of its approval. The Laurier government went to the people hopefully, with the belief that its policy and administration would be well regarded, and it has been gratified with a declaration of favour beyond all precedent.

The conclusion is that the electors are satisfied with the record of the past eight years, that they realize that the government has much, very much, to do with the prosperity of the times, that the prospects of the future are encouraging, and that it would be very foolish, when things are so promising, to make experiment

or change. A look at the election returns suggests that the government has grown in popularity in all the provinces but one, and that one Prince Edward Island. There the conservatives have carried three of the four seats, and as a consequence of the reduced representation. Keep Your Bowels Regular In Nature's Way.

Suppose your bowels fall to move for a week or ten days. Don't you know you would be quickly prostrated? Of course you do. It is just the same, differing in degree, when your bowels don't move once every day. You know you soon become languid and tired, and your blood gets bad and you feel out of sorts — sick all over — if you don't have a full, healthy passage daily. Don't let such serious conditions develop. Use Smith's Pipeapple and Butternut Pills. They will drive bowel poison out of your system and establish regularity. These little pills are purely vegetable and cure in one night.

This city is liberal, and do not forn one night.

Remember that bowel poison is the direct cause of slow, wasting fevers, loss of memory, female weakness, pervous prostration and senfomale weakness, nervous prostration and general debility. Bowel poison leads on to misery and death as surely as constipation or heart disease; the well-advised use of Smith's Pineapple and Butternut Pills will cure and establish bowel, stomach and liver health. Sick at night, well in the morning. Smith's Pineapple and Butternut Pills cure constipation, billousness, headache in one night. At dealers, 25 cents.
