

A Woman's Headache

generally comes because of troubles peculiar to women; these troubles come from a cause simple in itself, but which Beecham's Pills will quickly remove.

A Woman's Backache

is another most serious and painful experience of many women. Thousands of women are taking Beecham's Pills periodically and find them wonderful in relieving the suffering.

A Woman's Suffering can be avoided by using

AT NEWBURGH.

UNCLE TOM'S CABIN NOT UP TO STANDARD

Miss Drewry Given Address And Pursue—Public Library to Move—Movements of Teachers And Other Citizens.

Newburgh, Ont., Dec. 12.—We experienced the first real cold spell of the season last week, Saturday in particular, being very cold.

Uncle Tom's Cabin company held the boards at Finkle's Opera House on Saturday evening.

There was a good house, but the work was very slow.

Years ago George Burtch gave an excellent interpretation of that famous play here, but the company that had it in hands Saturday evening did not please the crowd.

The scenery was not typical of the places represented, and but for the fact that Marks was a little better than the rest, the evening would have been a complete failure.

Marks was a little better than the rest, but the work was very slow.

SPORT REVIEW.

Notes On Baseball, Basketball, and Hockey.

King's Esports... only five races worth \$1,903.

Henley regatta in 1905 will take place on July 4th, 5th and 6th.

The first meeting of the new O.H.A. executive will be held on Thursday.

Buffalo will have a hockey team, drawn largely from the Buffalo lacrosse club.

Walter Kelly, sporting editor of the Buffalo Courier has accepted a position in Cleveland.

Kenneth Mallon, the Morrisburg forward, who was expected to play with Brockville Federal team has finally decided to play professional hockey with Calumet, Mich., being unable to further withstand the tempting offers from that place.

With the advertising that Harry Peel has received in Ontario, would it not be a good idea, now that professionals are allowed to take citizenship, to appoint him as a referee in this district? The natural curiosity to see Harry Peel would be a great lift to the hockey fans.

The twenty-fifth annual Oxford-Cambridge cross-country run took place at Roxhampton Saturday; distance, 7 1/2 miles.

Cambridge was largely victorious, the best time was 42 min. 17 1/2 secs. W. E. Schutt, formerly of Cornell and now a Rhodes scholar at Oxford, was fifth.

Judging from the account of recent hockey game between Port Hope and Pittsburgh the players on both teams earned their weekly wages with a vengeance.

The hockey game between Port Hope and Pittsburgh was a fine stretch of country over 80,000 acres in extent.

After leasing this land for ten years, until nearly midnight and took over into Terra del Fuego.

He was the first Briton to penetrate into the country, and the natives resented the intrusion.

The tall Anson, the stunted Yaghams came in herds, attacked his little castle, and lay in wait for him with arrows.

An intrepid rider and an unerring shot, however, he would ride away concealed by the horse's body and shooting with deadly effect.

For several years he carried his life in his hands, but at last the savage began to regard him with such respect and fear that he christened him "Nort," the native equivalent for "the devil."

For some years past the Scottish pioneer has been undisputed monarch of Terra del Fuego, where he has amassed a fortune. It is with the bagpipes that he rules.

CHRISTENED HIS WIFE. Singular Romance Of An English Vicar.

London, Dec. 13.—Thirty years ago the Rev. John Freeman, then vicar of Woodrick, near Leeds, christened a baby girl.

That baby girl is now the vicar's wife and a happy wife, and at present on their honeymoon in Italy.

The story of the vicar's love is a pretty one. The girl whom he had christened in time joined the vicar's Sunday-school teachers. Her attractiveness and brightness won the vicar's interest, and eventually his love.

But the girl was poor, so he sent her to a good school in the south of England, and when her education was completed put the means of travel at her disposal.

Finally, he married her, the ceremony being performed at Hove recently, by a parson of the Church of England.

DECREASING BIRTH RATE. "Paterfamilias," Kingston, Writes to Mail and Empire.

