DEATH IN THEM.

very likely it always will be, what-ever may be the cry of the croakers against it. Yet in many ways it may be truly said there is death in the

Many instances have been recorded where there have been calamitous consequences resulting in the touch of a lady's kiss. A young couple, were sitting in a room together, enjoying each other's society, when, by some mischance the light suddenly went out, as he afterwards stated, in fun deavored to steal a kiss from purpose, he struck his head against a projecting nail, and in a few days

On another occasion a lady was equally attractive to two young She favored one, and permitted o'elock on the afternoon of that which caused him to pick a quarrel with the fortunate man, and they fought. The aggressor got the worse of it by receiving a blow from his antagonist which proved fatal, the other sad tragedies. A young man had formed an analying attachment to a vilions, were built along the main but her parents strongly objected, Hospitalities were conducted on the off the engagement. In his despair he pleaded for a final interview, which was granted; then for a final kiss

which was also given; and with that kiss he went mad, and took the young woman's and his own life. Another type of danger in kissing of which it would be well to take heed, is kissing friends who may be suffering from infectious diseases Some years ago, in one of our south coast towns, a young couple became ardently attached to each other, and had fixed a date for marriage, the young man became smitten with die, and, notwithstanding a strong warning, and in spite of all attempts to prevent her, his young lady would persist on seeing him and kissing him. She caught the disease and quickly succumbed to its effects, but

On another occasion a child taken ill, and had to be isolated. The home to the hospital. The mother broke through all restraining efforts. and would embrace and kiss her child before she would permit it to be removed. In less than two weeks after this she died, having contracted the hild's complaint. The child recovered and is still alive.

There is the funny side in gic consequences of kissing. Kiss-inthe ring is a time-honored game, but it has its terrors. Quite recently the game was being played by old young in the old-fashioned wild gusto, and a young fellow who left the ring This amusement at Malay weddings caich the usual kiss, fell, and caused of rice and confetti in this country, some slight injury to his head, which at the moment was treated very light ly, amid a hearty laugh of all the players; but consequently it brought on apoplexy with fatal results. Perhaps one of the most remark-

able and tragic incidents connecte with kissing was in the case of man who had been locked up charged with theft. He had concealed two sovereigns under his tongue, which had not been discovered by the police authorities, when searching him. At the close of an interview with his sister he kissed her, and in doing so passed the coins from his own mouth had the jury brought in a verdict of to hers. Either to hide her brother's guilt, or by accident, she swallowed the coins. One of them stuck in her Mrs. Harry Tandy, at "The Chest" wind-pipe, and she died from suffoca-
