Mr. William F. Montgomery, Coal Dealer of Albany, N. Y., Was Refused Life Insurance, on Account of Having Bright's Disease, but After He Was Cured by Warner's Safe Cure the Company Accepted Him, and He New Has His Policy.

Mr. Montgomery's Eloquent Letter.

"I enjoyed vigorous health up to a year ago, when overwork seemed to undermine my constitution. I paid little attention to the matter until it was brought heme to me forcibly when I was examined for life insurance. The company refused me a policy. I was so surprised I went at once to the company's doctor to find out the reason. Imagine my horror when he told me I had Bright's disease. Complications of the stomach set in, and although I doctored with well-known specialists, my strength diminished and I grew rapidly worse.

Literested friends brought Warner's Safe Cure to my attention, and told of perfectly wonderful cures they knew of among their aquaintances. In despair I procured the first bottle. After a few days there were some encouraging indications. The light improvement noted continued, and I gained rapidly in strength and health. I was again thoroughly examined. The insurance company said I was a splendid risk antigliadly gave me a policy. Today I am in perfect condition, not even a trace of kidney trouble left. I owe my health and life to Warner's Safe Cure."—53 Hamilton Street, Albany, N. Y. August 10, 1904.