"Paterfamilias," Kingston, presents a new phase of the decreasing birth rate question in the following rather painful letter:

Dear Paterfamilias, I have of late noticed in your page many letters from correspondents of both sexes, and of various ages, regarding the decreasing birth rate, and in all the correspondence I have failed to find the experience published of a man who has raised a family, I beg to give mine. I am the father of ten children, four boys and six girls; I have raised nine of them, and I am now an old man in my seventy-fifth year, and educated those nine grown-up men and women. I still have to do my own living, and have to do by my own exertions raise at least an average of twenty dollars a week to support my wife and pay the expenses of my children, and getting very heavy upon me. During all those years not one of my family has done anything for me in the way of work, without receiving pay for it, and the same is true of my children. I am told very coolly by my grown-up children that it is my duty to support my wife and family as long as I am able to do so, and that I should result? My family sees how hard it was to struggle to keep the wolf from the door, it has been impossible for me to save up enough money to keep me in my declining years, and I have to worry along as long as I have strength left, and they know when they get married, they will keep me in the same fix, and consequently remain single and have a good time. If heads of large families would confide in you they would not doubt be in a much better position, and with the vast experience, if I had to live my life over again, do you suppose I would have such a large family? Not much, and I should be able to do something for my children, and let the other fellow have the large family and remain poor like thousands of other fathers of large families.

LETTERS TO THE EDITOR. Why Was This Hymn Sung? Kingston, Dec. 12.—(To the Editor): Yesterday, in a prominent church in this city, during the singing of the hymn "Great God What Do I See And Hear," was one of those which the congregation was asked to sing. The hymn would be harmless enough (though its rhythm is faulty and its tune cumbersome and dismal) were it not for the blasphemy of the third verse, which asserts that "the day of grace is past and gone," and that "all the tears and sighs" of the repentant will be "unavailing." This is none of the doctrine of the Church of England, neither is it believed by her clergy, and the selection of such a hymn denotes carelessness, and a lack of appreciation of the harm done by the singing of hymns of this kind. No doubt, when the writer's digestive apparatus was out of order that it is highly censurable.—AN ANGLICAN.

"Toronto's Favorite Hotel." The years as they pass but add to the popularity of the Queen's hotel, Toronto. The hotel has been practically redecorated and refurbished, and may use it. Many mothers rely on Chester's Cure to cure their babies of croup, and it is a fact.

Every Breath of Chester's Cure You take is Curing your Catarrh.

Chester's Cure is composed of Nature's herbs, ignited in a small quantity and inhaled the smoke. As you breathe, the vapor searches out the diseased tissues, fills nostrils, throat and lungs with the soothing, healing medication, and reaches every part of the affected surface. It contains no alcohol, no cocaine, and is so harmless that a child may use it. Many mothers rely on Chester's Cure to cure their babies of croup, and it is a fact.

QUITE FAMOUS.

A EMINENT SCOTTISH CAT-TLE-FARMING KING.

John Farquharson Macrae is Undisputed Monarch of Terra del Fuego and Rules Savages With The Bagpipes.

Liverpool, Dec. 13.—In new hills and plough and playing a pibroch of wamp and his pipes, John Farquharson Macrae, formerly of Scotland, but now of Terra del Fuego, strode the gateway of the Orinda Liverpool this week bound once more for South America. Twenty-two years, spent for the most part among the hostile natives of the Land of the End of the western continent, John Farquharson Macrae clung to his pipes as he clung to his Scottish accent. When he had no human companion to converse with his pibroch resounded over the waters of the Magellan Strait.

As a youth he left his native heath for Argentina, and reared cattle. After a few years he found himself in possession of over five hundred herds, and a couple of thousand sheep.

These animals he trokked over two thousand miles, with the aid of a compass and chart, to Southern Patagonia. He watered and fed his flocks and herds by the way with only five men to assist him, but at the end of a year of hunger and thirst and fat he found himself in possession of a fine stretch of country over 80,000 acres in extent.

After leasing this land for ten years, until nearly midnight and took over into Terra del Fuego.

He was the first Briton to penetrate into the country, and the natives resented the intrusion.
