Mr. Cronk, who drove milk to the factory was coming down the hill from Switzerville his horse went a little too fast, as near as we can find out Clayton threw the lines and jumped, the horse striking out faster than ever. Simon Mulholland, who was on the wagon at the time, jumped also. As Mr. Mulholland struck terra firma the wagon, upset, throwing the cans full of milk, off, and our friend was in great danger of being struck by one of the falling cans. However, the cans did not hit him and beyond being deluged with milk and a severe shaking up, Mr. Mulholland suffered no harm. Milk wagons that have to come down such steep hills should be provided with brakes. The Bay of Quinte railway have really done something nice now. They have given us an extra train to Napanee at 10:45 and back at 1:45, the time of the other trains not being changed. Now, that is something like it and the travellers in this section of the country will heartily thank the man who did the thing. It is a convenience

who elected I would feel all right. Mr. Aylesworth as cabinet minister will, no doubt, get a seat. Mr. Deroche made a game fight of it, and we have no doubt, the next election will see him on top. It used to be remarked in the good old baseball days that once Deroche got on the bases, he rarely failed to make the plate. This time he was thrown out by a few feet, but the next time he goes to the bat we expect to see one of St. George's old time home-run hits that will send him to Ottawa with a big lead.

Rich Tones Surpasses Everything New Scale Williams Pianos are appreciated in the West to the same extent in Ontario and the Eastern Provinces. The following letter from Miss Laura R. Patterson, Organist of the Baptist Church Brandon, speaks eloquently in its favor.

Dear Sirs:— "I have just received one of your New Scale Williams Pianos from your agent Mr. Hecwood, and am very much pleased with it. The tone is very rich and the touch even and elastic."

It surpasses any other instrument which I have tried in Brandon. Yours sincerely, "LAURA R. PATTERSON." (Organist Baptist Church.) Brandon Institute.

Be Ready For Croup And Protect Your Children By Keeping In The House And The Thoroughly Tested And Reliable Family Medicine.

To overcome croup you must act quickly. There is usually no time allowed for sending for doctors or medicines. The best way to prevent croup is to keep your child in the house. If you are not prepared to fight this disease, it may be of little use to know that Dr. Chase's Syrup of Linnseed and Turpentine is a positive cure for croup if it is not to be obtained at the critical time. Most persons who have tested this treatment for croup, keep a bottle at hand, so that by prompt action they can prevent the disease from reaching a serious stage.

Dr. Chase's Syrup of Linnseed and Turpentine is composed of simple ingredients of unquestioned curative power, is pleasant to the taste, well liked by children, and can be used with perfect safety by old and young, as long as reactions are followed. MRS. GEORGE BROWN, 71 Harbord street, Toronto, writes: "Our children have been very subject to croup, and we have found that Dr. Chase's Syrup of Linnseed and Turpentine has always brought quick relief. By using it at the first sign of trouble, the disease is checked at once. We always keep this remedy in the house, and in fact, feel that we could not do without it. We also use it for coughs and colds with excellent results, and recommend it to our friends." Dr. Chase's Syrup of Linnseed and Turpentine, 25 cents a bottle; family size, three times as much, 60 cents, at all dealers or Esamson, Bates & Co., Toronto. To protect you against imitations, the portrait and signature of Dr. A. W. Chase is on the family receipt book author, are on every box.
