FACTS FOR THE PEOPLE. tions, to vote upon the manager of the public utilities. But that vote may come later, in February or March, when permission will be asked to raise \$150,000 by way of a loan in order to improve the electric light and gas plants. The water committee feels that it is not required to take the inito be tested at all it must be with vested in the light and power plants about \$200,000. The addition of \$150,-.000 will make the grand total \$350,-

The fire and light committee submits the report of Mr. Campbell for the information of the council, and it justifies the installation of a new coal gas plant on the ground that it can ake an illuminant for 34.8c. per of oil gas is 59.3c. per 1,000 cubic feet. This is the cost of production however, without any charges or exsenses being taken into account outide of the operating department.

The report is a lengthy one and cannot be intelligently passed upon, so far as the electors are concerned, until the committee can submit with ble Figs, Dates, Oranges, Grapes, it a financial statement for the five months, from August 1st to December 31st. This cannot be prepared until some time after the close of the year and hence the impossibility of sub mitting the question to a vote of th

people at the municipal elections. CORRUPTING OFFICIAL LIFE. The influence of money is very great and it can be withstood to some exmay calk as you like, but I have tent. But when it is stated that money influences affect, the moral life of the community, the standards of mblie decency, the situation is very

> Montreal has been 'unfortunate in he scandals of its police depart ments. Unly a few weeks ago . a book was sustained by the charge in court that the head of the police force had accepted bribes from the representatives of indecency, so that they might not be disturbed in the perpetuation of their infamies. Before the blaze of public indignation the chief of police retired, not de siring that the public mind should remain under a strain while the matter

was under investigation.

A successor became necessary, and him the statement was made that money had again "talked" and that the aldermen had been offered bribes for their votes. The appointment was deferred pending a clearing of the political atmosphere and a restoration of the public confidence. Meanwhile the Star is moved to remark "Nothing very much worse could well befall a city than that its police force should be debauched. Upon the integrity of the police department mising a place in heaven to the one rests the security of property and who gives the people good drainage, streets.

ther. We cannot comfort ourselves with the notion that it is only corain forms of crime which the police be induced to 'protect.' " ut a complete washing out of all the atisfy the people of Montreal

PUBLIC OWNERSHIP PAYS. rahip in Great Britain is most enouraging. The statement has been nade, and on the authority of no less ponsible a person than Robert T. Porter, the American statisician, that per), gives a summary of the trans- io prohibitionists for the past few genactions of another year, and it is very

Four times as many water plants are private corporations. There are nearly half as many publicly owned gas plants as privately ewned plants, and tion. he leaders, the men who made and all the while. Though the gas has been

and feet the earnings have been 64 than the earnings of the private comanies. Of street railways there are early as many under municipal control as under private management, but the cities have the larger mileage, and the larger financial returns. The muniipalities own most of the electric ghting and power plants, and, important to relate, "in the entire list of cities only one showed a loss, namely Whithy, and that is a result | Want To Have Martineau Set |

of the first year's working." All this is inspiring, and it comes Special to the Whig. n the extension and improvement of our gas and electric light plants. Inerred to the people, they will be asked to vote upon the manner of management which they desire, whether it should they be paid? The question de

mands serious consideration. shall be elected as commissioners, and the only thing against the aldermen is the possibility of greater change in tinuity in office is essential to the intelligent direction of public business specially when there are large sums at stake and changes in policy which may mean expensive experiments and loss of revenue. Seven good men, who shall be elected by the people (and preferably by the whole people), whose devotion to duty is recognized, and whose capacity for service is unquestionable, as the representatives of I the council will be just as good as the
