make purchases of turkeys, in case lots, at less than 15c., that figure having been bid and refused for a ton or so early in the week. Sales are being made as high as 16c per lb. This means that by the time the turkeys reach the consumer, the cost will have increased to very close to 20c. The local tits prices will advance even further; and this fear expressed in the city is that prices will produce the country, at the present time, there country, at the present time, they have no eggs for sale, the number of hens still producing being next to nothling. There is still a certain quantity being received here daily from country points, but these are mostly of stock which merchants have been holding for a while, possibly in search of better prices. This stock, if it is pretty good, sells at 20c. to 22c, here. Selections are made from them, which sell at about 24c. The most of the activity is in Montreal, limed at 20c. or western limed at 17c.; or in No. 1 cold storage, at 19c. to 19c. for anything really nice in the way of turkey, and there is evidence that this price will have to be advanced by buyers before long. The one feature of the market which appears are compelled to pay 15c. for in No. 1 cold storage, at 19c. to 20c., or No. 2 at about 18c. to 10c. and 10c. for Canadian cattle being 11c. to 11c. and 24c. When your child is ill you dislike to make it take bad tasting medicine. Hence it is well to know that Ayer's Cherry Pectoral is very pleasant. But it is a medicine, a strong medicine.

Time and time again we have published the formula of this cough medicine in the principal Medical Journals of this country and Europe, and have mailed it to nearly every physician in the United States.

So it follows that when your doctor orders it for coughs, colds, bronchitis, or consumption, he knows precisely what he is giving.
