### People Who Enjoy Being Sick. Nine Persons Out of Ten Have Kidney

Trouble-Warner's Safe Cure Is the Only Positive Cure.

There are thousands of men and women going about the world today with kidney trouble, who are apt to die at any moment of Bright's disease, diabetes or blood poison.

They evidently enjoy being sick and subject to sudden death, because they don't or won't even take the trouble to find out what's the matter with them.

Some of them don't suffer enough—they think it's "nothing much and will wear off of itself." Kidney disease never cures itself.

Others have doctored so much and are so completely discouraged that they have made up their minds there is no hope for them anyway; the doctor has told them they must die, and at last they believe him.

And yet thousands upon thousands every year, even in the most advanced stages of kidney trouble, when too sick and weak to move in bed, even when the shades of death are hovering near, have been cured—literally snatched from the grave — by Waruer Safe Cure.

LOOK TO YOUR KIDNEYS. ticles float about in it when it stands in a glass or bottle 24 hours, it is absolutely certain evidence that your kidneys have been diseased for months. You need Warner Safe Cure, and need it quickly. It will purify, tone-up and strengthen the kidneys, so that they will do their work properly, and then you will feel and look well all through.

Don't tamper with your kidneys by delay; don't snuff out the last chance of permanent cure by taking the dangerous, useless doctrines sold as "kidney cures."

Warner Safe Cure is the only scientific, certain cure. It's recommended by doctors, and sold by druggists everywhere at \$1.00 a bottle. You should have our medical booklet; it's free.
