TELLS ITS PLANS

MAY DIVERT THE LINE IN ANOTHER WAY.

May Take a Southerly Course Through Prince Edward County - A Letter From Mr. Turner.

A. B. Turner, for the construction syndicate of the Ontario Electric railway company, writes to the Napanee Review.

In view of the recent election in Richmond township and the unfair arguments used at that time to oppose the by-law, it seems an appropriate time to explain to your readers in as few words as possible our position in regard to the matter.

We are asking the several municipalities to purchase our securities, not to aid in building the road, but as an endorsement of the enterprise.

We have been approached several times relative to changing our route from Kingston to Belleville, and instead of building by way of Napanee to take a more southerly course through Prince Edward county, we have decided to adopt this route provided the people in your vicinity do not see fit to endorse our enterprise.

We make this statement not as a threat, but that the people may know our plans and may have the full facts before them.

They Had Rheumatism. They are now cured. What they say about the remedy is of far more importance than what we say.

THE VALUE OF CHARCOAL.

Few People Know How Useful It Is In Preserving Health And Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in the stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

You Can Sea Sponges In our window at 5c. That are ahead of anything we have ever had at that price. Large ones, best quality, up to \$1.75.

People Who E Being Sick

There are thousands of men going about the world today, who are apt to die at a moment's notice.

They evidently enjoy being sick, they don't even take the trouble to think it is "nothing much and will be all right." They don't even take the trouble to think it is "nothing much and will be all right."

Some of them don't suffer at all, they are perfectly healthy, but they don't even take the trouble to think it is "nothing much and will be all right."

Others have doctors so much completely discouraged that they don't even take the trouble to think it is "nothing much and will be all right."

And yet thousands upon thousands, even in the most advanced stages of the disease, they don't even take the trouble to think it is "nothing much and will be all right."
